

The Lumber Industry

NEWS OF INTEREST TO KLAMATH LUMBERMEN

EXTENSIVE OPERATIONS ARE PLANNED AT BROOKINGS

PORTLAND, Feb. 2.—Extensive redwood lumber operations will be undertaken at Brookings, Or., and Crescent City, Cal., according to J. H. Owens, manager of the Oregon & California Lumber Company, who was here last week buying equipment for a new railroad line being extended from Brookings southward into the timber. The railway would be 18 miles long, Owens stated, and would be equipped with a Baldwin locomotive and other rolling stock.

The O. & C. Lumber company has been engaged for several years in the manufacture of fir lumber at Brookings. Extension of its operations into the extensive stand of redwood on the California side of the line is looked upon as important by local lumbermen.

A. S. KERRY TO MOVE TO SOUND TO ATTEND HIS LUMBER AFFAIRS

PORTLAND, Feb. 2.—A. S. Kerry, owner of the Columbia River & Nehalem Valley railroad, and extensively interested in logging operations on the lower Columbia, announced that he would turn over the management of his properties to Robert S. Shaw and return to Seattle to look after Puget Sound business interests. Kerry came here from Seattle about 10 years ago and has been a prominent figure in the logging and lumbering industry since that time.

The Columbia River & Nehalem road is a common carrier extending from Kerry nine miles west of Clatskanie on the S. P. & S. line southward a distance of about 20 miles into the Nehalem Valley. The road serves 20 logging camps with an aggregate daily output of 1,500,000 feet and is one of the most important carriers on the lower river.

Robert S. Shaw, who has been acting as manager of the road and of logging camps operated by Kerry during the past three months, was

formerly manager of the Hammond lumber mills at Astoria and was at one time president of the West Coast Lumbermen's association. Kerry has made his home at the Mallory hotel and returned last week from a vacation trip to California.

LUMBERMAN KILLED

WESTWOOD, Cal., Feb. 2.—Jack Dennis, timberman, died in a hospital here from a fractured skull, received when he was struck by a falling tree at Camp 26 of the Red River Lumber Company.

\$300,000 CLAIM FILED AGAINST LUMBER COMPANY

PORTLAND, Feb. 2.—A claim of \$300,000 against the C. A. Smith Timber company was filed with Federal Judge Wolverton this morning by James B. Wilson, attorney for the claimant, H. W. Wheeler of Minneapolis.

The petition was filed under protest of William D. Dorman, receiver for the timber company, appointed by the court in 1919, on the grounds that the claim should have been presented before.

The amount asked for, according to the petition, is due Wheeler from commissions for selling tracts of the company's timber lands in Southern Oregon and Northern California.

Judge Wolverton has taken the matter under advisement.

KLAMATH FOREST SUPERVISOR MOVED TO SAN FRANCISCO

SAN FRANCISCO, Feb. 2.—W. A. Huestis, supervisor of the Klamath National Forest, with headquarters at Yreka, will be transferred April 1 to the district forester's office at San Francisco to assist in handling increased road and trail work incident to the new Federal road legislation. He will be succeeded by W. M. Maule, supervisor of the Mono National Forest, with headquarters at Minden, Nevada.

Harold Christy, who is managing the K. A. A. A. Smoker scheduled for Friday, says the fans will stand up and howl with excitement when the battle royal starts. And when the rooster fight is on, he says, they will be doubled up with laughter.

GAME POSTPONED BETWEEN H. S. AND CHILOQUIN

The basketball game which was to have been played between the Klamath County high school and Chiloquin high school tomorrow night at Chiloquin, has been postponed until a later date, as the up-country team could not make the necessary arrangements for a hall in which to play.

This will leave the local boys without a game this week, but it will give them a chance to get over some minor injuries, which two of the players have sustained, and will allow them to get in shape for the next two games which are to be played on the K. A. A. floor. Merrill will play here February 10 and Chiloquin February 17.

"Tuffy" Anderson and his ancient opponent, Young Fitzsimmons, will appear as curtain-raisers at the Klamath Amateur Athletic association smoker Friday night. These scrappy bubbleweights never fail to create a sensation when they start sending 'em over.

PERSONAL MENTION

Arthur Wilson, of the Wilson Abstract office has returned from Pueblo, Colorado, where he was called by the sickness and death of his mother.

Mrs. E. T. Saunders and son, Edward, will leave on tomorrow morning's train for Salem, where they will make their home in the future. Mr. Saunders, who preceded his family a couple of weeks ago, has a position there with the State Highway department.

Mrs. Mark Hanna leaves in the morning for Portland, where she will join her husband, who is in business there.

It has been learned here that Miss Jessie E. McGuire, formerly head nurse at the Klamath General hospital, and Wm. Harlan, of this city, have been granted a marriage license in Portland.

Dr. George I. Wright reports the birth this morning of a daughter to Mr. and Mrs. C. Leon Lewis, South Riverside.

Reedsport—Local mill purchases \$50,000 worth new equipment, will double capacity.

FOOTBALL CAPTAIN LEAVES COLLEGE FOR BUSINESS

SAN FRANCISCO, Feb. 2.—Jack Patrick, captain of the Stanford University American football team last season, has left college to go into business here. Patrick was a member of the American Olympic rugby team and played in the 1920 Olympic Games at Antwerp.

CARDINALS ARE IN SESSION

(Continued from Page 1)

traditional also that the Pope should be chosen from the Italian Cardinals. It is stated that this tradition has not been departed from in nearly 400 years.

The Cardinals will meet for the opening of the conclave in the Sistine Chapel where mass for the Holy Ghost will be said by the Cardinal Dean. They will then proceed with their officers and assistants to that part of the Vatican set apart for the election. This will form a secluded precinct where they will be guarded by the marshal of the conclave. Their seclusion will be strict. Communication with the outside world during the sessions of the College is possible only through a small window equipped with something like a revolving door used in office buildings in the United States. The use of this is restricted to the sending out of laundry and receiving of food and medicine.

Each Cardinal Bishop will have three rooms and each Cardinal Priest and Cardinal-Deacon two rooms. Telephones have been installed in the apartment of each of the Cardinals so they will be able to communicate with each other but this telephone exchange is not connected with the city exchange and there can be no telephone communication with the outside world.

Meet Twice a Day

The Cardinals will be waited in within the large hall of the Vatican which is divided up as to provide these small compartments. At prescribed hours twice a day the Cardinals will come together to vote, the actual balloting taking place in the Sistine Chapel. This must continue until a candidate receives more than two-thirds of the vote. The ballots are burned after each decisive vote is taken. Large crowds gather daily in the Square of St. Peter to watch the smoke of the burning ballots issue from the chimney. Failure to see the smoke at the usual time serves as a signal to the crowd that a new Pontiff has been chosen and the throng rushes inside the Basilica to await the appearance of the new head of the Church to appear on a balcony and bestow his first apostolic blessing. When the new Pope is chosen he is requested to select the name by which he is to be known thereafter.

FASHION HAS PREPARED FOR A ROUGH WINTER

It seems that way, at least, for the dominating style of the season in Overcoats is all toward those big, burly ulsters, polo coats and great coats of heavyweight fabrics, fleecy effect and air-tight weaves.

This season has introduced belts, fancy pockets, pleats and yokes on practical coats. You'll find them here priced at

\$19, \$25, \$29, \$37

Richard Predicts Great Interest in Boxing During Year

(By the Associated Press)
NEW YORK, Feb. 2.—"The American people like excitement," said Tex Rickard in discussing the remarkable growth of sport in the past two years and the outlook for the coming season. "This demand for excitement is shown by the manner in which these sports which supply thrills are patronized. Boxing of course ranks well to the fore in this category and, while the last 12 months has witnessed great increase of interest, record attendance and gate receipts, I am inclined to believe that the new year will surpass the old in this respect."

While 1922 is not likely to witness another bout of the international calibre and interest of the Dempsey-Carpentier contest I think that they will be an increase in the number of bouts and the localities in which such matches may be held in conformity to the law. Boxing is not alone advancing in popularity for all sport so far as I can learn is on the increase.

"Various reasons have been advanced for this again. Personally I think that it is due to a number of

causes. The advent of prohibition with the closing of the saloons has sent thousands of men, young and old, to watch or play games or contests such as boxing. The relief from the strain imposed by the war and the growing belief in the benefits of exercise and competition have all helped to increase the popularity of sport.

"So far as boxing is concerned, the Walker Law has helped the sport wonderfully in New York state and I would like to see similar enactments in all other states. The new Boxers' Alliance, if it means business and has no private axes to grind, should be a great boon for boxing. If champions could be forced to defend their titles against selected opponents at stated intervals thus giving worthy contenders a chance to advance it would be another step in the improvement of boxing."

Sport fans already are wondering who will be the next Frisco fighter to journey up here for a go with Ritchie. Rumor has it that Jack Downey will not be satisfied until one of his boys returns with the bacon.

Promoter Kearns is in a hard way. The colored champ, Harry Wills, is camping on Dempsey's trail, and appears to be the best heavyweight contender in the country. Kearns wants the gate receipts but is said to be undecided as to the advisability of lifting the color line.

Here's a few of the prizes: Two chickens, five quarts of milk, 40-pound box apples, can coffee, package of tea, two boxes of candy, and other prizes.

S. O. S.

The best way to throw off the damper on business is to put on a bold front—"Smile, and the world smiles with you; weep, and you weep alone." Don't make us weep! Come up cheerfully with your weekly settlement. By doing so you can help us and help yourselves, by placing us in a position to make prices on all our meats the same as if you paid spot cash. That keeps you and us even with the world.
