

# MERRILL WELL REPRESENTED AT THE O. A. C.

CORVALLIS, Dec. 5.—(Special)—Merrill is well represented at the Oregon Agricultural college, six of the 3400 students coming from there. This is a great increase over the enrollment of any previous year. Twenty-five of these are from Klamath county.

Merrill students are represented in four departments or schools. Home economics claims three of them, mechanical engineering one, pharmacy one, and music one.

Lester Offield is a junior in commerce. He is the son of G. W. Offield, of Merrill.

Aard Ady, son of Mrs. Leona Ady, postmistress, is one of the 743 students taking engineering. He is specializing in the mechanical branch of engineering and is a freshman this year.

Three of the students live at Waldo hall, the dormitory for girls. Edna Merritt, Babe Shambart and Wanda Pope all belong to the Philon club, which was just recently organized in the hall for the purpose of raising the standards of scholarship and furthering the social advantages within the group of girls living on the first floor. Waldo is the largest women's hall on the campus.

Wanda Pope is a freshman or "rookess" as the first year girls are called. She is taking home economics and is a member of the home economics club. Miss Pope also sings in the choir at the Congregational church.

Mae (Babe) Shambart, daughter of Mr. and Mrs. G. P. Shambart is taking pharmacy and is one of the 156 students registered in that course. She belongs to the pharmaceutical association. Pharmacy is

a popular course at the college and many are preparing themselves to take charge of drug stores and come are taking pre-medics.

Henrietta Davis, formerly a resident of Merrill, but now of Monague, California, is a junior in home economics. She stays with her aunt and uncle, Mr. and Mrs. C. B. Kennedy. Her cousin Ruth Kennedy is an instructor in the school of home economics. Miss Davis has made a great success of her work and will undoubtedly be able to get a good position when she is graduated. She takes an active interest in church affairs, being a member of the Christian endeavor of the Congregational church.

Edna Merritt, a sophomore, is specializing in music and French. She is making good and is in demand for playing at dances and entertainments. There are 50 others registered in the school of music.

Every department in the college shows a gain in enrollment. The school of commerce leads with 790, engineering is next with 743, agriculture 705, home economics 524, pharmacy 186, forestry and logging engineering 97, mines 79, chemical engineering 78, vocational education 75, music 51.

Men registered outnumber the women, the number of men being more than twice the number of women.

That the college has a reputation for efficiency is indicated in the number of students transferred from other institutions. Two hundred and twelve of them were transferred from 70 other institutions, representing twenty-four states, two territories and two foreign countries.
