

WHOLE BAG OF TRICKS WILL BE LOOSED AUG. 14

When The Herald sent a special man out to get the facts of the coming Elks ball game, they little dreamed the magnitude of the plot formulated by Noel and Watters. If may be necessary for The Herald to add another man to the staff, to watch this wily pair.

They are not only picking the best talent of the district but they are adding the brainiest men obtainable to keep up the morale!

When Ole Larsen volunteered to take charge of the bats, he was taken up before he had a chance to reconsider.

When Watters was asked to explain the dreamy smile, he said he had just signed up "crude oil Johnnie" as water boy. We found out afterward he meant Capt. Siemens!

They are sure taking no chance of letting any talent get away. While nosing around the reporter discovered C. H. Underwood in his back yard, practicing the hook slide with a gunny-sack for a base. His wife was taking pictures of him. Probably find them on sale at the pharmacy before Sunday.

There seems to be a dispute between the pitchers. Wiley insists that he makes a more impressive appearance in the box, and Almut thinks he will be more effective with his new "Elix Ball." But Noel darkly hints that neither of them will be the first string man. He has got a pitcher who can deliver with either hand.

Swanson has been signed up for left field, because he is more familiar with the forests and gulches in that section.

Tomorrow the training table starts. The Herald will then know the complete "line-up."

Nickerson has complete charge of the feeding. It is thought that a training table is Ashland's only chance. Jack Herabberger made a bid for the job, but it seems as though he is too conscientious, his menu consisted of too much raw meat and would have made the Elks too savage.

CORRECTION

An error in printing the Fourth of July committee's statement yesterday credited Ted White with receipt of \$200 as expenses for a trip to San Francisco. The actual expense allowed for the trip was \$50.

Klamath Expects Racket Wielders To Show Results

Much interest has been stirred up relative to the outcome of the tennis matches at Medford today and tomorrow and while the Marshfield and Medford players are not so well known here, still newspaper reports which have given results at play in those cities do not herald any one person as a world beater and this fact gives the supporters of the local contestants, who play in Medford in the matches a belief that Klamath Falls will shine in the results.

W. S. Wiley and Charles Hall, local champions, both are in the best of conditions for their matches and the others who left today state that their skill with the racket on foreign grounds will show up better than it does here.

All the tennis crowd felt confident that Klamath Falls would add a new credit to its score when the feeling that victory would crown their efforts.

Hope Dance Will Clear League Debt

The committee in charge of the baseball dance which will take place on Aug. 16 at the Scandinavian hall have their plans nearly complete for a very successful affair.

Tickets will be sold by all the boosters for the city league and it is hoped that enough money to clear up the indebtedness resulting from the Fourth of July games will be secured.

President Swanson has taken much interest in this affair and is supervising the arrangements. It is expected that the hall will have fall decorations such as green boughs and other material from the forests near here, in the ball room. A number of novelties will be introduced at this dance and the attendants are promised an exceptional night of dancing by the promoters.

Poker Combinations On Auto Licenses Basis of Wagers

Sometimes the police of this city have one slipped over them and the latest sport which a number of the boys have used lately on Main street has been to play "auto poker." This is not new in this section but it is one which has a certain fascination in it for the players.

A crowd of the sports stood near Sixth and Main street yesterday afternoon scanning the numbers on every automobile that passed until a number of people were attracted by their antics. Many thought they were special officers of the state, automobile department but it happened that when a California car passed, one of the crowd said, "Three sevens and a pair of ones"—then the secret was out. All filed into a cigar store and there the winner secured his week's supply of Smokes. The automobile license numbers are used for poker combinations.

Cooking Electrically

the ideal method

Electrically equipped kitchens hold no terrors for the housewife. They are cool, cozy, and comfortable in the summer. They eliminate the drudgery, the grime and the nerve racking tension caused by wood stoves. The expense is surprisingly low. Let us tell you about it.
