### OREGON BREVITIES

**SALEM.**—Samples of the 1922 automobile license plates have been received at the offices of the secretary of state here. The plates have a yellow background with black figures, and were purchased at a price of 17 1/2 cents each. Last year these plates cost the state 21 cents each.

**TILLAMOOK.**—The entire tax levies for Tillamook county on the 1921 rolls amounted to \$805,000. Of that amount \$382,310 was paid in the first half of the tax collection and \$306,296 in the second half, leaving \$116,393 delinquent. This is somewhat near the same amount of taxes that were delinquent last year.

**UNIVERSITY OF OREGON, Eugene.**—Lyle Palmer was high man in the physical ability tests for men in the university gymnasium classes. Ninety-seven out of the 183 men taking the test passed with sufficiently high grade to excuse them from regular gymnasium work.

The outcome of these tests shows that the men of Oregon have exceptionally high physical ability", said H. A. Scott, head of the department.

Kelly Brandstetter, of Eugene, and Harry L. Meyer, of Portland, tied for second place in the test with a total of 88 points. Lyle Palmer, who won first, was a member of last year's polo and swimming teams.

**PORTLAND.** — Ross Franklin, 393 Lombard street, was fined \$50 and his driver's license was confiscated for 30 days by Municipal Judge Rossman on charges of falsifying to give right of way. His automobile had collided with another driven by Jack Gray, 1137 East Seventeenth street north at Union avenue and Multnomah street Tuesday.

### PLATSAM AND JETSAM

Some men are born liars, while others acquire the art.

The experience a man buys is seldom up to the sample submitted.

Nearly 600,000,000 pounds of crude rubber were used last year in the manufacture of automobile tires in America. Of this immense total, Brazil contributed more than 58,000,000 pounds, the Dutch East Indies an equal or slightly larger amount, and the British Straits Settlements nearly five times as much as either of the other places named.

In addition, supplies were drawn from the Belgian Congo, French Africa, Venezuela, Mexico, Peru and Panama.

Bewhiskered old humbugs are more popular than barefaced lies.

A man's ideas of women are formed from experience rather than observation.

Be careful of your thoughts, for they are liable to break out into words or deeds at any time.

"Dr." is an ambiguous abbreviation when used to express the relationship between the patient and his physician.

## "The Highest Law"

By Lewis Allen Brown

A Ralph Ince Production

She had given all she had and now, her last and only son was to be taken from her—so said the Law of the Land. But there was a higher law, which was governed by the heart and not by the mind and—just make it a special point so see this gripping drama of heart interest.

"Great Minds Originate, Fools Imitate."
