Portland Woman Says Tanlac is Grandest Medicine in Whole World

"I know there are a lot of people who have been wonderfully helped by Tanlac, but I don't believe anybody has more cause to be grateful than I," said Mrs. A. J. Turner, 129 1/2 Russell St., Portland, Ore.

"It is just beyond my power of words to describe how I suffered for years from indigestion and nervousness. I had no appetite and the little I managed to eat did me far more harm than good. I got very little sleep, and in the mornings I felt tired and worn out. I was just dragging out a miserable existence and dreaded the future."

"Tanlac was exactly what I needed and I am like a different person now, eat anything I want, my digestion is perfect and I have gained fifteen pounds in weight. I sleep like a child and wake up in the morning feeling fresh and happy. Tanlac is the grandest medicine in the world."—adv.

Plane vs. Navy Test Will Be Conducted at Hawaiian Field

HONOLULU, T. H. Sept. 9. (By Mail).—A miniature "plane vs. battleship" test was conducted here recently by army aviators stationed at Luke Field when the aviation detachment of the Hawaiian department of the army was reviewed by Major General Charles P. Summerall, the commanding officer.

Five planes, starting at a high altitude, swooped down within a few hundred feet of a target floating in the water and scored hit after hit with a steady stream of machine gun fire. The planes made the attack in single file. By the time the fifth aviator in line had completed firing with machine guns in the bow and after parts of the airplane, the first plane was in a position to renew the attack.

General Summerall expressed himself as highly pleased with the exhibition which showed the effectiveness of such an attack against a small boat, he said. A series of aerial acrobates which ran the gamut of all possible maneuvers also was performed by the aviators.

Portland Man Sees Good Outlook for Future of Klamath

Heavy wheat crops have given Klamath Falls a healthy business development, according to Frank Ira White of the chamber of commerce, who yesterday returned from a short business trip in the southern Oregon district.

"Wheat crops on the Tule lake reclaimed lands have averaged from 45 to 70 bushels to the acre," he said. "While there is an excess of hay, there will be a demand this winter. The feeling throughout the Klamath Falls country is good. Box factories have contracts that will run them full force until after the first of the year. The Pelican Bay Lumber company which usually has had to close during the winter months on account of the ice on the lake, has built a box factory, and this will keep the employees busy during the cold season."

"An indication of the growth of the city is shown by the fact that additions have been necessary for the two new school buildings. Klamath Falls claims to be the best business town in the state outside of Portland."—Portland Oregonian.

Hall Waiting Call in Governor Race; Olcott is Silent

SALEM, Or., Sept. 23.—News has been received at the capital that Charles Hall of Marshfield has his eye on the gubernatorial chair, and that his entry into the campaign probably will depend upon reports he is assembling from different sections of the state. Mr. Hall for many years was identified prominently with the business interests of Coos county, but left there about a year ago for Klamath Falls. He recently disposed of his interests at the latter city, however, and again is a resident of Marshfield.

During the special session of the legislature Mr. Hall was chairman of the roads and highways committee of the senate, and in that capacity

had an opportunity to confer with many prominent men from all sections of the state. Only recently, it was said, Mr. Hall, passed a few days in Portland feeling out the pulse of the voters with relation to his prospective candidacy. Upon leaving Portland, it was said, Mr. Hall expressed himself as highly pleased with the political situation.

Rumors that he was considering the acceptance of a \$10,000 a year federal appointment were scouted as ridiculous and without any foundation in fact by Governor Olcott. The rumor has been circulated in connection with the possible elimination of Olcott from the next gubernatorial race. While he refused to comment on his attitude toward the forthcoming political contest in this state, his close friends in state capitol circles take it for granted that he will be a candidate to succeed himself.
