**FOR SALE**—Old newspapers at Herald office.

**High Compliment Is Paid Salvation Army Work**

Calvin Coolidge, Vice-president of the United States, when asked his opinion on the functions and the activity which the Salvation Army exerted in its humanitarian work, said:

"The Salvation Army taught its great lesson of Americanism on the firing lines of France. It is carrying on the same ideals during this trying period of reconstruction. This is accomplished to a great degree by its method of applying 'practical Christianity.' By extending a helping hand in illness, by providing food, clothing, fuel and the innumerable other means of helpfulness to stricken humanity, regardless of race, creed or color, The Salvation Army naturally draws to it the people of many nationalities. Is there a more fertile ground for the sowing and developing of the fundamentals of true Americanism?"

Nearly 800 species of fish have been classified in the waters in the harbor of Ambolna.

# SUITS AGAINST UNITED STATES TOTAL BILLIONS

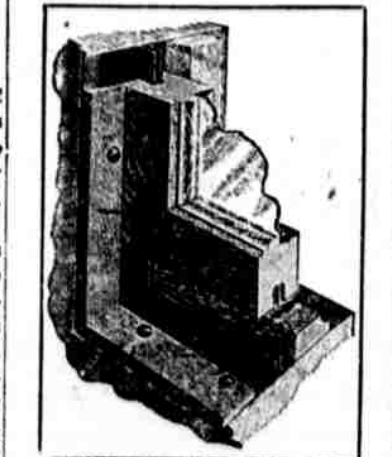

WASHINGTON, Oct. 22. — The United States court of claims has reconvened with a calendar of large and important cases for the winter term. Upon the court docket there are actions involving approximately \$300,000,000 arising out of the country's activities during the world war and the influx of these cases has only begun, the ultimate aggregate of such claims being estimated between \$2,000,000,000 and \$3,000,000,000.

These actions are brought into the court by plaintiffs having claims against all departments of the Government—the War Department, in which claims involving approximately \$5,000,000,000 have been filed; the Bureau of Internal Revenue, which has before it claims for refunds and rebates amounting to many millions; the Shipping Board where cancellations alone involve over \$550,000,000; claims for patent infringement of which \$200,000,000 have already been filed in the various courts, claims made by the railroads, amounting approximately to \$2,250,000; claims proportionately large arising from the Housing Corporation, War Risk Bureau, Food and Fuel Administration and a large amount of claims of miscellaneous character.

The variety of claims pending in the court is almost unlimited, including actions for requisitioning of ships and railroads, transportation of troops, ammunition and supplies, infringement of patents for high explosives, submarine boats and torpedoes, wireless and radio apparatus, contracts for anti-aircraft engines and guns, military and naval supplies and ammunition, appropriation of camp sites and naval bases, together with contracts for manufacturing and acts of commandeering of almost endless variety.

There are many novel and interesting questions raised, especially in suits for infringement of patent. One inventor claims \$1,000,000,000 for the little pocket books of stamps that are sold to the public at every postoffice. Another claims that as early as 1905 he invented a gliding machine involving the principle upon which every airplane operated by the Government is constructed and if successful may recover \$10,000,000 and \$995,000 is asked for infringement in the manufacture of torpedoes, and about \$30,000,000 for radio apparatus. Claims are made for injuries to person and property by mail trucks and reimbursement is claimed by farmers for destruction of lands and crops by alighting mail planes. The owner of intoxicating liquors whose supply has been illegally confiscated by zealous prohibition enforcement agents seeks indemnity in money damages. In preparation for the disposition

## THE LAST CHANCE THIS YEAR

T. L. Collier, who installs the National Metal weather strips, is in the city for the purpose of placing the strips on a few houses that ordered it when he was here a few months ago. He has brought with him an extra supply and will be able to do a few jobs while here this time. It is a case of first come first served, and as he will not return again until next June, it is advisable for those who wish the strips to place their orders at once. Orders may be left at the Herald office. 15-22.

of this new business the Court of Claims has so cleared its dockets that not only pending suits but actions based upon war claims are receiving immediate attention and all cases are disposed of as rapidly as they are prepared and presented for counsel.

Feather tipped shoes are the latest in Parisian styles.

A number of Australia plants are covered with hair.
