PRICE FIVE CENTS

CANDYMAKER ACCUSED OF GRAVE CRIME

William C. Hoser, employed as a candy maker in the Sweet Shop, is under arrest charged with an alleged attempt to commit an outrage upon the person of Ruby Pruett, 9 years of age, Friday afternoon on Oregon avenue just about dusk.

The child was seized, the sheriff said, by Hoser, near the Pruett home and carried under his arm to a place back of the canal where the alleged attempt at assault was committed. The mother, Mrs. Mary Pruett, a widow, with a number of neighboring women followed the abductor and when they approached the place where Hoser had the child, Hoser slipped away in the brush leaving the child crying and afraid to leave the spot.

Hoser was taken into custody later in the evening by Sheriff Low and placed under arrest on a charge of drunkenness until a formal complaint could be made against him by the mother. Late Saturday evening Mrs. Mary Pruett appeared before Justice Gaghagen and signed the complaint alleging an attempt to criminally assault Ruby Pruett. The warrant was served this forenoon upon Hoser at the county jail.

Sheriff Low stated that Hoser denied the charge and claimed that when the outrage took place he was at the California Oregon Power company dam, but Mrs. Pruett and Ruby Pruett positively identified Hoser as the person who committed the assault.

Feeling ran high in the Oregon avenue district, the sheriff said, after the attempted assault and as the news trickled out before formal complaint was made, it was feared violent action might be taken against the accused.

BRITISH BACK AMERICAN NAVAL PLANS

Two important meetings were held today, one this morning to discuss the program for armament negotiations and the other this afternoon to shape procedure for the forthcoming discussion of far east questions.

Great Britain's acceptance "in principle" of the American proposals for the limitation of naval armaments was definitely forecast in today's statement from the British delegation that at tomorrow's session of the conference former Premier Balfour will make a speech to that effect.

Japan's acceptance "in principle" at least, has been forecast by the statements of Baron Admiral Kato and others of the Japanese delegation.

Great Britain's principal consideration in framing the reply which Balfour will make, has been "how to bring France and Italy within the scope of the plan?" American delegates impressed the British delegates with the desirability of first disposing of the question as it affects the United States, Great Britain and Japan.

BUSINESS IS BETTER THAN A YEAR AGO

PORTLAND, Nov. 14.—The head of a large jobbing establishment says that business is better than a year ago, due to the fact that country merchants refused to buy for a period of several months when the decline in prices began to assert itself; although they are only buying from hand to mouth at present, their depleted stocks result in a very fair volume of orders. Collections are fairly good; generally speaking, jobbers and merchants have to a very large degree liquidated their stocks, and the consuming power of their territory has reasserted itself, resulting in more orders.
