

THEY'RE LINED UP FOR GRAND DIAMOND SCRAP

It's all off with the big aggregation. Talk about grand opera stars and movie kings! The concessions this bunch want the managers to make is a shame. Just as soon as they found out that the Ashland bunch figured to bring the Portland Beavers over, they conceived the idea that they should get more for their part. They want everything from lady water carriers to serving tea between the innings.

Balficky doesn't want to play firstbase now. He just wants to coach as he has a number of new steps that he thinks will dazzle the visitors.

Watters has come to the conclusion that he will have to use his substitute team. While they are by no means as good, still they are much easier to handle.

At that, it's going to be a great game and the boys are out to win. They are scheduled to play a return game about Labor Day and its almost necessary that the crown shall be theirs to dispose of or keep. The real line up will be the following. Smith or Chuck Zumbum, catchers; Foster or Cook, pitchers; Moody 1st base; Gay 2nd base; Noel, shortstop; Clark, 3rd base; McGee, Norman, Daggott, in the field.

The positions may be changed some, but one can sure figure that Ole Larsen will let no one take his place at the bats.

VISIBLE TEMPERATURE INDICATOR

Acting independently of the radiator or cooling water, a new visible temperature indicator is connected to the engine block.

PREVENTS TRACTOR WHEELS CLOGGING

The lugs on a new tractor wheel work in and out like spades from an eccentric on the axle and clean themselves, preventing the wheel clogging in the stickiest soil.

More than half the auto owners are farmers.

HEATER TRAILER FOR ROAD WORK.

For asphalt road requiring a two-wheeled heater that holds eight gallons of repair material and can be towed behind an automobile has been invented.

NEW SHOCK ABSORBER IDEA.

A new automobile shock absorber utilizes the principle of the resistance of oil against flowing through a small opening.

AIRPLANE AND AUTO COMBINED

An Argentinian has invented an airplane designed to rise directly from the ground or to run along a road like an automobile.

Auto Row Briefs

The only European motor trucks now being sold in Mexico are of German origin.

The American public is spending over \$6,000,000,000 a year, or \$280 per family, for operating and riding in automobiles, 87 per cent of which are passenger cars.

A piece of discarded auto tire tubing cemented to the sole of the shoe will, it is said, outwear two leather half soles. This is easily done by roughing the leather with rasp or scraper, applying three coats of patch cement and a layer of cushion stock, to which is applied the cemented tubing as in the patching of a tube on the road.

Above all, if a lady gets half way across the intersection just ahead of you, don't let her get away with it. Make her back up. Some people never seem to realize the importance of the man in the car.

CORNS

Lift Right Off Without Pain

Magic! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Doesn't hurt a bit.

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and calluses.
