**DENY RATE INCREASE**

other states have allowed, similar increase to that applied for here, is not necessarily a justification of the rate in Oregon. It was shown that both California and Washington for

example, transact a larger volume of business, yet Oregon shows the greater per cent return, the reason being advanced that this was due to the fact that "The principal center in Oregon is Portland, located in the extreme north corner of the state, you might say, whereby we (the utility) get a little longer haul."

While the utility contended that press messages were carried at a loss, convincing proof was not offered; and I am very doubtful if this utility could eliminate any great amount of expense, even in all intrastate press business were transmitted over the line of other utilities.

The revenue derived from press business is not a negligible amount, nor can it be so considered, and in fact in this case statement was made that the business was desirable.

**FOR THE EASTER PARADE**

**Just as Some Manufacturers Buy Raw Materials To Better Advantage than Others, so do Some Merchants Buy the Finished Product to Better Advantage than Others**

And just as some manufacturers operate with more efficiency and economy than others, so do some merchants conduct their stores of distribution with more efficiency and economy than others.

The merchant who buys to best advantage and conducts his store along the lines of strict economy is the one who can give his clientele the most for their money.

This store, like ALL GOLDEN RULE ASSOCIATED STORES, is continually striving to supply its patrons with the world's best merchandise at the lowest cost. We do not believe in "sweat shop" merchandise, for it isn't the BEST, but we do try to secure the BEST without paying a premium, and in turn offer this QUALITY MERCHANDISE at an extremely low profit, coupled with a living wage and reasonable hours for distribution.

This week—the week before Easter—we have unusual offerings in all departments. We are trying to make it possible for everyone to enjoy Easter Sunday in a most befitting manner. Not that it is necessary to wear expensive apparel on this day in order to celebrate, but it has long been

a time-honored custom with Christian people to make this a gala day—a day of rejoicing—a day of FEASTING rather than FASTING. It's a part of this store's mission to assist in making Easter Sunday an enjoyable day for everyone.

White will predominate the week's sales. White shoes, white hose, white gloves, white in all its purity. New suits, new coats, new wraps, all with the 20, 25 and 50 per cent discounts taken off at the time the retail price was put on. We're not trying to mislead any one by make-believe reductions. Golden Rule prices have always been lower, they will continue to be.
