

BOBBED HAIR, SHORT SKIRTS, ARE NOT NEW

CHICAGO, Sept. 12.—Bobbed hair, concealed ears, short skirts and all the other fads and follies associated with modern women's styles are as old as the pyramids, according to the mute story told by the mummies of both in Egypt and Peru in the Field Museum.

Wrapped in their pitched shrouds and encased in sarcophagi covered with curious paintings and hieroglyphs in colors still bright after three thousand years and more, these mummies, all that was mortal of a human being of ages ago, today link the present to a civilization long since dead.

The daily center of thousands of curious eyes, for the mummies seem to hold a strange fascination for every visitor to the museum, they are silent spectators of the passing throngs, but the paintings which adorn their resting places tell more plainly than words of styles, customs and manners of a forgotten age.

"Why, ma, they're dressed just like the girls we see on Michigan Boulevard," exclaimed an aged visitor to his wife as he gazed at the strange figures adorning the sarcophagi!

It is a far cry from the Nile of Cleopatra's day to the Pacific coast of Peru in South America, but mummies from both regions lying almost within reach of each other now, but in life ignorant of each other's existence, bear graphic evidence of the greatest similarity and proficiency in many arts at a time when the Normans were ravaging all of Southern Europe and the old world had almost sunk into barbarism. Dr. J. Alden Mason, Assistant Curator of Mexican and South American Anthropology at the Museum has prepared an outline of the known history of the Peruvian mummies.

Both wore cloths in every weave known to the modern textile artist and made in some cases, finer than are duplicated today by the best mechanical means and the most skilled artisans. Their pottery is unsurpassed even today in its type and their work in gold and copper challenges the modern craftsman. Unlike the Egyptians, the Peruvians used no process of embalming, but so dry were the sands of certain of their deserts that the dry bodies with their wrappings around them, have been preserved perfectly to this day with the objects placed around them.

Near the town of Ancón on the coast of Peru was found the greatest cemetery of these people. A great desert waste, no evidence of occupation is seen on the surface. Even when the first Spanish conqueror passed this way in 1533 every vestige of human occupation had entirely disappeared and the location of the town was quite forgotten. It was not until about seventy years ago that the first graves were discovered and for half a century they have yielded fortunes to treasure-seekers who despoiled them to recover the golden ornaments left beside the bodies.

MERRILL NEWS

An enjoyable evening was spent by the members of the Christian Endeavor society at the home of the Rev. Watson Saturday night. Mr. Watson has been spending his summer vacation here and has acted as pastor of the Presbyterian church. He is now about to return to finish his schooling, and the young people, about 30 in number, came in and surprised him.

Mr. Watson is a young man and liked by all who know him. It seems as though he is doing, and promises to do, great things for the betterment of all with whom he comes in contact with.

Fred Peterson made a trip to Klamath Falls Saturday to look after school affairs.

Chas. Lewis was in town purchasing supplies for his ranch in the valley.

A new pool hall is expected to be opened today, as the pool halls both burned in the recent fire.

The "Big Basin Lumber Co." building has been moved closer in and is to be used as a city hall.

Lealle Pope, who has been in Portland, returned home this week.

The grain crop this year seems to have been large enough to employ several trucks to continuously work hauling grain for considerable time yet.

Two new typewriters have been purchased by the Merrill High school. This enables all who wish to take this subject to do so.

Orchid-Like

It is now the proper thing for a lady to resemble an orchid when she is simply gowned in night lingerie. A satin-striped night robe of indestructible orchid chiffon is striped with satin. It's sleeveless and slightly gathered in front and orchid ribbons hang softly down the front.

WEED IS MENACE TO NAVIGATION

NEW ORLEANS, Sept. 12.—After nineteen years of expensive and laborious effort, with only varying success, interested shipping interests and government experts now express the belief that a method has been found that will solve the problem of the water hyacinth that is choking practically every bayou in the state with its green and lavender floral magnificence.

The new method, which was suggested by Governor John M. Parker, is the simple application of live steam. Preliminary reports from experiments now under way, according to government agents, indicate that the governor has at least pointed a way to check, if not exterminate the plant that has proved such a menace to Louisiana's inland waterways for the last twenty years, and which, according to government observers, is now threatening the fresh water portion of the Panama canal.

The water hyacinth appeared in Louisiana immediately after the Cotton Centennial exposition here in 1884. The plant, which is a native of South America, was exhibited at the fair and its beauty was greatly admired. At the close of the fair a number of plants were taken to the country districts for growth in garden ponds. When they overcrowded the ponds they were thrown into nearby bayous, where they caused heavy losses by choking the bayous and streams to such an extent small vessels could not make their way through the tangled masses of foliage and roots which at places extended for miles and miles with no break of channel through them.

From a beautiful curiosity in 1884 they became a decided menace in 1896 and had so clogged a number of streams that an appeal was made to Congress for relief and, in 1899, \$25,000 was appropriated for the purpose of extermination. Since then hundreds of thousands of dollars have been spent in the fight.

Today there is hardly a stream in Louisiana that does not become so clogged with the hyacinth that navigation is almost impossible in the summer months.

WAVE OF ENTHUSIASM SWEEPS OVER NATION

Thousands Write Grateful Letters of Appreciation As Famous Medicine Continues to Accomplish Remarkable Results—Great Tanlac Laboratories Running at Top Speed to Supply Record Breaking Demand—Over Half a Million Bottles Behind With Orders.

By CHARLES MURRAY GILBERT

ATLANTA, Ga., September 12.—"Tanlac made me feel younger," "It put me back on the payroll," "I now have a fine appetite," "I can eat whatever I want," "No more dyspepsia for me," "I gained weight rapidly." These and scores of like expressions are now heard daily from tens of thousands, as grateful users of Tanlac tell of their experiences. Leading drug men of the country are amazed at the tremendous sales of Tanlac, and point out enthusiastically that nothing has ever equalled the phenomenal demand for this preparation.

At the great Tanlac laboratories at Dayton, Ohio, letters and telegrams are pouring in daily asking that shipments of Tanlac be rushed at once. Many of these orders are for full carload shipments, and quite a few of them for two and three carloads. Although running at top speed, the Tanlac laboratories are now over half a million bottles, or approximately twenty-four carloads behind with orders. This announcement will no doubt be received with great surprise in the drug world, because business in many lines, especially in the drug and medicine business, has been off from 40 to 50 per cent.

Agents in Every Town

One druggist in every city, town and village in the United States and Canada where agencies have not already been established will be awarded the exclusive publicity agency for Tanlac within the next thirty days. These agencies will carry with them a big publicity campaign exclusively for the one druggist in each city and town who secures the agency.

Tanlac is going right ahead more vigorously than ever before. For Tanlac there is no such thing as business depression. In fact, Tanlac does not believe there is such

a thing as hard times; at least, not in the drug business. Things are getting better every day. In a few weeks' time crops will begin to move. Hundreds of millions of dollars will be put into circulation, and business will soon be back on a better and sounder basis than in years.

Notice to Dealers

Many wholesalers and manufacturers stopped pushing at the very first sign of a dark cloud. The result being that many drug lines slumped. Tanlac went right ahead and the result has been that more Tanlac has been sold during the first six months of the present year than in any corresponding period in the past.

Line up with Tanlac. Connect with a product that sells no matter how the times, because of its superior merit.

Although Tanlac has been on the market over six years, it is an actual fact that more Tanlac is being sold today with the same amount of advertising than during any time in the past.

Tanlac will not only prove your greatest seller for this year, but for many years to come.

Tanlac is sold by druggists everywhere.—Adv.

SNAPPED AT LAST!

This is Miss Laura Harlan, social secretary to Mrs. Harding, wife of the president. She does not like to be photographed. This snapshot was made while she was out for a walk in the White House grounds. She is the daughter of the late Justice Harlan of the U. S. Supreme Court.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat If You Feel Back-ache or Have Bladder Trouble

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder disease.—Adv.

Woman's inhumanity to woman causes many men to live and die in the bachelor class.

Monuments
LET the departed ones be honored even in the grave. Let the sculptured marble direct our footsteps to the scene of their long sleep; Let the chiseled epitaph repeat their names and tell where repose the nobly good and wise.

ST. VITUS DANCE SUFFERERS FIND HOPE

Monday Health Talk, No. 2.

This trouble is most commonly found in girls during childhood or about the age of puberty. But it may be found at any age or in either sex.

The trouble usually develops first as an involuntary twitching of muscles of the face or neck and if the trouble is progressive, the area of the twitching spreads. Concentration of mind is poor, the temper is irritable, and the muscles are weak. The victim is easily exhausted. There is little appetite and usually considerable loss of flesh.

Uncle Ben Says: "Nervy, its no use being a forty horse-power human being if about thirty-nine of the horses are sick."

The cause lies in the spine, the pressure on spinal nerves which causes the trouble being in the joint at the base of the brain. Usually the victim of this malady has a habit of carrying the head on one side. Chiropractic spinal adjustments will remove the cause.

Boy Is Well Now

"My son, twelve became sick with St. Vitus dance. He could not eat or dress himself. He was under care of physicians for six weeks without improvement. It was advised to try chiropractic. In four weeks the boy was able to play again. Now he is back in school and doing well."—Anna Koudela, Chiropractic Research Bureau, Statement No. 1279.

Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act upon the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
