

DEER HUNTERS PLAN TO WAIT UNTIL SEPT. 1

Barney Chambers states that but few hunters from this district are leaving Klamath Falls for the other side of the range to hunt deer today. Most of the people, he states, are going after buckberries and from now on, the berries will be at their best until after September 1.

The Huckleberry Mountain district is being invaded by a greater number of pickers this year than ever before, he says, and Earl Sharp gathered 7 gallons one day in the big patch this week.

Most of the deer hunters plan to wait until September 1 to do any hunting in this section. Deer are reported to be plentiful this year and a number of fine bucks have been seen at different points in the district.

The game wardens have received special instructions to see that the hunters after deer this year do not violate the law about transporting deer from District One into District Two, during the 11 day interim between today and the opening of the season here on September 1. The law is plain and violators will suffer heavy fines for bringing their kill into this section prior to the date of the open season here.

WEEKLY NEWS

Mrs. C. W. Warren is spending the week visiting at the home of her daughter, Mrs. Chas. Collier of Klamath Falls.

Mr. and Mrs. D. G. Givan and Mr. Philip Peters were visitors in Klamath Falls during the past week. They were accompanied home by Mrs. Philip Peters and small son James.

Marvin Cross and daughter Mattie Jane are leaving for Grants Pass where they will spend the coming week.

Dewey Obenchain of the Klamath reservation died Tuesday, August 16, following an illness of several months. He is survived by a mother and sister. Funeral services were held in the reservation cemetery, last Wednesday.

THE STRAND

A new drama of thrilling interest, in which Charles Ray is starred, together with Margery Wilson and Margaret Thompson, will be seen at the Strand theatre, Sunday. It is called "The Honorable Algy." The youngest and most versatile of the Triangle Inc stars is said to have secured a vehicle that will add immensely to his reputation. The story recounts the adventures of a titled Englishman, youngest member of the Monteth family, who is sent to America to contract a rich marriage and save the Monteth fortunes from bankruptcy. Implicated unwittingly in a sensational jewel robbery, Algy finds life in the United States very exciting for a time. Everybody heaves a sigh of relief when he wins out finally.

AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Grey, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

ABOUT THIS TIME OF YEAR

TWO SEVEN INNING GAMES TOMORROW

There will be two good games of ball played tomorrow at Modoc park between the Ewauna and Jewel teams at 1:30 o'clock and followed by the Plumbob-Copco contest.

The managers of the respective teams claim that they have made changes in their lineups, which will surprise the other teams and should this fact demonstrate itself, there will be two good seven inning games with close scores.

The loving cup which is at stake, donated by Glover and McDonald is a trophy worthy of even a major league team and from the way that the teams are matched in the league standing, it is more than possible for any one to win it. While the Jewel and Copco teams at present are tied for first place and seem to stand the best chance of carrying off the coveted prize, still, the Plumbob or Ewauna are liable to spring a "joker" at any time and upset the plans of the leaders.

Unofficial reports are that Foster and Dunlap will do the mound work for the Jewels; O'Neil and Gerges for the Ewaunas; Hutchins and Noel for the Copcos and Cook and Smith

for the Plumbobs. The lineups and the batteries for the games tomorrow will be announced on the grounds.

The games will be called sharp at 1:30 o'clock and it is hoped by the managers that two snappy clean contests finished in record time will be played.

Make that idle dollar work! Put it in the bank.

IF KIDNEYS ACT BAD TAKE SALTS

Says Bachache Is Sign You Have Been Eating too Much Meat.

When you awake up with bachache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have bachache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Winner of Astor Cup Race

Here's the Carolina, the Bermudian-rigged sloop which won the Astor Cup race at Newport, R. I. She was piloted by Skipper Adams who sailed the Rascal to victory over St. Thomas Light's Shamrock. The Carolina is owned by Rear Admiral George Meade.

Will Wage General War on Pine Beetle Here Next Spring

A. E. Jaenicke, the entomologist assigned by the federal forestry department to assist in checking the ravages of the pine beetle in the Oregon and California forests, reports that from the news which is trickling in, the campaign which will start next spring will undoubtedly be very successful.

One of the factors which has been of great assistance to the service has been the unselfish devotion in arousing interest among the private owners of timber in the infested districts shown by Jack Kimball of this city. Mr. Kimball, according to Mr. Jaenicke, has covered the districts affected and secured the cooperation of private owners which will do more good than anything else in eradicating the pest as the explanation given by Kimball has been directly to the point. One feature that has influenced many owners to take quick action has been the fact that eastern lumber men will soon have to depend upon the coast regions and particularly Oregon for their future lumber supply.

Mr. Jaenicke at present is making

SECOND TO NONE

If we said we were the best and everyone believed it, all other dealers would be compelled to close up shop.

We freely concede there are other reputable dealers who are conducting the profession of optometry in an able and conscientious manner.

But for ourselves, the top line tells its own story truthfully, as to our own equipment, methods and ability.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skin, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks. A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and limestone phosphate act bloom on the inside organs. We must always consider that internal sanitation is usually more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do. Women who desire to enhance the beauty of their complexion should put this hot water and phosphate routine
