NOTICE

TO PATRONS OF THE STAR ROUTES IN REGARD TO SHIPMENTS OF FRUIT, ETC.

The attention of all patrons of the Star Routes served from this office is called to the Postal Regulations governing the shipment of parcel post in large quantities, such as the shipment of fruits etc. The regulations provide that the Star Route carrier must not leave your parcels at the post unprotected where stock might destroy them or bad weather damage them. You must arrange to meet his automobile at your post or box and receive the shipment personally from him, otherwise he will return it to the office here where you may call for it. Shipments of fruit, etc., during September and October are very heavy and their delivery entails a very heavy burden on the carrier. The delivery of a patrons mail enroute must not delay the carrier's schedule time in reaching the postoffices along his line and consequently he has no time to make a delivery of the parcels to your doorstep. He is not required to do so. The regulations also restrict the amount of any one shipment to 200 lbs. at one time, so you must observe this in ordering your fruit, etc. It is advisable, wherever possible for the patron to arrange to receive his fruit shipments at the office as in this manner the limit of quantity would not apply and you will have the satisfaction of handling the fruit yourself. W. A. DESELL, Postmaster.
