

LAKESIDE CO. AT WORK ON PLANS FOR REBUILDING

Plans for rebuilding the Lakeside Lumber company's plant, destroyed by fire late Saturday night, are still in a formative stage. Nelson Rounsewell, manager of the company, said this morning there was nothing definite to announce regarding immediate plans for rebuilding, although it is certain the plant will be replaced.

Defective wiring may have caused the fire which caused an estimated damage of between \$70,000 and \$75,000. Insurance is estimated at between \$35,000 and \$40,000. The exact amount will be known when the safe cools enough to be opened.

The lumber stock in the yard was saved. The fire fed by paints and oils, burned fiercely but the firemen put up a strong fight to keep it from spreading to the adjoining plant and yard of Ackley Bros., and were successful. The water pressure was good, reported Chief Ambrose.

The alarm was telephoned in by Alice Blehn, who said that she had hardly hung up the receiver before she heard the fire truck leaving the engine house.

The Lakeside company, in the past year, had installed much modern wood machinery and had a very complete stock of finished doors and windows and other wood work on hand, including the interior wood work for the Main school, all of which was destroyed.

Insurance Man Says Fire Well Handled

Joseph Lee, a San Francisco insurance adjuster, who was here on business witnessed the work of the fire department at the Lakeside Lumber company fire Saturday night. In speaking with Mr. Rounsewell yesterday, he paid high compliments to the manner in which the local fire department handled the blaze and to the adequacy of the water pressure. He said he had never seen better handling of a fire anywhere.

There seems to be an impression current that Klamath Falls is without adequate fire protection and sufficient water pressure but Mr. Lee, whose experience is wide, did not take this view. On the contrary he appeared to think that the local fire fighting facilities were on a par with most country towns and superior to many.

Fills Silo From 9 Acres, Sunflowers

L. L. Arnett, Swan lake rancher, is the first Klamath farmer to report the filling of his silo this year to County Agent E. H. Thomas. Mr. Arnett started his silo last year. It is built in octagonal shape of 2 by 4 planks. Last year he built it 15 feet high. This year he raised it to 30 feet. It is 10 feet across and holds about 50 tons.

Mr. Arnett completely filled the silo with sunflower ensilage from nine acres of dry land. He used a morn binder to cut the crop, the first tried in the county. It worked very successfully.

Last year he fed sunflower ensilage to dairy cows and young beef stock and got very satisfactory results.

Two years ago there was one silo in Klamath county. Last year there were ten. At present seven are being built and by the first of the year there will be at least 17 and perhaps 20 silos on Klamath county farms.

Mints Will Make Millions of Dollars

SAN FRANCISCO, Sept. 6.—It will not be the fault of the United States mints if silver dollars are not plentiful. The San Francisco, Denver, and Philadelphia mints soon will be turning out one million bright silver dollars, running on a 24 hour basis.

Already the San Francisco mint is stamping 250,000 dollars daily, while the Philadelphia mint said to have twice the force, is turning out \$200,000, at the present rate of coinage, it is said the government is saving \$5000 a day interest on the treasury notes thus cancelled.

During the war 275,000,000 American silver dollars were melted into bullion for sale to England, which in turn coined it for use in East India, where the natives demand metal money.

For this bullion England paid the United States \$1 a fine ounce, 1 1/2 cents charges and low rate of interest. The United States is paying 2 per cent on short term notes, which are being replaced with the new coinage.

BRUMFIELD IS ASKING STAY IN TRIAL DATE

ROSEBURG, Sept. 6.—The first legal battle in the Brumfield case started today before Judge Bingham of Salem, who must pass upon the defendant's application for a change of venue and delay of 30 days in the trial.

Attorney Rice for Brumfield presented a lengthy affidavit, charging that opinion in Douglas county was so inflamed against the dentist that he could not get a fair trial here. District Attorney Nesmer presented a dozen affidavits to the contrary.

Sheriff Starmer, in his affidavit, recites that he took Brumfield off the train before reaching Roseburg merely to avoid the gaze of the curious crowd and not through fear of violence. He said that he moved Brumfield from the upper story of the jail merely as a precautionary measure. The defense had laid great stress on the sheriff's actions as showing he had fear of public violence against the prisoner.
