NEWS OF INTEREST TO KLAMATH LUMBERMEN

## LUMBER CONCERN ASKS BANKRUPTCY

PORTLAND, March 11.—Liabilities of \$31,991.74 against assets of \$7,475.57 are listed in the bankruptcy petition of the Wheeler United Lumber company, of Wheeler, Ore., filed in the United States district court. The petition is signed by H. J. Tolford, secretary-treasurer of the corporation.

The liabilities consist for the greater part of unsecured claims. In the list of assets the mill and equipment are valued at \$5000.

Following is a summary of the liabilities and assets of the company as given in the petition.

## TIMBER LAND GROWS SCARCE, REPORT SHOWS

OLYMPIA, Wash., March 11.—A check of the records in the state land office shows the state has 68,586

acres of logged off land, according to Land Commissioner Clark V. Savidge.

"The fact that the state has only this number of acres of logged off land remaining indicates that there has been a steady demand for such lands," said the land commissioner. "Since statehood, timber from many times this number of acres has been sold. Under the law none of the land can be sold for less than \$10 an acre but it often brings from \$20 to \$25." A list of such land will be printed in pamphlet form for public distribution.

## Free Trial for Goal in Football Abolished

NEW YORK, March 11.—Free try for goal after touch-down was abolished today by the football rules committee. Henceforth the team scoring a touchdown may put the ball in play on or back of the opponent's five-yard line and from scrimmage try for a single point by any legal scoring play.

## HORSE THEFTS LESS

Increase of Automobiles Through-out West Is Held Cause

SAN FRANCISCO, March 11.—Horse thefts on the Pacific coast are on the decline, M. A. Peck, head of the solicitation bureau of the Southern Pacific company said today. He bases his assertion on the fact that recently the National Horse Thief Detective association asked the railroads for rates to their annual convention to be held in Logansport, Ind., October 4 and 5, and that to date he has been unable to find a single delegate in the western states.

Peck says that the automobile has supplanted the horse on the Pacific coast to such an extent that horse thieves are about as rare as dodo birds, and horse thief detectives or those gentry whose vocation it is to apprehend equine purloiners "just ain't."

## FLIVVER CONVERTED INTO LIQUOR STILL

WILLIMANTIC, Conn., March 11.—A "flivver" converted into a still has been discovered in the barn of Frank Nivakas, farmer, in a raid by federal prohibition agents. The gas tank, radiator, feed pipe and hood were features of the apparatus. Sufficient liquor was found to order Nivakas' appearance in court today.

## MAN PERISHES IN VAT OF BUTTERMILK

GALESBURG, Ills., March 11.—John Palm, 41, drowned when he fell into a 10,000-gallon vat of buttermilk at a milk plant today.

## Summer Fabrics Vie with Summer Flowers in Loveliness

THE aisles of our piece-goods department are like garden paths bordered with colors exquisitely delicate or sun-warmed into vivid beauty. Organdies, voiles, dotted swisses, crepes, linens—the sturdy morning and sports variety of fabrics, and the delicate evening blossoms.

To look at them is a delight—to transform them with your own fingers into frocks is happiness. And it's a joy to realize that this Summer, when styles and fabrics are lovelier than ever, our prices are considerably lower than they have been for many Summers past; more than that, they are reinforced with another saving, a brand-new saving, made possible by a wonderful invention that performs three invaluable services to every woman who makes her own clothes—

## The DELTOR A picture guide with every new Butterick Pattern that saves you 50c to \$10 on every frock you make

First, in simple-to-understand pictures, it shows you how to lay the pattern you have chosen in your size on every suitable width of material, and in every view. As fast as you can follow the pictures, you pin the pattern to the cloth, and you have used from 1/4 to 1 3/4 yards less material than you have ever used before, saving 50c to \$10 on every frock you make.

And then, you learn how to put your garment

together with the skill of an expert. Something more than just a dress grows beneath your fingers. Miraculously you have sewn the charm of Paris—the distinction of a creation into your gown. And then, the finishing hints of the Deltor—they solve the problem of how to do the last detail professionally. The perplexing questions of finish and adornment are explained to you in simple words—and yet each is the expert's way.

The largest Pattern stock in Southern Oregon has been reinforced by more than Five Thousand yards of the latest styles in dress fabrics at new, low prices. The opportunity of a lifetime to show the Spirit of Thrift.

No wanted fabric you'll not find here, and no price quoted in a city store will be found lower. Our mission in Klamath Falls is to provide the world's best Merchandise at a saving over quotations made by outside distributors. We believe the needs of the people in Klamath Basin should be supplied in Klamath Falls, just as the needs of the people in Portland are supplied in Portland. We believe this store should set the pace—yes, force the price, if you please, just as the large stores in a city establish the price. We are in the same position to make the price today we were ten years ago, and we're taking advantage of the opportunity to make it, to lower in every instance where possible. You will be surprised at the reductions over previous seasons dating back during the past three or four years, and after a careful comparison you will agree with us that this is a community store—a store for the people—"the people's store."
