

WOULD COMPEL ENFORCEMENT DRY AMENDMENT

CHICAGO, Sept. 22.—An appeal to congress to enact a law to compel city officials to obey their oaths of office in enforcing the 18th Amendment has been made in the form of a resolution passed by the Chicago Law and Order league with assurance that it will be brought up in Congress during the next few days.

The resolution, after asserting that while Mayor Thompson of this city has announced that all of his appointees have been instructed to enforce the law, states that there are not less than 3,500 "dry bars" in the city of Chicago where intoxicating liquor is sold "and the principal offenders in permitting this situation to continue are the Mayor of Chicago and the General Superintendent of Police."

The resolution states that Chief of Police Fitzmorris of Chicago stated before witnesses that "as long as the government allows intoxicating liquor to be shipped into Chicago I will not mop it up."

The resolution then continues: "Now, when the mayor of Chicago and his general superintendent of police take the position that we have shown to you that they have taken, and the conditions as to the illegal sale of intoxicating liquor in Chicago are very bad, and when the mayor and chief of police have under them about 5,000 policemen, we believe that the time has come in the history of this government to find out whether there is not a law that will reach officials of a great city like Chicago, who practically nullify the 18th amendment of the constitution. The time has come when the government of the United States, if there is no law to compel the officials to obey their oaths of office, ought to enact such a law and we appeal to the Senate and House at Washington and ask that, if necessary, a law be passed to cover such cases as this. "One of the dangers to the permanency of this great republic is

that in the great cities lawlessness prevails, the constitution is disobeyed, and what may be the result? A great country may go down from the vice and lawlessness and devilry of the great cities."

The resolution was proposed by Arthur Burnage Farwell, president of the Chicago Law and Order League and copies sent to both the Vice President and Speaker of the House with the request that a committee be appointed to investigate the situation in Chicago relative to the "nullification of the 18th amendment."

Farmers Will Burn Coal, Not Corn

CHICAGO, Sept. 22.—Farmers that raise corn are generally going to burn none of it for fuel this winter because of low prices. That is the judgment of agricultural authorities in big corn raising states.

"I never burned any, nor ever hear of anybody burning any corn," said D. O. Thompson, secretary of the Illinois Agricultural Association. "I guess somebody figured out it could be done and jumped to the idea that it was."

"There will certainly be not much if any of it done in Illinois. We are close to the coal fields and our furnaces are better fitted for coal."

From Iowa comes this word from Charles E. Reed, director of the state crop and weather service:

"The idea that Iowa farmers might burn corn this winter is based on the assumption that we are going to have 30 cent corn. Even at that price the margin would not be great enough to warrant burning corn. Farmers will haul their corn to market and exchange it for coal, because corn makes such very poor fuel."

J. C. Mohler, secretary of the Kansas state board of agriculture said Kansas farmers will feed their corn to livestock, not put it in the stove.
