And yet he could not leave him to his fate, this man who had plotted his downfall and his ultimate destruction. And so, with the flames roaring ever closer, he dragged his limp form to the rail and dropped him into the small boat that lay alongside. ### CAN'T RUSH TO SAGHALIEN

Japanese Government Bars All but Business Firms Approved by War Office.

There will be no rush of adventurers to the new fields for exploitation opened up by the Japanese occupation of Russian Saghalien, according to Mr. Murakami, chief of the fishery bureau of the department of agriculture and commerce, who is quoted in the Yomuri:

"None except those who really mean business and are in a position to seriously transact business will find any place for them in Saghalien," said M. Murakami. "All rights there are in the hands of the military command, and anyone that wants to go there, row must obtain a permit from the war office. Certainly the forests there will yield plenty of wood pulp and other raw material, while there are rich coal mines and possibly oil wells. But the chief product of that region is the output of the fisheries."

Speaking of the fishing rights in Saghalien, Mr. Murakami said that after consultation with the army command an auction was conducted at Nikolaievsk for those rights over which the army command is able to furnish protection. No detailed report of the auction has been received. The bidders had to file their applications with a deposit to guarantee their good faith, and they had to be persons who were qualified by long experience in fisheries in that neighborhood.

The Yomuri says that many reputable business establishments have been holding back from enterprises in Saghalien for fear of the competition of adventurers and the hurt their reputations might suffer in a mad scramble for rights and concessions.—Japan Advertisers.

### Which Way Do You Sleep?

Do you sleep with your body lying from east to west or are your toes pointing southeast while your head lies northwest? If you are lying in this position, you are under the pressure of the magnetic meridian. In other words, you are sleeping under a tension and there is a bad effect on the blood pressure and the pulse rate. "Change your bed with the head north or south and you'll sleep better."

These are some of the theories propounded by Dr. W. W. Bailey of Davenport, Ia., secretary of the Central Society of Physical Therapeutics, which held its convention in Chicago a short time ago. The convention was made up of licensed doctors of the Middle West who rely more on physical methods of curing diseases than on medical methods.

Make that idle dollar work! Put it in the bank.

### "Dizzy? No!" Says Woman Welder

"Dizzy? Never!" says Mrs. Catherine Nelson. She's 300 feet up in the air, welding a bridge span at Kingston, N. Y. She sets \$30 a day. Welding cables is her specialty.

### AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.—Adv.

Why does it take two to make a quarrel if a man and his wife are one?
