

AID IS APPRECIATED

Winner of Prize Bull Thanks Agencies for Helping Industry

Appreciation for the aid given to advancement of the livestock industry in Klamath county by the First National bank in offering the prize bull, Avalon Primrose, to the farm bureau and to other agencies is voiced by J. G. Wright of Hildebrand, who won the bull in the farm bureau membership contest in a letter to the farm bureau. The letter follows:

"To the Farm Bureau, First National Bank and all who so generously donated to the prizes offered at the Farm Bureau drawing. Also to the newspapers of Klamath Falls which were so willing to do their share for the advancement of the stock interests of Klamath county:

"I am absolutely unable in what seems to me a fitting way to express my appreciation and thankfulness for the splendid prize, the thoroughbred Shorthorn bull Avalon Primrose.

Allow me to say that this prize has fallen to one who has been an ardent lover, admirer and advocate of this breed since early boyhood. In my opinion it stands in a class unchallengeable, if I may be permitted to coin the word, and I wish to say that it is my purpose to handle Mr. Primrose in the way that will most benefit the community in which he is to make his future home. Respectfully submitted by an appreciative Farm Bureau member. J. G. WRIGHT.

21 SINGERS ARE COMING

University of Oregon Glee Club Here March 27-28

Twenty-one of the best singers in the state will make a two day stop at Klamath Falls when the University of Oregon men's glee club, arrive in Klamath Falls, for a two day stand, March 27 and 28, according to John Hosuton, who is in charge of local arrangements.

With the program including everything from the sublime to the ridiculous the boys of the club have been getting big ovations where ever they have sung this year. They will present the same concert here that was given at the Hellig in Portland, last month.

University of Oregon alumni are working with a number of other organizations to make the concert successful. It is the plan to give the boys a dance while here.

"The Grasshopper" a tragic grand opera, is given as one of the main stunts in the club's program and is said to be a knockout. A number of heavy songs are also included on the two hour program of the organization.

Slack Lumber Demand Permits Accumulation

(Monthly report of The Timberman) Demand for lumber during the past thirty days was not up to expectations, this condition no doubt being largely due to unfavorable weather throughout the entire country. Production in the north has kept up, however, and stocks are showing some accumulation. There has been a fairly active movement of lumber to the Atlantic seaboard, and considerable Japanese business is moving. California seems to have been unable to absorb the lumber arriving, but a fairly heavy movement continues.

The railroads are placing some orders for car material. The Milwaukee system has specifications out for about 5,000,000 feet, practically all timbers. The Southern Pacific is paying \$16 for ties. The O-W. R. & N. is offering \$14, while the S. P. & S. is soliciting quotations on ties. D. & R. O. is paying \$15. There is considerable tie business being placed.

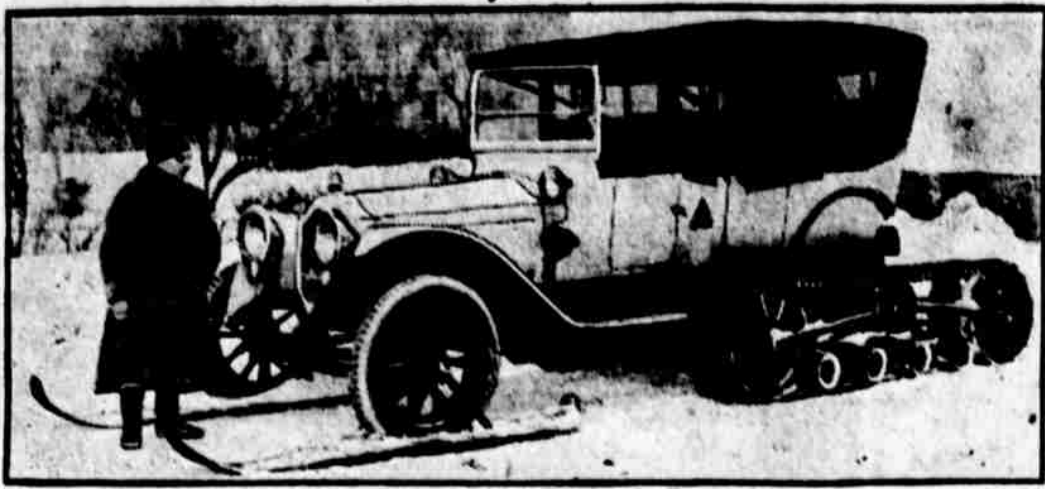

Spruce box is pretty slow. Spruce uppers are in good demand, but the supply is short. There is very little spruce to be had in the Columbia river district. Logging is not progressing very vigorously, due somewhat to unfavorable weather. Log prices are quite a bit softer.

The shingle market does not appear to recover very rapidly. Clears are just now showing a little more life, but the market for stars is real sick. Some eastern demand for clears. Cedar logs are a bit softer. Demand for lath is somewhat sluggish and prices are inclined to soften. Shop market is active and stocks low all over the country. This applies equally with spruce, pine and fir. The door market continues active.

In Utah and Colorado territory conditions are showing signs of improvement. Farmers are receiving slightly better prices for produce and mines are beginning to operate.

Throughout the United States the demand for homes is strong. On the first of the year The Timberman made a canvass, through the

How Trotzky Travels in Russia

This auto sled was especially constructed for Leon Trotzky, the Russian leader. Caterpillars in place of rear wheels push the car along on skids on which the front wheels rest. The machine is of a popular American make of a grade better than Trotzky used when a citizen of this country.

PERSONAL MENTION

The Elks' masquerade ball which was to have been held on March 22, has been postponed until March 29, according to Byron Hardenbrook, who is chairman of the entertainment committee.

Everett and "Ed" Geary have returned from California where they have been looking after business interests.

Tom B. Clark, special agent for the United States Fire Insurance company is here from San Francisco conferring with the Calkins-Donelson insurance agency who handle his business in this city.

Mrs. K. G. Cummings returned to this city Saturday night from Los Angeles where she has been visiting her mother and sister for the past month.

Mrs. Lottie Martin and her daughter Mrs. Hardin Carter are expected to return in a few days from Denver and vicinity where they have been visiting relatives for the past month.

"Eddie" Clark who is employed by the California Oregon Power company at Copco spent the week end here.

Mrs. Joe Brett and children returned Saturday evening from Los Angeles, where they have been spending the winter months.

W. H. Hawkins, formerly in the dairy business here is a business visitor in this city from Modesto where he is now located.

Mrs. L. B. Hagne has been absent from her office for several days on account of illness.

T. A. Frewen, district manager of the Monogram Oil company, is registered at the White Pelican hotel from Portland.

Mrs. J. O. Goldthwaite returned last night from San Francisco where she was called a short time ago by the illness of her husband in that city. Mr. Goldthwaite did not return with her but went on to Portland and is expected to return here in a few days.

G. A. Swigart, an auditor for the California Oregon Power company, is registered at the White Pelican from Medford.

D. F. Lawton of Fort Klamath is registered at the Hall.

E. T. Givan has returned from Salem where he has been for the past month or six weeks.

Mrs. Ida Turner of Enid, Oklahoma, is visiting her daughter and son-in-law, Mr. and Mrs. George L. Drummond of the Drummond Print shop.

Expert on springs for your cushions at the Oregon Harness company, 7th & Klamath Sts. 6

FOR RENT—Three room house, close in, partly furnished. Inquire 114 Pine. Phone 648R. 6-4*

Prihoda for instance

On October, 1921, Vasa Prihoda made a comparison test at Aeolian Hall, New York City. John C. Freund, who is editor of Musical America and President of the Musical Alliance of America, wrote Mr. Edison: "I was astounded to find that I could not tell when Prihoda was playing or when your phonograph was playing."

Why the NEW EDISON brings the greatest violinists

COME IN. Listen to great violinists on the New Edison. Then listen to the best talking-machine violinists.

You'll learn why great violin performances are heard only in those homes which we've equipped with New Edisons.

This is not a slur on violinists who record for other phonographs or talking-machines.

It is simply a vivid way of stating the difference between the New Edison and the ordinary phonograph, or talking-machine.

We freely admit that some "talking-machine" violinists are rendering great

performances on the concert stage. But, you do not hear these same performances on the talking-machines. This is proved by the fact that no ordinary phonograph sustains the test of direct comparison with living artists.

The New Edison, however, does sustain this test. That is why it gives you everything the living artist gives.

Our \$. . . Plan

If you want your home to be one of those which enjoy the finest vocal and instrumental performances,—let us tell you of our \$. . . plan, by which we have put New Edisons into the best homes in these parts. Your initial payment is what you wish to make it,—the balance is cared for by a gentlemen's agreement.
