Good Baseball Weather For Opening of Season

SAN FRANCISCO, April 4.—Good baseball weather is expected in all cities for the opening of the Coast league today, except at Salt Lake, where conditions were reported unfavorable.

PADDOCK BEATS MARK

Champion Sprinter Lowers Previous Record by One-Fifth Second
HONOLULU, T. H., April 4.—Charles Paddock, California sprint wonder Saturday lowered his previous record for 120 yards by one-fifth second, running the distance in 11 2-5 and continued to the 125-yard mark in 12 seconds flat. The marks were made by continuing a 100-yard dash which he won in 9 3-5 seconds. Paddock is competing against local athletes in a series of exhibition races. In the 120 and 125 yards distances he was without competition after the 100-yard mark. Beamer of Hilo was second in the 100, and was timed at 9 4-5 seconds.

Paddock also won the 220 yard dash, his time being 22 seconds. The wind was against Paddock most of the time in the 100-yard dash, but aided him somewhat in the 120 and 125 yards, the track being curved.

EXCURSION TO CAVES

Natural Wonders of Josephine County to Be Anticlimax Mecca

EUGENE, Ore., April 4.—Celebrating completion of the road to Josephine caves, 45 miles southwest of Grants Pass, Ore., an automobile excursion will be run from that city to the caves early in June. The federal forest service and the state have co-operated in building the road, which is expected to be completed in time for the excursion.

The Josephine caves are among the natural wonders of Oregon. While in the past they have attracted hundreds of visitors each year, it is expected thousands will see them each season in the future, due to the new road. The forest service has provided suitable camping places near the entrance to the caves, and electric lights and steel stairways, to make exploration more simple, are being installed.

PRODUCTION RISE IS SHOWN BY BASIC INDUSTRIES OF U. S.

(Monthly Summary by Federal Reserve Board)

The outstanding feature in business development during the past few weeks has been the improvement in basic industries (including steel), and especially in the movement of railway equipment, copper and other metals. A marked increase in the production of automobiles has also been a feature of the month. Building which has been on the upgrade for several months past continued its growth in activity. February, 1922, building permits were about 40 per cent in excess of those of February 1921, and the advance is still continuing. As against this favorable trend in the physical volume of production in basic lines is the fact that a variety of conditions have operated to offset the encouraging improvement which has been noted in textiles during the winter months. Prominent among these unfavorable influences are the disturbed relations with labor, but uncertainty as to cost of production and lack of forward orders has had a depressing effect in those districts where no labor troubles have made themselves felt. No important changes have been observed in other manufacturing lines, such as leather boots and shoes. Agriculturally the month has been one of favorable development considering the season.

According to official figures a marked, even if still limited decrease in unemployment is under way. In trade, both retail and wholesale, the tendency has been on the whole downward although not pronouncedly so. Retail trade is uniformly lower than it was a month ago or than it was at this time last year. The movement of commodities to market during the month has been very satisfactory and an increase in carloadings has been noticeable in many parts of the country. The advance in the index number of wholesale prices shown by the federal reserve board's compilation amounts to four points for the month (from 138 to 142—1913 prices equal 100). Financially the month has shown but little change, and discount and interest rates have not moved materially. Foreign trade shows a somewhat further decline with a much closer approach to adjustment of export and import figures both here and abroad. Increasing stability in foreign exchanges, with the exception of marks, has been the rule.

Personal Mention

W. C. Burke, a rancher of the Spring Lake district, who was in town transacting business yesterday, said that he was going to start the farm work soon.

Miss Helen O'Connor of Midland, who was shopping in this city yesterday, left for her home today.

Mrs. E. H. Simmons left today for a two weeks' visit at Grants Pass.

Mr. and Mrs. Regenberger left for Sacramento on this morning's train.

Miss Gertrude Cox left today for Ashland for a visit with friends. Miss Cox was formerly employed at Anderson's grocery.

C. C. Chitwood left on this morning's train for Jacksonville, Oregon where he will take charge of a drug store. He was accompanied by Mrs. Chitwood and daughter, Dorothy.

Mr. and Mrs. W. Frank Arant, formerly of this place but now residing in Ashland, are here visiting old friends and relatives for a short time.

F. S. Wilson of this city left for Weed this morning to attend to business affairs at this place.

L. H. Bryan and E. A. McCollum of Dorris were overnight visitors in Klamath Falls.

R. E. Glasco left today for Fresno, California, for a visit of a week or 10 days.

W. C. Tallman, Southern Pacific engineer, who has been relieving Engineer Barnhouse, left for his home at Dunsmuir this morning.

E. E. Harphan of the Pacific Mint company was in the city to attend a meeting of the stockholders held last night. Harphan left for Eugene this morning.

The little daughter of H. S. Goodman is ill at her home in this city.

Isaac Harl of Newman's Grove, Nebraska, is in the city looking for a farm on which to make his home. Harl is visiting with his father, Adam Harl, during his stay here.

Mrs. A. J. Vove and son have returned from San Francisco where they have spent the past few months. Mrs. Vove has been studying vocal culture during her stay there.

Fred Wyss, logger, left this morning for Calore to look over the condition on his ranch near there.

B. E. Whipple and M. L. Lewis left this morning for Dorris. They intend to drive an automobile to this city which has been stalled there for some time on account of the roads.

Paul Musgrave and Emmet Hood left this morning for Phoenix, Arizona for an extended stay. The young men expect to find an opening in their line of work there.

W. Bentley and A. R. Johnson left this morning for Dorris to transact business at that place.

R. W. Hunner, special agent for the National Union Fire Insurance company, has been in this city transacting business with the Calkins-Donaldson agency. He left for Weed this morning.

W. E. Royce, owner of a dairy farm near here, was in the city today in search of a milker.

William Deal left this morning for Hornbrook for a visit. He was accompanied by his niece who will visit with her grandmother at that place.

Mrs. H. R. Peterson, accompanied by her little daughter, Carol, is here visiting her sister, Mrs. Bert Mitchell, 1185 East street. She will leave on Saturday for San Francisco.

"THE COUNTRY COUSIN"

SEEN AT STRAND TONIGHT

Scheduled for a one day presentation at the Strand theatre tonight, the new Seznick picture, "The Country Cousin," in which beautiful Elaine Hammerstein is starred, is said to carry even a deeper appeal than did the stage play which earned not only the lasting appreciation of the general public, but also brought forth words of praise from President Wilson and the late Theodore Roosevelt. After he had seen the play Roosevelt said: "The Country Cousin" is a first-class American play."

When viewed by President and Mrs. Wilson, the nation's executive expressed himself as having had "much pleasure," and said that Mrs. Wilson and himself particularly admired the play both because of the "simplicity, sincerity and dignity" in which it was presented and because there had been done something "thoroughly worth doing."

In its filming as a Seznick picture, the famous play of Booth Tarkington and Julian Street has received some sympathetic and colorfully dramatic treatment to enhance its worth as an interest-holding story typical of American life today.

Also amateur night tonight.

HEAR LAUDER

Some weeks ago Sir Harry Lauder, an international stage favorite, made an address to the Pittsburgh Rotary club in the Fort Pitt hotel. Sir Harry, himself a Rotarian, spoke for about forty-five minutes, and closed his address with one of his songs. There were probably 200 people in the dining room of the Rotary club listening to Sir Harry, yet the speaker had a larger audience than he ever had before in his life and his words and song covered a 500-mile radius, with the center of the circle at East Pittsburgh, Pa. That address may have been heard by more than 100,000 people. The entire meeting of the rotary club was broadcast from the Westinghouse company's station, KDKA.

PROGRAM GIVEN DAILY

Since the possibilities of the radio telephone as a means of entertainment and instruction in the home have been introduced to the farmer by the KDKA, at East Pittsburgh, Pa., and W. B. at Newark, N. J., sta-

Egg Production Cost High

Egg production on the average Oregon farm does not net a profit above interest on the investment, reports A. G. Lunn, professor of poultry husbandry at the experiment station. It is necessary to reduce the cost of production to realize a profit, and the easiest way to do this is to increase the egg yield by better stock and management.

Hubam clover at over 20 to 25 cents a pound is probably too expensive for use except possibly for beekeepers.
