ley teams for a guarantee of \$40,000 and one day's expenses, to which Grants Pass has agreed, but to which Medford and Ashland have each made a counter offer of a flat guarantee of \$40,000. This, if accepted, would leave three days' expenses of approximately \$150.00 to be met by the local team should they make the trip. Unless that amount can be raised by the students within the next few days, or made with the valley schools, all thought of a baseball trip this spring will have to be abandoned.

**Aviator Haunts Hangar  
Ghostly Plane Is Seen**

SAN FRANCISCO April 11.—Visions of a ghostly aviator hovering in a phantom plane around the hangar used by the late Lincoln Beachey, who plunged to his death at the Panama Pacific exposition in San Francisco seven years ago, have thrown residents of Bay Farm island, near Sere, into a panic, according to Harry Young, tender of the bridge connecting the island with the mainland.

One resident, a vegetable grower, claims to have been the phantom aviator on two successive nights, while crossing the bridge in the dark, and feared that the plane, flying low, must collide with his wagon. As the plane came close to him it did not alter its course, according to the man, but instead it "flew right through him."

Residents of the island state that, although the phantom might possibly have been their imagination, they prefer, hereafter to pass Beachey's hangar in the daytime.

After Beachey's death, the hangar was removed from the exposition grounds and towed to the island, where it has remained untenanted ever since.

**INCOME TAXES LESS**

LOS ANGELES, Cal., April 11.—Income taxes paid by Los Angeles citizens this year were \$11,000,000 less than the total of a year ago, according to officials of the local internal revenue office. Approximately twenty percent fewer individuals filed income tax returns this year than in 1921, the aggregate collection being \$30,000,000 as compared with \$41,326,644 last year.

**Phosphate Helps Manure**

Forty pounds of superphosphate to each ton of barnyard manure applied to the land will result in increased yields. It reinforces the manure in phosphorus, the element in which it is low, but which is drawn upon heavily by the crops.

An interesting phase of the Genoa deliberations if treaties and political subjects are permitted upon the agenda, concerns the Baltic and Balkan states embracing Poland, Finland, Estonia, Latvia, Rumania, Yugoslavia and Czechoslovakia, all of whom will have delegates at the conference.

Of these nations, Finland, Latvia and Estonia already have an alliance with Poland, while Yugoslavia, Czechoslovakia and Rumania, comprising the Little Entente, are on friendly terms with her. Lloyd George, it is understood, is anxious to further strengthen these friendly relations and at the same time minimize the dangers of future wars in the Balkans by securing at Genoa a treaty of peace with Russia on the one hand and Poland, with her allies and the Little Entente on the other.

Should such a treaty develop from the conference, it would affect the peace of more than 100,000,000 nationals.

**FASHIONS NO BOTHER**

**Women of Odessa Have Few Clothes and Often No Hat**

ODESSA, April 11.—Spring fashions do not bother the women of Odessa. They have no new fashion journals nor cloth with which to make new dresses. Women sometimes have a hat and a few yards of rough cloth to clothe themselves.

Underclothing is an unknown quantity. So are stockings for the unlucky. Women who have cloaks or furs wear them in day time but at night leave them home. If they did not they would be robbed in the darkened streets.

People who go to the theater travel homewards in groups for protection.

This lack of clothing hits very hard the younger girls. One of them said to the correspondent: "I should like to go abroad, if only to get nice clothes."

The older women in Russia, when talking of the chance of ever getting aboard say, "After all, if we got abroad we would be very poor, and feel our poverty more by the contrast. Here we are all dressed alike and more or less in rags and so long as we can get food enough perhaps it is best that we stay in Russia."
