

# LEGISLATORS PASS BILLS TO AID FORESTRY

FORTLAND, Ore., Oct. 26. — Probably never in the history of the country and especially in the Northwest has there been such a marked interest in forest preservation by state legislators as at the present time, report officers of the Forest service. A new forestry committee of the Washington State Development Bureau realizing the increasing importance of the subject to the North Pacific region has called a forestry conference for October 21, to be held in the Seattle Chamber of Commerce, the object being to lay the foundation for a state forestry policy.

Oregon has shown greater activity and interest in forestry than ever before. No less than 33 states have now provided for some sort of forestry activities and 25 of these share in the Federal co-operative forest protection fund, allotted to states maintaining an effective fire detection and suppression system. Two others have also recently applied for such assistance. Public backing of the movement to preserve the remaining forests from destruction by fire, and put idle forest lands to work growing trees, is becoming widespread, and the effects of popular demand for action is clearly shown in the state laws passed this year.

Pennsylvania, under Commissioner of Forestry, Gifford Pinchot, leads all states in forest activities. The biennial appropriation passed by the legislature carries \$1,870,000, one million dollars of which is for fire protection.

The Minnesota legislature appropriated a total of \$275,500 for general forestry work for the next two years, of which \$125,000 a year is for the fire protection, with an additional \$44,000 from the State Board of Relief, and \$45,000 for the equipment of a flying field near the Twin Cities.

In California the legislature voted an increase for the State Board of Forestry, for the biennial period beginning July 1. \$75,000 was appropriated for the prevention and suppression of fires; \$27,000 for general administration; \$10,000 for a study of watershed areas, and \$35,000 for the establishment and maintenance of state forest nurseries. The legislature also voted \$300,000 for the purchase or re-wood timber for park purposes along the State Highway in Mendocino and Humboldt counties; the area to be administered by the state board of forestry.

## HUFF-ROSS GO PROMISES TO BE REAL SCRAP

Some little feeling has crept into the coming boxing event which is staged to come off at McDonald's Hall on November 12, according to the friends of the two principals in the main event, Billy Huff of Chiloquin and Bob Ross of Los Angeles. Chance remarks which supporters of the two men have carried to the respective training quarters and caused some rather caustic remarks to arise from the principals and it is thought that possibly a feeling existed which might make the two men stage a battle royal.

Friends of Billy Huff say that the story coming from the training quarters of Ross that he will secure a knockout early in the fight sounds like child's talk for no man, who had to use five rounds to dispose of Bob Allen, need lay claim to getting a K. O. punch in on the Chiloquin boxer. Huff himself scouts the idea and stated yesterday that he would allow Ross all the chances he wanted on November 12 to test out his theory.

Ross supporters say that Huff has been "blown sky high" by local friends and that the California boy will surely win the decision. Huff, they say, has been a petted ideal around Chiloquin so long, and the matches he has had here were with only small fry in the boxing world, that he needs a puncture in that pugilistic bonnet which he wears. Some neat bets have been wagered by supporters of each man and there seems to be an abundance of Huff money show up when bets are posted.

### Huff to Box Tom Sharkey, Medford

Billy Huff and a number of Chiloquin friends left this morning for Medford where Huff will be staged as one of the principals with Tom Sharkey, a Medford boxer, in a ten round main event Friday night. The men will box at catchweights. Sharkey is reported to be somewhere in their neighborhood of 185 pounds, while Huff will tip the beam at 153 pounds in his street clothes.

### Working Out

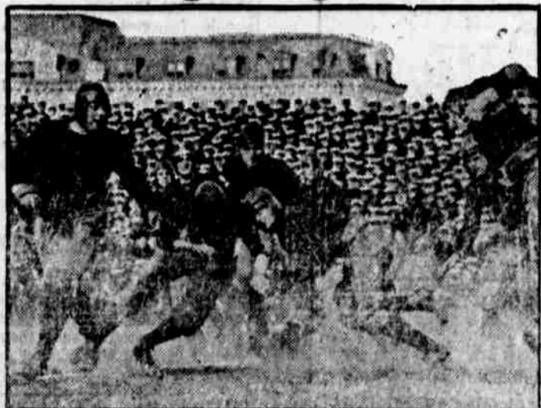

Mrs. Evelyn Forsythe, New York society horsewoman, giving "Jim" a workout in Central Park, in preparation for the annual horse show.

Huff stated that while he had a hard battle ahead of him to secure a decision, still he feels that despite the vast difference in the weight, he still can win. "Sharkey may outweigh me, but can he outpoint or out-fight me? That is the problem he faces and I intend to show that I can give away weight and still win," Huff told a number of his friends yesterday.
