## BURGLARS MAKE HAUL FROM A. F. GLOVER STORE

### Twelve Rings Taken While Family Is at Theatre; Enter Through Rear

Burglars entered the A. F. Glover jewelry store, 511 Main, between 7:30 and 10:30 Sunday night and removed 12 rings valued at \$260. Entrance was gained by forcing a rear door, which opens into Glover's living apartment.

Glover said the burglary was committed while he and Mrs. Glover were attending a theatre, and that it was apparent their movements had been watched. The rings were taken from the front show window. With one exception they were all women's rings. Valuable watches and other jewelry in the show cases were untouched, leading to the belief that the men had been frightened away before completing their work.

No arrests have been made in connection with the theft.

### K. K. K. ACTIVITIES BEING PROBED BY MEDFORD OFFICIALS

#### Abduction of Prominent Business Man Attracts District Attorney to Action

MEDFORD, March 20.—District Attorney Rawles Moore today is making an investigation of the activities of the Ku Klux Klan, members of which are alleged to have abducted J. F. Hale, prominent citizen of this city, on Friday night and taken him to a point near Table Rock, ten miles from Medford, where he was threatened with hanging if he did not drop a civil suit for \$150 against a Medford resident. Hale was released when he pretended to fall in a faint, thereby frightening his captors.

According to reports extant late yesterday afternoon Hale was none the worse for his rather thrilling experience Friday night, except in injured feelings, and had been in consultation with his attorneys during the day. It is also reported that he visited the district attorney's office, although that official was not there.

It is known that when late Friday night the masked Ku Klux kidnapers became alarmed at Hale's "fainting spell" and drove back to Medford with him and released him on Genesee street, they did so with the admonition that he could remain in Medford, but that if he ever related or complained of the kidnaping and "hanging" incident he would meet with death. When near Table Rock they had placed the rope around his neck they declared they would hang him unless he dropped a suit for money against a Medford citizen and promised to get out of town at once and stay away.

#### Abolition of Capital Punishment in District of Columbia Expected to Follow

WASHINGTON, D. C., March 20.—The hanging of John McHenry, convicted 18-year-old slayer, Friday is expected to bring final action by congress on bills now pending which provide for the abolition of capital punishment in the District of Columbia.

McHenry was hanged after efforts of senators, church leaders and other influential persons had failed to save him. Numerous appeals were made direct to President Harding. ### LOS ANGELES, March 20.—

A second Obenchain trial is to be set tomorrow following a disagreement of the first jury last night.

The revenge of a woman scorned was the motive in the prosecution sought to establish in the trial of Mrs. Madeline Obenchain charged with murder in connection with the slaying of J. Belton Kennedy on August 5, 1921.

The prosecution asked for a verdict of guilty on the ground that the defendant conspired with Burch to slay Kennedy. A considerable portion of the testimony in the Burch trial was ruled out in the Obenchain case on the ground that under rules of evidence it could not apply to an alleged co-conspirator.

Mrs. Obenchain's divorced husband, Ralph R. Obenchain, was one of her attorneys in the trial. Several weeks before the trial they obtained a marriage license and announced that they would be re-married if a verdict of acquittal were returned.

### PHILADELPHIA, March 20.—

Sons and daughters of some of the world's champion pure bred milk cows, will parade before the auctioneer here today in the Brentwood National sale and show. A number of state blue ribbon holders are also carded to go under the hammer and the eyes of the dairymen in the United States will be focused on the prices obtained for a significant reason.

If the prices are good, dairymen claim it will place the stamp of approval upon the effort to introduce the pure bred into all the dairies of this country, while if the prices are disappointing, the same men admit it will mean that their efforts to improve the industry along these lines will have received a decided setback.

From the Pacific coast come a son and daughter of the world's champion milk producer, Segis Pletertje Prospect, whose record of 37,000 pounds of milk in one year is one of the wonders of the dairymen industry. Leading Canada's offering at the sale will be the son of the world's champion butter producer of all ages and breeds, Bella Pontiac, producer of 1,587 pounds of butter in one year. Canada also sends grand-daughters of May Echo Sylvia, the only cow in the world to produce 1,000 pounds of milk in 7 days, yielding 41 pounds of butter.

There will be a number of cows who have produced, under official test, up to 36 pounds of butter in seven days and up to 1,200 lbs. of butter in one year. Then there will also be a number of sons and daughters of cows with lesser yet enviable records, made under official tests.

At the show valuable prizes will be awarded the grand champion cow and the runners-up to her. The show and sale will last four days and 200 head of the best breeding stock of the Holstein dairy cattle will go under the hammer. These cattle come from nineteen states and Canada and sixty-five of the leading establishments will be represented by animals.
