

Death Claims Local Man At Parents' Home In Stockton

Harold D. Cozad, well and favorably known in Klamath Falls where he has resided the past few years, died in Stockton, California last Monday, August 15. He was buried in Park View cemetery near Stockton Tuesday afternoon. He was the loving husband of Ada Cozad of this city.

Mr. Cozad had been with relatives in Stockton the past few months, taking treatments in an effort to regain his health. He grew rapidly worse about a week prior to his death. THE STRAND

The dramatic events of the year 1836, when the natives of Texas fought for their independence from Mexico, form the basis of the Triangle-Griffith spectacle, "Martyrs of the Alamo."

The theme deals with the lives of Santa Anna, dictator of Mexico, David Crockett, Silent Smith, James Bowie, Colonel Travis, Captain Dickinson and other historical characters.

Much care was taken in selecting the cast to portray the famed histori-

cal characters, Sam De Grasse, Walter Long, A. D. Sears, Alfred Pagent, Augustus Carney, Juanita Hanson and Ora Carew have important roles.

Special streets of the Alamo period were constructed for the exterior scenes in order that the true atmosphere of those days will be evident.

An early crop—a small boy's first

The Egyptians believe that crocodiles bring luck, and one of the first lessons taught to their children is that they shall gaze intently upon every crocodile that they are fortunate enough to come across.

In Earlier Days

In former times, when the town butcher or farmer himself dressed and cured the meat for the community, he could not always tell how it would turn out.

His methods were crude; partly traditional, partly guesswork. His tests were few and inconclusive.

Meat packing of today, as carried on by Swift & Company, has changed all that. It is scientific. Nothing is left to chance; nothing taken for granted.

The most painstaking care and attention are given to every step. Processes are worked out on a large scale with minute exactness. Methods are continually revised and improved. Cleanliness is insisted upon. Drastic, incessant inspections are the order of the day.

Swift products are uniform, graded according to quality.

Take bacon, for instance.

Swift & Company set out years ago to make a delicious, savory bacon which should be uniformly excellent.

The result is Swift's Premium Bacon, always the same, always famously good. Today this bacon, wrapped, sealed and branded, has circled the world.

Swift & Company's system of distribution carries it to places which the "town butcher" or the farmer could not reach.
