

# CITY COUNCIL AUDITS BILLS

The major portion of the time of the council last night was taken up with the visting of salary and other current bills for the month of October. With but few exceptions, all bills were ordered paid, a few being held over until next week for further particulars on the work performed.

Among the communications received and read last night was one from the Ministerial Alliance by its secretary, Rev. Arthur L. Rice, embracing the resolution passed at the Presbyterian church, October 26, urging the city and county officials to conduct an aggressive campaign against violators of the prohibition laws; asking the county court to assist the city officials in the clean-up and suppress the trade in the county; urging the judges in the respective courts to pass jail sentence as well as fines on all convicted persons; by co-operation of all officials to instill a wholesome respect and fear of the laws; and urging the speedy retirement of any and all officials who were derelict in their duties which they were sworn to enforce. No action was taken on this communication, being read as requested in a footnote to the resolution.

Declaring that an emergency existed in the health situation of the city, upon motion of Councilman McCollum, the special ordinance empowering the Mayor to enter into a contract for a right of way under the Southern Pacific railroad right of way for the Fifth Sewer Unit, the ordinance was hurried to its final reading and passage. The contract now awaits the signature of the engineer of the Southern Pacific railroad and Mayor W. S. Wiley.

Fire Chief Keith Ambrose reported the number of calls made by the department during the month of October: October 3, Marquis Rooming house; October 5, C. W. Bailey, 2105 east Main St.; October 12, false alarm to 651 California avenue; October 16, residence of E. E. Smith on Lookout street and October 25, to 238 Oak street, the smallest number of fires reported during 1921, the fire chief said.

Resignation of Jack Mann, fireman effective November 1, was accepted. The resignation of Fred R. Soule as president and member of the boxing commission was also accepted.

Horace Sykes, deputy fire marshal summarized the condition of Klamath Falls as he and his assistants found them during the inspection which has been going on for the past two weeks. He reported the survey was practically finished and that the work of the inspectors would be finished by tomorrow evening.

Dr. Frederick Stricker, state health officer spoke briefly upon sanitary conditions and urged the council to purchase a testing laboratory for the constant daily analysis of water, milk and other substances. The milk test was particularly and he quoted Portland as one place where all milk was tested daily. More people died in smaller places due to non-analysis of drinking water and milk products.

The application for a permit by Alice Markley and Frances Allison to conduct a rooming house at 920 Klamath avenue was held over for further investigation and the applications in the following granted:

E. A. Witz, 4-room house, 1235 Lookout street; Rex R. Renner, garage, 18x30, cost \$40 at 701 Eleventh street; two months permit to conduct Holland House during November and December to Helen J. Hehmann; shingle garage in Hot Springs addition to Marie Jane O'Callaghan; James Hilton, garage 11x16, frame in Nichols addition, cost \$100; O. A. Smith, 14x32 storeroom to Diamond Tire & Vulcanizing company at 707 south Sixth street, cost \$250.

The \$500 bid of Robinson, Bours and Nowell, certified accountants of San Francisco, for a 10-year audit of the accounts of Klamath Falls, was accepted by the council.

The regulations heretofore held that where the admission for men was \$1.00 and women were admitted free, \$1.00 was the established price of admission and women who were admitted free were required to pay 10c tax the same as men. Where the admission price for men was 50c and for women 25c, it was held that the tax on both men and women was 5c.

By the ruling dated October 22 it is now held that women are not admitted to a dance under the same circumstances as men, and that, therefore, in the case of free admission of women to a dance where a charge is made for admission of men, such free admission shall not be taxable.

Where men are charged 50c and women 25c admission, the tax on men will be 5c and on women 3c.
