**Water Is Thirty Cents a Gallon**

TONOPAH, Nev., Aug. 26—Water isn't quite up to the price of liquor, but it is almost there at Cow Camp, the driest point on the Silver Peak range. They are paying thirty cents a gallon for it and residents agree that it is cheap at that price.

There isn't any competition. The water man has a monopoly and no one envies him his job. The nearest watering place is eleven miles away. For five miles the water is carried in a buckboard drawn by horses.

Then the road narrows in to a trail and horses are unhitched, the water bags tied over their backs and the remainder of the trip is slow. It takes about a day to make the trip. In the old days, when saloons quenched thirsts, there wasn't the demand for water that there is now.
