LONG DENIES PURCHASE OF HAMMOND HOLDINGS

PORTLAND, Jan. 18.—If the Long-Bell Lumber company has purchased the Hammond timber and milling interests, as has been reported here for several weeks, the deal has been consummated without the knowledge of R. A. Long, president of the former concern, who arrived in Portland for the purpose of making an examination of his holdings in the Northwest and in California.

"I certainly would know it if my company had purchased the Hammond Lumber company," said Mr. Long. "I am not responsible for the rumors that have been noised about."

The one object of the Long-Bell Lumber company in purchasing the extensive Hammond holdings would be to gain possession of the retail yards in California, according to well-informed lumbermen.

"When we get ready to start operations on a large scale we will go into the California market and compete with other concerns," said Mr. Long. "There is a possibility of getting business there without purchasing it."

Accompanying Mr. Long are F. J. Bannister, vice president of the Long-Bell company; W. F. Ryder, representative of the company on the coast, and several engineers and lumber experts.

The party will go to Kelo, Wash., where an investigation of conditions of the Long-Bell properties will be made. The company owns more

than 30,000 acres of fine timber lands in the Kelo country and already is clearing land for the erection of a large mill.

Chehalis Mill Resumes

CHEHALIS, Jan. 17.—The National Shingle company has started cutting shingles at its mill on National avenue, Chehalis, near the brickyard. A. A. Broderick, manager of the Western Oil company, and G. C. Scheible are owners of the business. The plant has a daily capacity of 35,000 shingles, but it is planned to double the output by running two shifts.

Warned Against Rust

WASHINGTON STATE COLLEGE, Pullman, Jan. 17.—Owners of forest lands in the northwest are being warned of the danger of white pine blister rust which was recently discovered in British Columbia and is now reported to have crossed the line. Blister rust has been a menace to the eastern lumber industry for the last 20 years.

LARGEST TREE IS CUT AT KAPOWSIN

TACOMA, Wash., Jan. 18.—One of the largest and most perfect fir trees ever felled in Washington was recently cut at Kapowsin and turned into lumber by a local mill. The tree stood more than 300 feet high and seven 32-foot logs were cut below its branches. These logs were of a diameter of nine feet and weighed 275 tons. They were worth \$3,000 in the rough and the first grade flooring obtained from them will sell for several times that sum. The logs scaled from 45,000 to 50,000 each.

Experienced loggers who saw the tree declare it was the most perfect they had ever seen. It was very straight and each log was devoid of pitch pockets, knots or other blemishes. The great tree was felled without breaking or damage of any kind.

GREAT TASK BEFORE FARMERS, SAYS FARM BUREAU PRESIDENT

By George A. Mansfield
 The State Office is now splendidly organized. We face the new year with renewed hope and invincible spirit. A great task lies before us, but if farmers will co-operate we can easily accomplish it.

During the coming year we must organize as nearly as possible all the Oregon farmers. We must capitalize their selling power, their buying power and their influence, in order that they may be able to compete on just and fair terms with other organized business.

The State Farm Bureau has already done a great work along these lines. Consult the Secretary of your County Farm Bureau and you will learn how we have made it possible to save in actual money several times your Farm Bureau dues.

The National Farm Bureau is the greatest force in our national life. The State Farm Bureau is one of the greatest forces in our State, and by becoming a member of your county organization you make both of these possible and receive all their benefits.

Farming is the biggest business in the Nation and in the State; and yet it has hitherto received only a small share of the benefits of society and legislation. I have just begun a study of taxation in our state, and the results of this will appear from time to time in the columns of this paper.

Our tax burden must be equalized. I advise every citizen to go to his Assessor's office and secure and study a summary of the assessment roll. You will discover that on an average the farm assessment is about eight times that of merchandise and stock in trade and money, notes, stocks and bonds, combined.

Yet in most counties we have a struggle to get an appropriation for County Agent, Home Demonstration Agent and Boys' and Girls' Club Work. The farmer must remedy this condition by organizing his influence.

The total farm assessment of the state is \$327,529,195; the total merchandise assessment, \$51,254,857. The total money, notes and accounts is only \$20,193,71 or about one-sixteenth of the farming assessment.

With these enormous values behind them farm credit is the most difficult to get. Farm appropriations are most reluctantly given, and business and capital have in the past and are still attempting to dictate legislation. When the Legislature met to consider the question of the 1935 Fair, did you notice how the vote was on the proposition to finance it by an income tax, the fairest way to raise the bulk of our taxes, because it asks no one to pay who is not able to do so.

The measure was defeated and a tax placed on gasoline. Visible real

AVIATION IS USED TO PREVENT OPIUM BEING SMUGGLED

HONOLULU, T. H., Dec. 10. (By Mail)—Aviation was impressed into service here recently by federal authorities in their endeavors to eliminate the smuggling of opium into Honolulu. A naval seaplane followed the liner Hoeller State out of port for a considerable time to prevent any of the contraband narcotic from being dropped overboard and picked up by a small sampan, which is the method usually followed by the smugglers, federal authorities, said. Smuggling has been reduced considerably, according to Harry Murray, collector of customs, who pointed to the fact that the "price of dreams" has risen considerably recently in the Chinese quarter here, indicating that the narcotic supply is scarce.

NOTICE

All Blue Lodge members and Knights Templars will meet at the Masonic hall tomorrow at 1 o'clock sharp, in order to attend the funeral services of Brother and Sir Knight Charles J. Ferguson.

ILLITERATE BOYS ARE SENTENCED TO SCHOOL, NOT JAIL

WEST PALM BEACH, Fla., Jan. 18.—Illiterate boys and girls under the age of twenty-one who are brought into municipal court here in future will be sentenced to the School of Opportunity instead of jail as the result of a movement launched by Municipal Judge Joe L. Karman, former newspaper publisher and editor, and backed by the Rotary Club and other civic organization.

The School of Opportunity has been organized along the lines of the usual public school with a board of three trustees consisting of Judge Karman, City Manager Carl Riddle and Chief of Police Frank Matthews. Business men have offered to provide suitable clothing for students who otherwise might feel embarrassment because of their attire and Judge Karman has taken it upon himself to provide textbooks, having placed an order for \$500 worth of readers, arithmetics, spelling, and writing books, to which subjects the course of study will be confined.

The youngsters sentenced to the school will become members of special classes and will be instructed by

a teacher employed by the City School Board. Classes will be held in the city school building at hours which will not conflict with the regular classes of the school, the girls and young women to attend from 3:30 p. m. and the boys from 6:30 to 9:30 p. m.

In order that the students may have individual instruction, classes will be limited to twenty members and when the pupils have worked their way through a simple spelling book, a second reader and fractions they will be given diplomas with all the ceremony incident to a high school commencement.

DAUGHTER OF DANCER IS MARRIED TO RUSSIAN

MOSCOW, Jan. 18.—Irma Duncan, the 20-year-old and adopted daughter of Isadora Duncan, dancer, has announced her engagement to Ilya Ilyitch Sneider, the son of a tailor. Young Sneider by chance met Isadora Duncan and her party on arrival here last summer, at the railway station, volunteered to carry their luggage, and has since attached himself as handy man about the house, to do the many errands necessary to the complicated

existence of soviet life. Miss Irma, who is of German origin, has been with Isadora Duncan since a child. She also is a dancer.

MASONIC NOTICE

A special meeting of Klamath Lodge No. 77, A. F. & A. M., will convene Thursday at 2 o'clock p. m. at the Masonic hall, for the purpose of conducting the funeral services of Brother Chas. J. Ferguson. A good attendance will be expected. By order of W. M. (adv.) Lem L. Gaghagen, Sec.

Cooking Electrically
 the ideal method

Electrically equipped kitchens hold no terrors for the housewife. They are cool, cozy, and comfortable in the summer. They eliminate the drudgery, the grime and the nerve racking tension caused by wood stoves. The expense is surprisingly low. Let us tell you about it.

The proof of the coffee is in the drinking

You must try Folger's Golden Gate Coffee to appreciate its unusual flavor—a flavor that has been developed through seventy-two years activity in selecting, blending and roasting coffee.

You will find that Folger's Golden Gate Coffee is different from other coffee—pleasingly different. And you will find that this different flavor is uniform. Every vacuum packed Golden Gate tin guards the same delicious flavor.

But the proof of the goodness of Folger's Golden Gate Coffee is in the drinking. Tell your grocer you want it.
