Noonchester, who gives Bend, Oregon, as his post-office address, did on October 7, 1921, file in this office his duly corroborated application to contest and secure the cancellation of your Homestead Entry No. 010475, made August 22, 1917, for SW 1/4 NE 1/4 of Section 11; W 1/2 NE 1/4 and NE 1/4 SE 1/4 of Section 14, Township 24, So. of Range 3, East of the Willamette Meridian, and as grounds for his contest he alleges that said Edwin Johnson died about November 1920 and that the heirs of said deceased—if any have wholly failed to cultivate said homestead or any part thereof since the death of said Entryman, but have wholly abandoned said tract for more than six months last past; that said failure to cultivate said tract was not due to their employment in the army, navy or marine corps of the United States in time of war or otherwise. You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be cancelled without fur-

ther right to be heard, either before this office or on appeal. If you fail to file in this office within twenty days after the Fourth publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you served a copy of your answer on the said contestant either in person or by registered mail. Hot Water Each Morning Puts Roses in Your Cheeks. Advertisement for a skin care product featuring a woman's face and a glass of water.

To look one's best and feel one's best, to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body. If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing and purifying the entire alimentary tract, before putting more food into the stomach. Girls and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphated hot water drinking and are assured of very pronounced results in one or two weeks. A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanse, purify and freshen the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do. Women who desire to enhance the beauty of their complexion should just try this for a week and notice results.
