Mike Gibbons Signs Up With Harry Greb

ST. PAUL, March 27.—Mike Gibbons, middleweight boxer of St. Paul, will meet Harry Greb of Pittsburg May 1, according to terms accepted by Gibbons' manager. The bout is scheduled for 12 rounds, no decision, at Boyle's Thirty Acres, Jersey City. Greb recently won a 15-round decision over Gibbons' younger brother, Tom, a light heavyweight. Greb is to make 160 pounds for Mike.

BUYS OUT PARTNER

Interest of E. D. Moody in Pool Hall Purchased by J. M. Alnutt

The interest of E. D. Moody in the Pastime pool room has been purchased by J. M. Alnutt. The business has been conducted in partnership for the past two years by Alnutt and Moody.

Plans for renovating the room and adding to the stock are being formed by Alnutt, who looks forward to a good business year as soon as the wheels of industry start revolving.

In the stock to be carried, he said, attention will be given to the public fancy, and he plans to carry every article in smokers' supplies, and the usual small merchandise carried for which there is the slightest demand.

NAME WANTED FOR RECKLESS DRIVERS OF AUTOMOBILES

WASHINGTON, D. C., March 25.—What is the proper name for the motor driver who tries to beat the traffic signal, who drives on the wrong side of the street, who neglects his brakes, who tries to cut in close, who through his carelessness or recklessness endangers the lives of all, particularly of children?

The American automobile association wants a name which will put such a man in the same class as the jay-walker. A jay-walker is a person not sufficiently civilized to cross the street at the proper crossings. He or she endangers public safety as well as obstructing traffic. The jay-walker deserves prosecution, but even more effective is the ridicule carried by this term.

The millions of orderly and careful motorists in the country suffer because of the few thousands rowdy and careless. A name is wanted to show these drivers that they do not "belong." Police records show that a heavy percentage of accidents are due to the recklessness of pedestrians, but that places a further responsibility upon the motorist to take extra precautions for safety.

For the best term of this sort such as man-killer, jay-walker, road-hog, highway-pest, the American automobile association will pay $25. The name must be submitted before may 15th. Award will be made May 29th.

All suggestions should be addressed to Contest Editor, American Automobile association, 1108-16th street, N. W., Washington, D. C.

MOTORISTS NEED NOT WORRY OVER GASOLINE SUPPLY

WASHINGTON, D. C., March 27.—The millions of motorists concerned over the matter of the nation's gasoline supply may experience at least temporary relief in the announcement of the United States bureau of mines that the stocks of this vital liquid fuel were increased in the month of January by 119,000,000 gallons. On February 1, there was a reserve of 705,700,000 gallons, which is 130,000,000 gallons more than for the corresponding date in 1921. The figures are rapidly approaching the 800,000,000 gallon record mark made in May of last year. Production of gasoline in January amounted to 444,622,783 gallons; imports were 8,250,393 gallons; domestic consumption amounted to 282,717,168 gallons; exports to 49,856,310 gallons; and shipments to insular possessions, 675,659 gallons. Present stocks are equivalent to fifty days' supply based on the total daily average consumption for 1921. Operative refineries in the United States numbered 292 on February 1, with an indicated daily capacity of 1,753,940 barrels. Plants running continued to operate on an 80 per cent basis.

An increased demand for gas and fuel oils may be anticipated if the pending coal strike becomes a reality. Stocks of these oils on hand February 1 amounted to 1,319,481,359 gallons. Based on the daily average domestic consumption for 1921, these stocks are equivalent to sixty-eight days' supply. The production of these oils in January amounted to 858,110,877 gallons.

During January the nation's output of kerosene amounted to 172,917,141 gallons, an increase of 2,500,000 gallons over the preceding month. The fact that, despite this increase in production, stocks of kerosene decreased 13,500,000 gallons indicates enlivening in the movement of this product.

Stocks of lubricating oil on hand February 1 were 245,000,000 gallons, an increase of 28,465,000 gallons over the month previous.

Resolved: "That callers leave at 12 o'clock Friday and Saturday nights and at 10:30 on all other nights."

ORANGE PACKING RUSH IS OVER FOR SEASON

RIVERSIDE, Calif., March 27.—The orange picking rush is over and packing houses will cease to operate on a large scale after May 1, many of them reaching the low ebb the latter part of April, according to H. A. Lynn, manager of a local packing association.

FARM POINTERS

Barley seeded in on a poor wheat stand grows a bad mixture to sell as it is too hard to separate. It is all right in some cases for feed but not for market.

Where a little corn can be grown with sunflowers the mixture makes a better silage than the sunflowers grown alone.
