Mr. and Mrs. Byron Hardenbrook left this morning in their car for Grants Pass where they will be joined by Mr. and Mrs. Crain of Portland before going on to Crescent City and other coast points for a three weeks' vacation.

### CANNOT ATTEND PEACE PORTAL DEDICATION

Charles E. Hall, president of the state chamber of commerce, has declined the invitation of Samuel E. Hill, president of the Pacific highway association to attend the dedication of the peace portal on the highway at the Canadian boundary near Blaine, Washington. Mr. Hall was unable to accept because of demands of business.

The peace portal will commemorate the signing of the treaty of Ghent, between Great Britain and the United States, December 24, 1914.

The observances at the border mark the formal dedication of the Pacific highway, which now extends from the Canadian to the Mexican border and paving of which is expected to be virtually completed by 1925.

## NEW BUREAU TO SPEED UP AID FOR VETERANS

WASHINGTON, Aug. 25.—Veterans difficulties in obtaining government aid are expected to be greatly minimized by the consolidation of all governmental agencies administering soldier relief under one head—the veterans' bureau. That is what Colonel Charles R. Forbes, of Seattle, director of the bureau, promises. The day of dual responsibility, of divided authority in the government's dealings with former service men is ended, he says, and troubles of long standing among the veterans will rapidly disappear.

Responsibility for adjusting claims, attending to medical needs and of educating disabled veterans, is definitely fixed under the law creating the veterans' bureau. It rests squarely upon the director, rather than between the war risk insurance bureau, the federal board for vocational training and the public health service, the three agencies that formerly administered aid independently.

The problem of providing medical facilities, including hospitals, is regarded as the most difficult of all those coming within the jurisdiction of the bureau. Plans already are underway for its solution. The bureau announces that the \$18,000,000 appropriation for hospital construction will be supplemented by use of authority given the director to enter into contracts with state, municipal and private hospitals for the immediate accommodation of veterans in need of hospital care. The announcement says that 6800 new beds will be placed in use for soldier patients by January next year.

Other duties of the director include inspection of all hospitals having soldier patients, guardianship of 26,630 war risk patients now being cared for in 800 private and 30 government hospitals, command of all public health service doctors and nurses engaged in soldier rehabilitation work, education of men whose earning capacity was impaired by service and who must be taught new means of support, administration of an insurance business with 651,054 active and 397,890 term policies with a computed value of \$2,980,660,235, and the average \$1,000,000-a-day expenditure by the government in meeting the compensation and insurance claims and which are increasing at the rate of 800 claims a day.

### SIGHT RESTORED AFTER EIGHT YEARS BLINDNESS

PUYALLUP, Wash., Aug. 25.—When Mrs. Rosalie La Plante, of Puyallup was able to see for the first time in eight years, recently, the first thing she exclaimed was, "Oh, this kimona is lavender." Mrs. La Plante's sight was restored when surgeons removed a growth from her eyes. She immediately asked that all her clothing be brought to her so she could see the colors.
