WHY 20c?

The best answer that we have as to whether the Strand Theater is delivering the goods comes in the crowded houses we are having. Three nights last week we turned them away, the other nights the house was filled. If you have not been coming to the Strand, ask some of your friends what they see there and you will get the answer fast and strong—"The best pictures in town."

We don't ask you to take our word as to whether our pictures are new or old—just look at the copyright date that is flashed on the screen when the picture starts. You will find they read 1920 or 1921. But even if they were two or three or four or five years old, what difference would that make if they are good pictures. They didn't stop playing "Uncle Tom's Cabin," "The Old Oaken Bucket," "Rip Van Winkle," "Monte Christo," and scores of other famous plays just because they made the circuit once or a dozen times, or because they were old. The test, "Were they good plays," is what kept them going. They were good plays, and they draw just as big houses today as they did a quarter of a century ago. That is the test to which we subject the pictures we buy for the Strand. Our patrons know it is a good test, for they see only good pictures, and we know they are satisfied for our house is packed every night.

We repeat what we said last week—twenty cents is all any theater in towns this size should charge for pictures. The price has come down all over the United States. It has come down here at the Strand, for we are not profiteering—we are just trying to make a fair profit and give the people value received. The pictures we show are equal to any produced and better than most.

The price of films has come down, no matter what anyone tells you. We expect them to go to a lower figure, and if they do so, we will charge a lower price. We will make the admission to the Strand ten cents if the price of pictures drop to a point where we can do it. Don't let anyone lead you to believe that a higher price than twenty cents is justified, for it is not. It is a straight hold-up, done for the purpose of making unreasonable profits—and you are foolish if you stand for it.

Always remember that the Strand shows its pictures on a money-back basis. If you don't like a picture or the service or anything else about our theatre, just ask for your money—it is there for you and you will get it back without question.

And, by the way—read what we have to say about the extra vaudeville feature for tonight and Tuesday night. You get it for the same price—10 and 20 cents.

last evening, we will run it again tonight. In addition we will have the

**FAMOUS HAWAIIANS,
LUA AND LUANA**

who captivated the patrons of the Strand Saturday night. Their appearance here is due entirely to friendship for the management. Hence you can hear them without any extra charge—the price remaining the same, 10 and 20 cents.
