

CONFERENCE ON IRISH PEACE LOOKS HOPEFUL

LONDON, Oct. 12.—A rift in the delicate Irish situation seems to hover over the conference of the British government and the leaders in the Sinn Fein ranks, which was held yesterday in the cabinet room of Premier Lloyd George's residence, No. 10 Downing street. The session lasted from 11 o'clock to 1 p. m., adjourning until 4 o'clock in the afternoon.

The Irish delegates to the conference were cheered lustily as they drove away from the meeting. Apparently the secrets of the conference will not be made public as one of the premier's secretaries smilingly remarked to a newspaper man, "You cannot expect any news for weeks yet."

Information gleaned from official circles was that representatives from Belfast may be invited to participate in the conference.

URGE LIMIT ON LICENSES FOR GAME HUNTERS

WASHINGTON, Oct. 12.—During the hunting season this fall more than 5,000,000 persons, estimates the Biological Survey of the United States Department of Agriculture, will go out with a gun into the woods and fields of America. Their going emphasizes the growing need of more adequate and uniform laws to conserve and protect the country's dwindling game supply.

"It has been the practice in many States," the department says, "to issue hunting licenses for the open season to all applicants, with too little regard for the available game supply of any particular area. The hunters may far outnumber the animals hunted within a given section, and under such conditions the extinction of big game especially is inevitable."

"The Department of Agriculture advocates a limited license plan for big game, based on annual estimates of game conditions in each district. This means that the number of big game licenses issued for a given area in one season would depend upon the number of game animals which it has been determined in advance can be spared. Proper administration of this sort should conserve game in the greatest number consistent with the reasonable demands for local grazing and other interests and obviate the necessity for establishing perennial closed seasons, except on areas being restocked."

To Preserve House Said to Have Been Home of Edgar Poe

RICHMOND, Va., Oct. 12.—Although the old stone house in Main street, not far from the Confederate Soldiers' and Sailors' monument on Libby Hill, has been acquired by the Association for the Preservation of Virginia Antiquities and will be known as the Edgar Allan Poe shrine, it is contended by some that the poet had no connection with the building and that the house in which Poe lived here all have been destroyed.

The old stone house is presumed to be the oldest building in the city and is believed to have been constructed in 1685. It was believed that by many persons to have been George Washington's one time headquarters and has been referred to as such. The structure has been completely restored and will be thrown open to the public next month.

In the rear of the house a pergola has been built of brick, stone and beams that came from the old office of the Southern Literary Messenger, which Poe edited. In the yard of the premises will be seen a garden designed to perpetuate the idea of Poe's "Enchanted Garden," the original of which is supposed to have been at Second and Franklin streets.

London's latest musical prodigy is little Miss Audrey Smith, who read music long before she could spell, and performed in public concerts at the age of four.

The University of Missouri has one 17-year-old co-ed and another who is 66.

WILL DISCUSS BETTER PORTS

SEATTLE, Wash., Oct. 12.—Everything that makes for betterment of a port — maintenance, equipment, financing, business organization, encouragement of transport by water, pier construction—are to be discussed by experts from every part of the world at the tenth annual convention of the Association of American Port Authorities, which opened here today.

The convention will remain in session four days. After its conclusion many of the hundreds of delegates here from every section of the United States and foreign nations as well, will attend the convention of Pacific Coast Port Authorities to be held in Vancouver, B. C.

Governor Louis F. Hart of Washington, Mayor Hugh M. Caldwell, of Seattle and Dr. W. T. Christensen, chairman of the Seattle Port Commission, were to deliver addresses of welcome at today's opening session. Addresses on today's program included the following:

- "Harbor Transit Sheds," J. B. Strauss, Chicago;
- "Enlargement of a River Port by Reclamation in the Bay as Its Outlet," by Harry Phillips, Mayor of Mobile, Ala.;
- "Canada's First Winter Port," R. E. Armstrong, secretary of the St. Johns, N. B. Board of Trade;
- "Port Management," L. A. P. Warner, secretary and general manager of the Harbor Board, Liverpool, England;
- "Docks and Harbors—General Structural Layout, Systems and Control, Operation and Changes," D. J. Owen, general manager and secretary of the Harbor Commission, Belfast, Ireland;
- "Cargo Unloading Apparatus," M. H. Bronson, city engineer of Providence, R. I.;
- "Appraisal of Waterfront Terminals and Harbors," H. McL. Harding, consulting engineer for the State of New York;
- "Dock Aprons," B. C. Allen, director of the Port of Houston, Texas;
- "The New Naval Harbor on Lake Michigan," Commander Walter H. Allen, U. S. N.;
- "Port of Portland, Maine," Frederick H. Fay, Boston.

Practically the entire day was to be given over to the addresses and discussions. At noon delegates were to be guests at a luncheon given by Seattle business men.

Will Develop New Gold Mining Dist.

ANCHORAGE, Alaska, Oct. 12.—The Willow Creek quartz gold mining district, recently the subject of several news dispatches, some of them reporting sensational "strikes" will become a "permanent deep mining camp during the coming season," in the opinion of Dr. Alfred Brooks, chief of the United States Geological Survey, who has just completed a partial examination of the locality. Seven stamp mills on high grade ores have been established. Development of the camp will mean a heavy tonnage for the new government railroad, mining men point out.

Dr. Brooks also said there was ample evidence of oil in the valley near Anchorage. Its value, he predicted, will depend on the depth of the overlying structure.

Belgium has adopted the advance program of a medical examination for every child worker not later than a month after he has entered an industrial occupation, to be repeated once a year until the child reaches eighteen.

NOTICE FOR PUBLICATION (Publisher.) DEPARTMENT OF THE INTERIOR, Not coal land

U. S. LAND OFFICE at Lakeview, Oregon, Sept. 26, 1921. NOTICE is hereby given that William Worden, of Midland, Oregon, who, on Nov. 29th, 1916, made Homestead Entry, No. 08398, for Lot 3, Section 28, Township 40 S, Range 9 E., Will. Meridian, has filed notice of intention to make final three-year Proof, to establish claim to the land above described, before C. R. DeLap, Clerk of the County Court, at Klamath Falls, Oregon, on the 3rd day of November, 1921. Claimant names as witnesses: W. G. Sherill, T. J. Lyons, C. W. Potter, J. W. Jory, all of Midland, Oregon. Notice will be published for five consecutive weeks in the Klamath Herald. J. F. BURGESS, Register. S 28-5-12-19-26

PORTLAND MAN IN FINE SHAPE

LUNDQUIST SAYS HIS ONLY REGRET ABOUT TANLAC IS HE DID NOT GET IT SOONER.

"The only regret I have about Tanlac is that I did not get it sooner, for it certainly put me in fine shape in a very short time," said John R. Lundquist, 338 East Twenty-third street, North, Portland, Ore.

"My trouble started with the influenza, and ever since I had it, until Tanlac straightened me out. I was in a run-down and miserable condition. I ate hardly enough to keep a bird alive, and even the small amount I did eat used to cause me hours of suffering afterwards.

"Tanlac did for me what all the other medicines failed to do and I am strong for it. It toned up my system, gave me new life and energy, and although I eat anything I want now I never have a sign of indigestion. Tanlac is certainly in a class by itself."

Tanlac and Tanlac Vegetable Pills are sold by Druggists everywhere. adv

With the advent of women barbers in England, the question has arisen whether they will be required to wear the wig as well as the gown, when they appear in Court.

NOTICE TO CREDITORS

In the County Court of the State of Oregon for Klamath County. In the Matter of the Estate of James Almond Rutherford, Deceased. Notice is hereby given that I have been appointed administrator of the Estate of James Almond Rutherford, Deceased, by the above entitled court and all persons having claims against said estate are required to present them, with the proper vouchers, within six months from the date of this notice, to this administration at the office of Manning & Ganong, Loomis Bldg., Klamath Falls, Klamath County, Oregon.

Dated September 14, 1921. GEO. D. GRIZELLE, Administrator of the Estate of James Almond Rutherford, Deceased. 14-21-22-5-12

Man or Beast—Which?

In this man or monkey? Buster Keaton says he don't know, though he thought he figured himself up that way for his latest screen comedy, "The Playhouse." In that he takes the part of all the players, the orchestra and the audience.

Making Extraordinary Mileage a Certainty

Car Owners want more rubber on the tread where the wear is hardest; more gum between cord plies to perfect a resilient and powerful carcass. And they want a scientifically constructed Non Skid tread with all angles and contacts to resist skidding and give sure traction. Firestone Cord Tires have met these demands of the car owners.

Read Letters Below—

Records from 29,000 to 57,000 Miles

Cord Tires built the Firestone way could not fail to produce mileage. Every day, from all over the country, comes the word that 10,000, 20,000 or 30,000 miles are frequent and consistent records.

Sept. 14, 1921
Firestone Tire & Rubber Co., Jacksonville Branch, Jacksonville, Florida.
Gentlemen:— I submit herewith the history of a 22nd Firestone Cord tire. This tire has run 27,000 miles. I have retreaded it seven times. The average mileage to each retreading was about 1,000. I think you will agree this is a remarkable record. It is especially unusual as I know the owner to be a severe driver. However, he gives his tires every indication of being sufficiently strong for another retread. I am sending photographs under separate cover. U. S. Pynchon, Fleet Clip, Va.

Sept. 4, 1920
The Harvey E. Mack Co., Fairmount & Harmon Plazas, Minneapolis.
Gentlemen:— It occurs to me that you might be interested in the mileage that I obtained from the set of Firestone Cord tires on my Dodge coupe. The first tire went over 28,000 miles. The second tire rolled up a mileage of between 24,000 and 25,000. These were both rear tires and had been cut considerably by chains. The two front tires have gone better than 25,000 miles and are still in good condition. I expect to get at least 40,000 miles from each of them. I need scarcely say that the Firestone Cord will be my tire choice for the future. Archie H. Beard, 222 LaSalle Bldg., Minneapolis.

FABRIC 30x3 1/2 NON SKID EXTRA SIZE \$13.25

In this fabric tire as in our cord tires only Firestone resources and experience can provide this quality at this price.
