Old newspapers for sale at Herald office.

CITY GARBAGE—When you want garbage removed, call 107-23.

FOR SALE—Old newspapers at Herald office.

LEGION PLANS LAID FOR BIG CONVENTION

INDIANAPOLIS, Ind., Oct. 18.—National headquarters of the American Legion announces that it is expected that the legion will, in its third annual convention at Kansas City beginning October 31, reaffirm its stand for adjusted compensation for veterans. Headquarters predicts that the convention will lay plans for a "fight to the finish" on that issue before Congress, and that it will take steps to relieve distress among 900,000 ex-service men who are reported to be unemployed.

More than 1,000 voting delegates will be present, representing 11,000 posts of the Legion. Preparations have been made to care for 100,000 out-of-town visitors in Kansas City during the convention.

A survey of the Legion sentiment throughout the country as expressed in instructions to delegates and in actions by state and county conventions of the Legion, reveals, says the announcement, the following additional issues on which it is likely that the national Legion assembly will declare itself:

It is held certain at headquarters that immediate action will be taken for temporary if not permanent relief of the jobless veteran. A national committee of the organization has been making a study of relief measures following country-wide survey.

It is affirmed by some members of the Legion that passage of the Sweet bill, creating the Veterans' Bureau, has not fully overcome the difficulties which have prevented disabled men from obtaining their rights and this question will be considered. In each of the 14 regional districts of the Veterans' Bureau a representative of the Legion has been assisting the bureau in adjusting points between posts and individuals. These representatives will be able to present to the convention reports showing just what the new bureau is or is not doing.

Further plans for obtaining passage of the Federal-adjusted compensation bill are to be considered. Legion representatives say that almost every state convention since the recommitment of the measure has passed resolutions of firm support for its policy of pushing the

bill. The organization's national legislative committee will present a report on the subject with recommendations for further procedure.

The convention, it is expected, will consider the question of limitation of armaments in view of the importance of the international conference in Washington opening on Armistice Day. At its first and second national conventions, the Legion declared its course as a medium between jingoism and blind pacifism, and its military policy that of preparedness.

Questions have arisen among the membership concerning the definition of the Legion's policy of absolute neutrality in politics, the states and posts being at variance in their interpretations of the ruling. The Wyoming Department has proposed an amendment to the constitution to allow "protection of the candidacy of any person seeking public office when his election would, in the judgment of the Legion, promote the purposes for which the Legion was organized."

The Legion is pledged to "law and order" and "neutrality in disputes between capital and labor," it is pointed out. Means of disciplining single posts of individuals, which violate these rules are to be brought up in the convention.

The Legion's recommendations at its first two conventions that the "so-called gentleman's agreement with Japan be abrogated" and that "foreign-born Japanese be forever barred from American citizenship" is expected to come up again. The Legion in California, Texas, Arizona, Washington, Colorado and Nebraska has supported the enactment of laws prohibiting land-holding by the Japanese. Washington Legionaires went on record as favoring the return of all Japanese in this country to their native land.

Whether the Legion will stand for civil service preference for world war veterans not only in appointments but in promotions is expected to be for decision.

Almost every Legion state convention has passed resolutions demanding the return of the slacker Bergdall, and this point, with a review of the publication of slacker and draft deserter lists, will come up for discussion. It is believed likely that the movement for the release of Eugene V. Debs will also be considered. Legion Committees have gathered a mass of information on these subjects for the convention's guidance.

A national committee on naval affairs will present a report dealing with the size of the navy, the relative importance of the surface fleet, air

Twenty-Five Years Ago in Linkville

forces and underwater craft, disintegration of the naval reserve etc.

The military affairs committee will offer a report, chiefly on the possibilities of Legion encouragement of the national guard and organized reserve. All told, national affairs committee will present important reports to the convention and several of them will make far-reaching recommendations.

On the last day of the convention a national commander, five national vice-commanders and a national chaplain will be elected. There are no announced candidates. New Orleans, Baltimore, San Francisco and Houston, Texas, are in the race for the meeting place of the 1922 convention.

Northwest to Ship Apples in Barrels

WALLA WALLA, Wash., Oct. 17.—Ten thousand barrels of apples are to be shipped from the Pacific Northwest in barrels this year as the result of the entry of a new concern into the field, according to an announcement made here. This will be the first time, it is said, that apples have been shipped from the Northwest in barrels.

The apples will be second grade, marking the first time also, it is said, that second grade fruit has been shipped east of the Rocky Mountains from this section of the state. There is said to be a good demand this year for small apples due to the crop shortage in the east.

Goldendale, Lyle and White Salmon will pack and ship apples in barrels, the announcement said. The barrels are being manufactured in Portland, Ore., at the rate of a car a day. Douglas fir is being used and is said to be proving satisfactory.
