META CHASTAIN, Society Editor.

Members of the Junior class of the Klamath county high school last night presented two clever little plays at the high school auditorium, entitled "Welsh Honeymoon", and "The Neighbors." "Welsh Honeymoon" is based on the Welsh superstition that the spirits of those who are to die during the year may be seen in the church yard on Hallowe'en night.

"The Neighbors" was full of quick wit and funny situations, the scene being laid in a kitchen. The cast was as follows: Miss Diantha Abel, Kathryn Ulrich, Grandma, Letha Miller, Peter, Herbert Landis, Ezra Williams, Walter Short, Miss Elmira Moran, Ruth Utter, Miss Trot, Helen Caldwell, Inez, Ione Solomon, Miss Carry Ellsworth, Bernice Hector. Those appearing in "Welsh Honeymoon," were James Manning, Mildred Lewis, Oran Milam, William Clark and Marlan Wortley.

A very successful social evening was spent last Friday by the Scandia Lodge of this city. A very good attendance was reported. Preceding the social a short business meeting was held when it was unanimously voted to donate a small sum from the treasury to the Timberworkers' relief fund for needy families in the community.

"Hearts and Diamonds," a brilliant three act comedy, was produced Thursday and Friday evenings at Lyceum hall by members of the Gaelic Dramatic club, composed of members of the Sacred Heart choir.

Both nights the cast played to a large and enthusiastic audience. The proceeds will be donated to the academy fund. Those participating were: Misses Ruby Fenwick, Esther McAndrews, Agnes Driscoll, Mesdames Byron Noud, and D. Hanlon Crump, Messrs. Walter Hannon, John Linnman, George Connors, D. Hanlon Crump, Murray Hannon and Charles Maguire.

On Tuesday, March 14, Miss Margaret Smith became the bride of H. E. Wood at the home of the Reverend A. L. Rice.

The double ring ceremony was used, and was made more beautiful by its simplicity. The bride was attended by Miss Clara Calkins and the groom by Harold Gray.

Both young people are very well known here among the younger social set. They will make their home at Copco, having left for there last Thursday.

Mrs. L. G. Hoagland entertained at her home on Third street last Monday evening for members of the cast of "The Prince of Liars" which was recently produced here.

A most delightful evening was spent with music and conversation, and dainty refreshments were served at a late hour by the hostess to the Misses Mildred Thrasher, Teddie Durbin, Meta Chastain, Messrs. Andy McGee, John Houston, Kenneth Perry and Walter Marshall.

The women's auxiliary of the chamber of commerce will act as hostess Saturday afternoon to the women of Klamath Falls at a tea in the chamber of commerce rooms at 2 o'clock.

During the afternoon Mayor Wiley will discuss various subjects of civic importance, and particularly the sanitary condition of this city. Health Officer Dr. H. D. L. Stewart will also speak, and Mrs. O. R. Moeller will speak along city beautiful lines. A good attendance is anticipated, particularly of those who have recently taken up residence here.

On Tuesday afternoon the Lelsure Hour club was delightfully entertained by Mrs. T. C. Campbell at her beautiful home on Pine street.

Bowls of green carnations suggested the spirit of St. Patrick's Day, the dainty color scheme also being used

in the refreshments and confections served by the hostess.

The afternoon was devoted to cards, the prize for the highest score being awarded to Mrs. J. S. Elliott. Mrs. Campbell's guests were: Mesdames E. B. Hall, Horace Manning, H. W. Bridgeford, J. S. Elliott, M. S. West, Fred A. Baker, Golden Lincoln, K. G. Cummings, E. D. Lamb, James Perry, R. E. Deweese, and I. H. Hibbert.

On Wednesday, March 29, the entertainment committee of the B. F. O. E. will entertain Elks and their ladies at a masquerade ball. The affair is being anticipated as probably the best dance of the season.

An elaborate party is being planned by the Ladies' club of the B. F. O. E. for next Tuesday afternoon at the Elks' temple. An invitation is extended to all Elks' ladies and their friends.

Progressive bridge will begin at 2:15 o'clock and at the close of the afternoon, a short musical program will be given. Among other numbers, a selected chorus from the high school will sing several songs. Miss Esther Calkins and Miss Margaret Schubert will also sing.

Mrs. Margaret Pitts entertained a number of friends last Monday evening at a turkey dinner. A dainty color scheme of red and white was artistically carried out. Covers were laid for Mr. and Mrs. J. J. Parker, Mr. and Mrs. R. E. Smith, Mrs. Golden Lincoln and the hostess.

Mrs. Ed Propst, assisted by Mrs. E. O. Propst, was hostess of one of the most delightful affairs of the past week when she entertained members and several guests of the Happy Hour club at her home on East street, Tuesday afternoon.

St. Patrick's day was the inspiration for the color scheme which was carried out in the decorations, place cards and favors. During the afternoon each guest was presented with a white quilt block on which she must embroider a large shamrock and her initials within a given length of time. Mrs. George Humphrey was successful in winning the prize for having completed her work first.

At the close of the afternoon delicious refreshments were served by the hostess to Mesdames S. Porter of Chicago, G. T. Porter, R. Motschenbacher, J. Grimes, M. Mills, F. Bremer, E. Sanders, N. Otterbein, Walter Donart, W. Norris, A. T. Salficky, J. Seeds, W. Weeden, E. Fry, E. O. Propst, R. A. Emmitt, H. R. Richardson, Wm. Steinmetz, Geo. Humphrey, Jennie Hurn, J. J. Keller, W. P. Johnson, L. Ruconich, and R. J. Sheets.

Two elaborate parties, whose inspiration was St. Patrick's Day, were given Wednesday and Friday of this week by Mrs. J. E. Enders at her home at 213 Cedar Street.

A profusion of green serpentine favors were caught at the ends with little favors in keeping with the day. Shamrocks were used to border the rooms and form a center for each table. A clever luncheon, in which the color scheme of the holiday was again carried out, was served by the hostess in the late afternoon. Mrs. Enders was assisted both days by Mesdames J. H. Carter, Byron Hardenbrook and Philip S. Pope. Wednesday's guests were the Mesdames J. M. Alnut, Joe Brett, E. M. Bubb, Peggy Burke, L. Hoagland, T. M. Watters, R. L. Orem, Roy Durbin, Fred Dunbar, J. The honor prize was won by Mrs. J. M. Alnut and the consolation by Mrs. J. S. Elliott.

WHITE PINE HELD BEST FOR ALL CONSTRUCTION (Continued from Page 1)

ing is lost that can be profitably marketed, is practically complete, except in a few localities still far from transportation, and the industry is now organized to furnish its softwood products in all markets of the world.

The territory covered by the California White and Sugar Pine Manufacturers' association includes the Klamath Falls region of southern Oregon and the entire length of the Sierra Nevada mountains in California, from the Oregon line south to

the Tehachapi; also the Coast Range, south to Lake county.

In this region there stands approximately 325,000,000,000 feet of timber, as follows: Sugar pine, 35,000,000,000; California white pine, 175,000,000,000; Douglas fir, 45,000,000,000; incense cedar, 10,000,000,000; red fir, 18,000,000,000, and the rest unclassified.

The production of lumber now amounts to approximately 1,000,000,000,000 feet annually, which means a virgin timber supply at the present rate lasting 325 years. Two

factors, however, affect this result, namely, an expected increase in production and new forest growth on cut-over lands. The present cut-over lands in California and southern Oregon are now estimated to be growing timber at the rate of approximately 250,000,000 board feet annually. Through perfected co-operation between the United States government, the state and private timber owners, a comprehensive fire suppression and slash disposal system has been spread over this entire timber area. Experience has demonstrated that if fires are kept out, a new forest starts with-

out planting, the seed coming from defective trees not removed during logging or from that already in the ground before the mature trees were cut. Thus, reproducing the forests becomes primarily a problem of keeping fires away from the young trees, and this is now being accomplished through the combined efforts of the lumbermen and authorized public agencies. As it takes only from 40 to 150 years to grow saw timber, it seems safe to assume that this region will be able to furnish lumber in increasing amounts indefinitely.
