A delegation of Mills Addition residents appeared before the council last night and requested that the sewer system be extended down an alley off of Sixth street to take care of sewage and waste water in the Second Mills Addition not provided for in the original plans made for improving sanitation conditions in that district. No action was taken, the matter being held open until next week.

The permit of E. M. Chilcoate, of Chilcoate & Smith, for the erection of a frame woodshed within the fire limits was refused by the council after they learned from the fire chief that the building had been partially built without a permit. Port Summers, Indian policeman from the Agency, was standing on the corner of Seventh and Main streets talking to a friend Thursday afternoon when John Kollas, a Greek, approached him with the following remark, "How would you like to buy a quart of good whiskey for \$10.00?"

Summers smiled and in an in-

viting way said, "How do you know it is good, killed anybody yet?"

"No, I have not but it is good liquor for I drink it myself," Kollas is said to have replied.

"I'll take a quart then," and Summers waited until the liquor was in his hands, paid for, then arrested Kollas remarking that he was an Indian policeman.

**THE VICTROLA
is Mother's Friend**

The Victrola brightens the home for the whole family—but most of all, perhaps, for Mother. During the long hours of the day when she is alone in the house with no company save the monotonously-ticking clock, a Victrola may change her whole world for her. It "makes friends easily," singing, at any time, the songs she loves, or playing the tunes, old and new, she cares for most. The world's greatest artists help her to forget the weight of a thousand and one tasks. There should be a Victrola in your home. If you will drop in today we shall be glad to explain our easy terms.
