PRICE FIVE CENTS

ALL HONOR TO UNKNOWN SOLDIER DEAD

WASHINGTON, Nov. 10.—The transfer of the casket containing America's unknown dead soldier which was brought from France to find its last resting place in Arlington cemetery, the home of the nation's heroes, from Admiral Dewey's old flagship, the Olympia, was made yesterday with impressive ceremony.

As the old warship slowly steamed up the Potomac river from Chesapeake Bay, guns boomed out a "Godspeed" from old Fortress Monroe, and as she passed Fort Washington, a salvo of twenty-one guns greeted the half-masted flag on the cruiser and these salutes were repeated as she approached the Washington barracks and again at the Navy yard where the disembarkment took place.

The ship's band played a dirge as the casket was carried down the gangway and was received by the selected non-commissioned officers of the army and navy, placed in a motor hearse and proceeded by a squadron of cavalry and a mounted band, was borne to the catafalque which had been prepared in the vast dome of the capitol.

And here, all day today great and small folk moved in an endless procession through the rotunda of the capitol to pay tribute to the unknown dead American soldier lying in such state as only martyred presidents have known.

Hour by hour the heaping flowers about the casket, brought by representatives of governments of the world, states and organizations, rose higher and higher and their fragrance spread about the vast chamber. Flowers that bloomed in France were there and flowers brought in all their beauty from South Africa, nine thousand miles away. No organization of veterans or patriotic people was unrepresented.

A guard of honor surrounds the catafalque and the men in khaki will keep their vigil about the bier until the casket is borne to its niche on the terrace of the memorial amphitheatre at Arlington cemetery on Armistice Day.

Hunter is Accidentally Riddled With Shot

Lyle Howell, age 22, fireman on a night switch engine in the Southern Pacific yards here was accidentally shot yesterday afternoon while out goose shooting about nine miles south of Malin by Earl Provost of this city. The accident occurred at 5:15 p. m., while Provost was taking shells, loaded with BB shot, from his gun and in some unexplained way, the gun was discharged spraying Howell with nine of the shot, most of them passing completely through the body.

Dr. M. D. L. Stewart of this city was called to attend the wounded man and all the shots were taken out, except three, one in the larynx (Adam's apple), left forearm, near the elbow, and one in the scalp. Two shot were deflected by the ribs near the heart.

Howell is married and has a two-months-old baby, and resides at 812 Oak street. He is being treated on the Ernest Taylor ranch, 12 miles south of Malin, where he was taken after the accident. Dr. Stewart says Howell has an even break to recover and unless complications set in, the chances are in his favor. Mrs. Howell left last night for the Taylor ranch to assist in the nursing of her husband.

Howell has been employed on the railroad here for a number of years and is well known about the city. Earl Provost is also a railroad man.

CATTLE BUYERS MAKE HEAVY PURCHASES

Louis Gerber and J. L. Beckley have just returned from a cattle buying trip in Burns and Harney counties and report they purchased over 2,500 head, principally steers, most of the buy being for C. Swanson & Son, wholesale meat dealers of Sacramento. The cattle not shipped will be wintered in Klamath county in the Sprague river country.

D. M. McEmore, another Klamath county buyer reports that he purchased about two thousand head in Harney county which he will ship to various California points.

Mr. Gerber, in speaking of his trip, said that the cattle were bought up closer in the Harney and Steen mountain country this fall than in any previous season. He reports a gratifying condition in regard to the relations between the bankers and the cattle raisers, the former doing all possible to prevent the stockmen from selling their breeding cattle.

ARMISTICE DAY CELEBRATION

Two Dances Tonight Will Open the Festivities in Honor of the Ending of the World War

The two-day Armistice Day Celebration will start off with a whiz and bang this evening at 8:00 o'clock at Sixth and Main street when a free street dance and mass meeting of celebrators will whirl to the music of the Houston-Flix and Borell-Wishard orchestras filling the air with "jazz."

The California Oregon Power company officials have had special lighting facilities installed to take care of the light for the free dance and John Enders is scheduled for a brief speech and a general invitation to the public to participate in tonight's and tomorrow's activities.

At both dance halls tonight, some valuable articles will be raffled off for the fund to furnish the clubrooms of the legion in the basement of the courthouse.

Captains of the two hall rivals will urge attendance at their respective establishments and will vie with each other in offering particular attractions. As every cent derived in for the legion support and a wonderful dance program is arranged at both places for the dancers, those who attend should get the best run from their money possible.

Tomorrow at 11 o'clock a. m. at Fourth and Main street Mayor W. S. Wiley and Post Commander J. H. Carnahan are scheduled for a brief patriotic talk in keeping with the day. At 1 o'clock p. m., every member of the legion, irrespective of post affiliations will assemble at Fourth and Main streets and parade down Main to the football game. The start is scheduled for 2 p. m. Uniform or not, Enders says, every legion man is expected to step into the ranks and give the people here a real military spectacle.

The football game between the Klamath county high school and le-

gionaire teams gives promise of rare sport as both are in good shape for the scrimmage. The legion team have practiced nightly under C. F. Foster's instruction, while Coach "Hi" Woods has put the school team through some stiff drills.

Following the game, the greatest vaudeville sketch ever put on in public will be the mock court martial at the military headquarters, Fourth and Main. Prominent citizens are to be arrested during the hours when martial law is in force, 5 to 7 o'clock p. m. The trials will undoubtedly be interesting.

The stag affair at the Moose club tomorrow night will furnish the capping to a most fitting and suitable celebration, boxing matches, wrestling between heavyweights of the legion and a smoker where everyone has the floor to relate "how it happened over in the old country."

"Armistice Eve is everybody's eve," was the announcement made by John Enders, chairman of the program for this evening at the two dances at the Moose and Scandinavian halls tonight. He added: "Every man, woman and child in this city is especially invited to be present."

Ted White has turned over the Strand Theatre to the Legion for Saturday night and the entire receipts will be given to help swell the fund for the Legion's equipment in their new quarters. A splendid bill will be presented which will include a stirring picture; "Marooned Hearts," with Conway Tearle, in the leading role and this will be supplemented by an array of local talent which will include Miss Verda Cozad, Harry Borel, Claudia Spink and Dr. George Mallett. The Houston-Flix Orchestra will furnish an attractive musical program.

U. S. May Dominate Armament Conference

WASHINGTON, Nov. 10.—Proposals to be made by the American delegation to the conference on the limitation of armaments apparently constitute the only suggestion prepared in advance as to ways and means of curtailing naval expenditures without sacrifice by any power of national security. Great Britain is not known to have worked out any formula. Japan is awaiting American suggestions and Italy and France are more concerned with land forces than with navies.

The American proposals remain a closely guarded secret but it is known that a definite formula for the limitation of naval forces has been reached by Secretary Hughes and his colleagues of the American delegation.

It is entirely practicable, does not attempt to fix a common denominator by which all navies could be divided and each power is assigned the number of units it could maintain. The American proposal will deal with things as they are.

JUDGE CALKINS DISQUALIFIES HIMSELF

Judge F. M. Calkins, of the Medford circuit court, has allowed the affidavit of prejudice and motion to disqualify himself as trial judge in the suit of Frank Ward against Klamath county and others filed in the circuit court here by R. H. Bunnell, Judge of the county court November 1 and application has been made to the chief justice of the Supreme Court at Salem to send another judge to sit on the bench during the coming trial.

The voluntary action by Judge Calkins was taken after reading the motion of the defendants and the affidavit of prejudice filed by Judge Bunnell, in which the affiant alleged that Judge Calkins was prejudiced against R. H. Bunnell and others in the injunction proceedings brought last November by Frank Ward, a taxpayer, against the county court to prevent them from including in the tax levy of 1921 a fund of \$50,000 to complete the Hot Springs court house, as an item of \$14,000 for a miscellaneous fund. Judge Calkins granted the injunction and later, refused to dissolve it when the county court filed an application for its dissolution.

Circuit Clerk DeLap received this information yesterday from Judge Calkins at Medford when an order allowing the motion was sent to the circuit court by the Medford authorities.

WOMEN BOOM DEMOCRAT FOR GOVERNOR

Irvine, editor of the Oregon Journal, as a candidate for Governor of Oregon, is being given a decided impetus by their method of procedure in the campaign. Keno Bridge Will Reopen Next Week

Tom Dixon, road supervisor, yesterday stated that the work on the Keno bridge was progressing rapidly and that workmen were laying the flooring on the entire structure, the boards being placed lengthwise to lessen the vibration.

The section which was raised to enable workmen to place new capping under it, is still out of place, preventing possible crossing, and will be until the concrete capping has fully set. The weather has not been so favorable, the supervisor said, but by the early part of next week, the capping should be firm enough to replace the bridge section and allow travel over it.
