NAVY TO JUNK OUTWORN SHIPS

PHILADELPHIA, Pa., Oct. 8.—Three obsolete battleships, a cruiser and two monitors, will be sold as junk at the Philadelphia Navy Yard.

The vessels are the battleships Maine, Missouri and Wisconsin, the Cruiser Columbia and the monitors Osark and Tonapah. They represent an aggregate tonnage of 53,000. All stores and machinery worth salvaging will be removed before the sale.

The battleships and monitors carried main batteries of twelve inch guns now declared obsolete as effective fighting units, though they all served on active duty during the war as station or training ships. The cruiser Columbia, one of the fastest warships in the Spanish-American war, was used on patrol and convoy duty.

The Maine and Missouri were commissioned in 1901. The Maine replaced the old Maine blown up in Havana Harbor in 1898.

The Wisconsin went into commission in 1907 with the North Pacific squadron. She was turned out by the Union Iron Works on the Pacific coast.

The monitors Tonapah and Osark went into commission in 1900.

Dog Hero Gives Life to Share Fate of Friend

KANSAS CITY, Kan., Oct. 8.—During the burning of the garage at 13th and Stewart, Kansas City, Kansas, a little ownerless dog sacrificed his life that he might share the fate of a horse that died in the flames. The horse was bought from a trader and used for hauling a small ice wagon.

After the arrival of the horse the dog was first noticed about the stall. The dog had many friends among the boys in the neighborhood and divided his time with them but never failed to pay a daily visit to the horse and sometimes followed the wagon on its rounds.

Several attempts were made to rescue the horse from the rapid spread of the fire but the fear of explosion from oil and gasoline prevented the rescuers from reaching the animal.

The dog accompanied each one who attempted to reach the horse and was brought back forcibly several times but finally sprang in alone and made his way through flames and falling timbers and died beside the friend he could not save.

What Size Do you Take?
 Few people understand the meanings of the numbers and sizes on articles of clothing, says London Answers.

In hats and caps the size is one-half the sum total of the long and short diameters of the head. In other words, if your head measures 13 1/2 inches, your size in hats is 6 3/4.

The size in gloves indicates the number of inches round the knuckles when the hand is closed.

The length in inches of your foot is the "number" you take in socks. In women's hose the length of the leg is usually three times the length of the foot.

THIS PORTLAND MAN HAD THE WORST SORT OF STOMACH TROUBLE BUT IS NOW SOUND AND WELL

"Tanlac came to my rescue when I needed help and needed it quick," said Walter Barnett, 1497 Omaha avenue, Portland, Ore.

"I never dreamed there was a medicine that could make as big a change in a man as this one has made in me. I had stomach trouble of the worst sort, my whole nervous system seemed on the verge of a breakdown and I had awful headaches at times.

"Luckily for me I began to take Tanlac and now I'm sound and well in every respect; in fact I just feel good clear to my finger-tips and have more life and energy than in years."

Davy Jones' Rich Cargo.

A diver was sent down recently at New York to locate a case of machinery that had fallen into the river. As soon as he reached the bottom he signaled that he wished to come up. When his helmet was removed, the first thing he said was, "What's the number of the case?" There were so many cases at the bottom of the river that he didn't know which one belonged to his employers. The amount of cargo that is lost in loading and unloading ships is enormous.—Popular Science Monthly.

PULLMAN, Wash., Oct. 8.—Limitation of expenditures by Washington state college fraternities and sororities for formal and informal parties are insisted upon by President E. O. Holland in an executive order received by every group on the campus. The letter reads in part:

"My attention has been called to one tendency which, if not checked will do great harm. I refer to the formal parties given each year by our fraternities and sororities. I have been informed that the cost of music for one of these evenings has been from \$30 to 40. I have been told that the favors for some of the parties have cost from \$1 to \$3 for each person giving the party.

"It is necessary for us to insist that no formal party given from now on shall cost more than \$2.50 for each person present, and that no individual shall pay more than \$5. Informal parties are limited to a cost of \$1 for each person present; no individual to pay more than \$2.

Prejudice Against Glasses

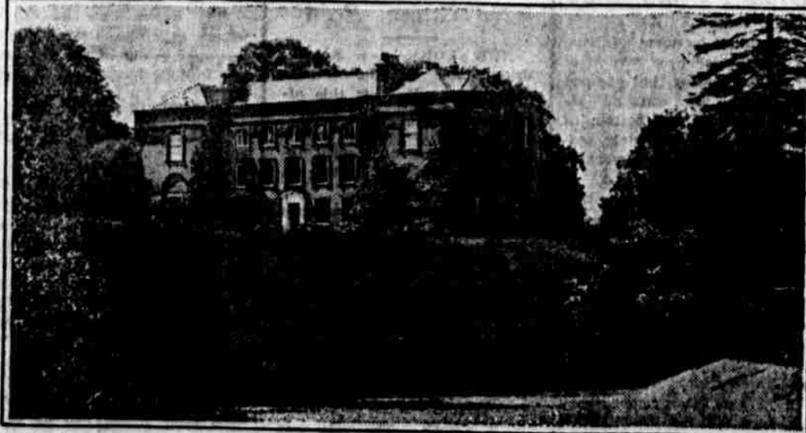

Persons are often prejudiced against glasses and sometimes positively refuse to wear them even when they know they are imperatively needed.

But a contest with age is hopeless, and it is the part of wisdom to yield gracefully to the first summons to surrender.

We are prepared to give you advice in this matter—correct advice, time-saving, sight-saving advice. We are properly equipped for making thorough and intelligent examinations of your eyes, and if you need glasses, will furnish them at as low a figure as correct lenses and perfect fitting frames can be had anywhere.
