Get your rubber boots now, Ball Band, Gold Seal Top-Notch and Goodyear K. K. K. Store 20-22

## REGULATION TO MAKE AVIATION SAFE REQUIRED

Herald Washington Bureau

WASHINGTON, D. C., Sept. 22.—Development of commercial flying in this country to a plane of safety comparable to that in rail and water transportation depends upon government regulation of aviation, according to an analysis of the air traffic situation prepared for Secretary Hoover by the Manufacturers' Aircraft association.

Mr. Hoover has begun a study of the commercial aircraft problem in the light of the possible establishment of a bureau of aviation to regulate travel by air. Legislation before Congress would put the control of this means of transportation into his department should the Government decide federal regulation advisable.

Lack of federal control, the association declared, was one of the main causes of accidents in the air which give rise to the belief that flying is extremely dangerous—one of the severest handicaps to the development of transportation by air. There is also lack of official machinery with which to obtain authentic information relative to flying accidents.

However, the association reported, during the first half of 1921 there was but one flying fatality for each 232,142 miles flown by civilians and one injury for every 62,500 miles flown. During the six months, the association said, there were 40 serious accidents in civil flying, resulting in the death of 14 persons and the injury of 52, out of a total of 1,200 commercial aircraft which flew an aggregate of 3,250,000 miles.

All of these accidents except five, the association contended, were due to deficiency in the requisites of safe flying which could be enforced by government regulation. These requisites, the association stated, consist of a machine sound aerodynamically and structurally; an engine of sufficient power which operates satisfactorily; air ports and landing fields sufficiently close together to insure gliding to safety; nation-wide forecasts specialized and adapted to the needs of flyers, and nation-wide charts of air routes. Government inspection and enforcement of regulations making these requisites effective, the association asserted, would reduce the danger of flying to the minimum.

Five of the 40 accidents, the association reported, were due to "unknown causes" and in such cases it added government authority is necessary to obtain the information which will permit of learning and correcting such causes.

Stunt flying, the association continued, was responsible for 50 per cent of the deaths and injuries, but a system of government control limiting this menace to aviation to cer-

### Worth \$85?

Twenty imported hats were auctioned off for \$1700 at the retail milliners' fall show in New York. Here is one of them. Is it worth \$85? It is a draped turban of silver-gray metalized satin with a black agrette upstanding in front. While there is a suggestion of the eastern potentate's turban, the breadth of the hat and the manner of draping makes it more Parisian than Persian.

### Wanderlust Grips the Gentler Sex

NEW YORK, Sept. 22.—The roaming complex, sometimes called the wanderlust, has become epidemic among Eastern girls of debutante years. Not a few of them are tramping across the continent this summer, gathering an occasional "gift" from kindly automobile tourists and walking the rest of the way. So-called sensible shoes, khaki trousers and the will to work when the purse becomes emaciated characterize most of them.

Some of these Eastern girls declare they find the West safer for young women than New York City. Rebecca Brounstein and Myra Levine, former students of Syracuse University who recently hiked from the Pacific to their homes here, praised Western men so highly that many mothers began praying that their dear daughters would not get any of "those crazy ideas of walking across the country" into their heads.

Florence Rosen and Gladys Zimmerman of New York, reached Los Angeles a few days ago after a long tramp across the continent, broken by jobs of stretching octaves on typewriters whenever funds ran low. They liked the open air life so well, that they immediately began saving up for a return jaunt.

Belgium is shortly to begin the construction of a powerful wireless station, which will be capable of transmitting messages to North and South America and to the Congo.

New Fall styles in Dutchess Trousers are here. 10c a button \$1.00 a rip. K. K. K. Store 20-22

tain areas, it continued, would generally overcome.

Danger of collision in the air, the association said, was not great, providing levels of flight for aircraft underway are established and observed and providing stunt flying is controlled. The only collision reported occurred during a stunt performance.

## MANY ASK LAND IN ARGENTINA

BUENOS AIRES, Sept. 10. (By Mail)—Many applications for settlement on land in Argentina have been received from the United States and Canada. The recent government decree opens up 16,000,000 acres of government land for the establishment of colonies in different parts of the republic.

These government lands are to be sold to colonies but it is understood here that the price will be low. They are located as far north as Misiones near the Brazilian border, where the climate is tropical and as far south as Terra del Fuego, which corresponds to the latitude of Labrador. Some of the land already is partly colonized and it is understood that the titles of the present settlers will be adjusted.

The government colonization plan generally is approved by the newspapers because of excessively high land values prevailing. Land is comparatively speaking in the hands of a few individuals who hold the price too high to make it attractive to immigrants or who will not sell at all.

A small farm two hours' distant from Buenos Aires is just as expensive to buy, it is asserted, as a small farm the same distance from a large city in England, France or Germany.

One of the papers, the Times, points out that in order to obtain cheap land the immigrant must go far afield and he often finds that what he saves on the price of the land has been swallowed up by the extra expense of getting himself and his family settled on it and securing his equipment.

Argentina wants immigrants because, for one reason, her agricultural development has been arrested for more than a decade. Charles Tornquist, a leading Argentine banker

## ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Mentho-Sulphur from any good druggist and use it like a cold cream.—Adv.

### HERE AT HOME

Klamath Falls Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills

It is testimony like the following that has placed "Doan's Kidney Pills" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Klamath Falls citizen:

J. J. Keller, 718 Jefferson St., says: "I am glad to recommend Doan's Kidney Pills for they fixed me up in good shape when my kidneys were out of order. I had dull, nagging backaches and a soreness across my kidneys. My kidneys didn't act right so I used Doan's Kidney Pills. They soon stopped the backache and relieved all signs of kidney trouble."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Keller had. Foster-Milburn Co., Buffalo, N. Y.

and economist, says that in the last 12 years Argentina livestock has improved in quality but has decreased in quantity.

A swarm of locusts has been known to land on a ship in mid-ocean, 1,200 miles from land.

Vaudeville at Strand Sunday, 19-24

## GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt, which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jar-Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidney will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations.

### NOTICE OF CONTEST.

Serial No. 010475 Contest No. 1212 Department of the Interior, United States Land Office, Lakeview, Oregon.

Sept. 1, 1921 To Heirs-if-any of Edwin Johnson, Deceased, of Unknown address, Contestee:

You are hereby notified that Joseph W. Noochester, who gives Bend, Oregon, as his postoffice address, did on September 1, 1921, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead Entry

No. 010475, Serial No. 010475 made August 22, 1917, for SW 1/4 NE 1/4 of Section 11; W 1/4 NE 1/4 and NE 1/4 SW 1/4 of Section 14, Township 24, South, Range 8, East of the Willamette Meridian, and as grounds for his contest he alleges that said Edwin Johnson died about November 1920 and that the heirs-if-any- of said deceased

### NOTICE OF BOND OFFERING.

Sealed proposals will be received by the Common Council of the City of Klamath Falls, Oregon, for the purchase of an issue of \$50,000.00 general obligation bonds, in denominations of \$1000.00 or \$500.00, maturing in fifteen years from August 1st, 1921, without right of prior redemption. Said issue to be known as "Klamath Falls, Sewer Bonds" bearing a rate of interest of 6 per cent per annum, payable semi annually. Both principal and interest payable at the Oregon Fiscal Agency in New York City. Said bonds are issued and disposed of under the charter of said city.

Each proposal to purchase must be filed with the Police Judge of said city on or before 8 o'clock P. M., of October 3rd, 1921, and be accompanied by a certified check on some responsible banking institution for 5 per cent of amount of the proposal. Said issue will be disposed of at not less than par and accrued interest. The council reserving the right to reject any and all proposals.

A. L. LEAVITT, Police Judge of the City of Klamath Falls, Oregon. 31-30 have wholly failed to cultivate said homestead or any part thereof since the death of said entryman, but have wholly abandoned said tract for more than six months last past. That said failure to cultivate said tract was not due to their employment in the army or navy of the United States in time of war or otherwise.

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be cancelled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post-office to which you desire future notices to be sent to you.

JAS. F. BURGESS, Registrar. 8-15-22-29

## Hot Water Each Morning Puts Roses in Your Cheeks

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
