Hallowe'en parties that were popular with society last week continued to be in vogue throughout the week-end and closed with a flourish of entertaining on Monday and Tuesday of this week. Dances, card parties and teas as well as numerous children's parties were given during the past week.

Mrs. Oscar Shive and Mrs. Charles I. Roberts were hostesses at an elaborate party on Monday night. Ten couples were entertained with dancing and cards, and with numerous clever stunts, until a late hour in the evening. The party was given at the Roberts home on Payne Alley.

Last Sunday Mrs. Margaret Pitts was very pleasantly surprised at her home 825 Lincoln St. Upon her return from church she was greeted by Hallowe'en decorations throughout the rooms, an artistic table, and a sumptuous dinner ready to be served. Smith, Mrs. Elizabeth Evans, Mrs. Golden Lincoln and Mrs. Pitts.

The second of the series of card parties to be given in Lyceum Hall will take place Monday evening, Nov. 7, when Mrs. Roger Dewees will be hostess assisted by the ladies of the parish. No other phonograph can do it!

No other phonograph even dares the test which the New Edison underwent last Friday, before a large audience at Presbyterian Church.

That fact is something for you to think about.

The test of comparison with living artists is the only phonograph test which means anything. It is the only way in which a phonograph can irrefutably prove its realism. It is the most drastic of all phonograph tests. To sustain it, requires absolutely perfect realism, nothing less.

Last Friday, the New Edison stood by Helen Clark's side in the Presbyterian Church. If you were there, you heard the living voice

and the RE-CREATED voice brought into direct comparison. You know that there was no difference between the two voices.

A similar test was made by Joseph Phillips with RE-CREATIONS of his baritone selections. Again the same astonishing result—there was no difference between RE-CREATED voice and living voice.

By this wonderful performance, the New Edison has placed itself apart from all other phonographs and talking machines. It alone has sustained this drastic test. It alone has proved concretely and conclusively, that it gives you the living performances of great artists.
