GAMES FOR SPEEDERS

"Speedsters," "Road Katers" and "Damfools" Among Suggestions

SPOKANE, Wash., May 1.—Suggestions that careless motorists be called "speedsters," "road katers" or simply "damfools" are being received daily by the Inland Automobile association, which is implementing the American Automobile association's contest for a name for unruly automobile drivers. Anyone in the northwest may compete in the Inland Automobile association's contest, the prize for which is \$10. The ten best names received will be submitted to the A. A. A. for the \$25 prize offered by that organization. The regional contest closes May 5, and the national one May 15.

Judges in the I. A. A. contest will be two justices of the peace and a police judge before whom law-breaking motorists are regularly taken.

Among the 300 nicknames and titles received to date in the contest are the following: Gas fool, road vamp, autobat, carlooon, motor mut, gas hound, nearfool, juggernaut (the lady submitting this tore the definition out of the dictionary and pasted it on her letter), wreck-k, mummytop, carcanter, underdog's advance agent, auto-bolshevik, motormaniac, me-firster, jay-driver, go-devil, road vulture and crawler.

California, Stanford To Settle Supremacy

SAN FRANCISCO, May 1.—On the Harvard Stadium oval, two California track teams, one representing Stanford university and the other the University of California, next month will settle their fight for supremacy, their dual meet at thekeley last Saturday having resulted in a tie.

The Harvard meet, which both enter, will be the national championship affair of the Interstate Association of Amateur Athletes of America. Last year California won this meet and might the national title west. This it is expected to remain in the west.

I expect Stanford to win the I. A. A. A. meet. "Dink" Templeton, Cardinal coach, said recently Templeton believes that the Stanford stars, who took ten first places in the California meet, will repeat at the eastern affair. The presence of second and third place men prevented Stanford from winning from California.

Year-Old Boy Is Making Name for Self

SAN FRANCISCO, May 1.—Valla, a quiet, smiling 19-year-old San Francisco boy, slipped into the line-up of the Pacific Coast League baseball team here a month ago without much noise, but today he is being talked about by all the fans and is described by some as the greatest prospect in the Coast League in years. (And generally it is need to be shown before they can be recruited.)

In the opening game against the Valla fanned three times, discouraged, he was given another chance, and by the first part of this week his hitting ability and marvelous speed have given him a hitting percentage of .596.

Jack Miller, manager of the team, says Valla is one of the best boys in baseball, and Jack McCarthy, former American league pitcher, thinks Valla looks better than Ty Cobb did when he broke into the American league in 1905.

Ed Stutz, the fast Los Angeles pitcher, was the league sensation last year, but this year local people think Valla will prove the sensation.

Valla can play the infield and outfield and can run. In nearly every game he has beaten out one or more hits, for if the ball takes a curve of hops before it reaches an infielder the boy is sure to beat it to first.

Valla was born in Santa Cruz, California, but was raised in San Francisco, where he learned his baseball on the Golden Gate park diamonds. Last year he was with professional teams. This year he is playing his first professional ball.

NEW INTERESTS SEEN IN RADIO DEVELOPMENTS

(Continued from Page 1)

small concerns manufacturing radio supplies are estimated by the radio corporation of America as numbering thousands. Figures of the same corporation show that whereas two years ago 4,000 tubes a year were in demand, this year probably 200,000 tubes a month will be called for.

Reports gathered from a number of states by the Associated Press show that many boys and other amateurs are constructing and selling outfits.

Boys Successful
Three years ago three boys in Chicago, 16 and 17 years old, began to make radio outfits. They are now incorporated and carrying on a large business. Their success indicates the alluring possibilities in this new industry of adventure. Its alleged hazards were pointed out in the prediction of an official of one of the older and larger electrical supply houses that if all the concerns now engaged in making radio equipment should remain in the enterprise, before long parts would become a drug on the market and that by October 1, the makers of complete sets would actively be soliciting business.

That such a situation would be a reversal of present conditions is indicated in the report of another large supply house that it is two months behind in filling its orders and word from all parts of the country of a great shortage in apparatus. The huge demand is ascribed to the practice of free broadcasting.

600,000 Receiving Sets
There are now 600,000 receiving sets in the United States, according to the estimates of several companies. Of these 100,000 were said to be in the middle west, and 15,000 to 25,000, according to varying estimates, in Chicago.

Dealers declared that the suddenness of growth of this infant industry and the fact that the number of plants varies from day to day made it impossible accurately to gauge its proportions. One dealer said that it was impossible to estimate with any certainty the extent of the demand, inasmuch as buyers in their eagerness to get equipment as soon as possible are placing orders with dozens of dealers at once, and purchasing from the first dealer who is ready to deliver. For that reason, it was stated, what might seem to be a demand involving \$30,000,000 might resolve itself into a demand involving \$2,000,000.

Radio Bootleggers
"There are more bootleggers in the radio business than in the whisky business," one dealer asserted. "People get hold of parts and sell them for exorbitant prices; I have known a single tube which is regularly sold for \$5 to bring \$15. Some of these spurious dealers come in and try to bribe our clerks to get them parts."

An electrical supply house at Toledo, I., has begun to install what it has announced will be one of the most complete radio manufacturing plants in the world. It proposes to employ 100 workers at the outset and more as the department is enlarged, and plans for a daily output of 500 complete radio receiving and transmitting sets. In Toledo and Lucas county, it was estimated, several thousand sets are receiving daily weather, market and other reports broadcast from various cities throughout the country. Six concerns are manufacturing radio equipment in Cincinnati, O.

Eighteen Chicago Firms
There are eighteen regularly established concerns in Chicago manufacturing radio equipment, aside from many boys who assemble parts and distribute the sets thus constructed among their friends.

There are 204 companies in Missouri manufacturing radio supplies. Of these eleven are in St. Louis. In St. Louis a twelve-year-old boy, twenty-five business men, several automobile mechanics, one plumber, one butcher, and several high school pupils are making the selling radio supplies during their spare time.

About twenty-five boys are constructing and selling radio equipment in Milwaukee, Wis. They sometimes receive \$50 or higher for their outfits, it was said. The large department stores of Milwaukee are handling sets, and one of them has a large window trimmed to represent a family sitting around a room listening to a radio concert.

Dallas, Texas reported fourteen dealers in radio equipment, one of them which sold such supplies exclusively, having built up its trade within the last few months. Madison, Wis., reported that a new radio store has just been opened there and is already widely patronized.

A few centers reported that no manufacturers had established themselves in their vicinity so far, but that dealers were anxious to handle equipment "when they could get it." In Louisville, Ky., equipment is sold by dealers in parts and experts are required to assemble it. One automob-

ile concern there has undertaken to assemble parts, as a side line. Two new factories have just been organized in Kansas, one at Wichita and one at Topeka.

IN THE COURT

Hearing on Petition
Hearing on petition for confirmation of the Horsetly Irrigation district will be had June 7, 1922, at the hour of two o'clock p. m. in accordance with an order signed by Judge Stone late Saturday. The purpose of the hearing is for the confirmation of the proceedings had in the county court, which a provision of the Oregon statutes on such matters.

Jungworth vs. Jungworth
Transcript of appeal to the supreme court was filed late Saturday in the divorce case of Wyma Jungworth against P. B. Jungworth. The case was tried before Judge Stone about three weeks ago.

Style Shop vs. Holden
Attachment suit for \$99.26 was filed late Saturday by the Andross Glover Style shop against S. E. and Anna Holden, covering a merchandise account. Dismissal of the suit was filed in the circuit court this morning.

BENEFIT AT THE STRAND ON TUESDAY AND WEDNESDAY
Benefit performances for the timberworkers will be given at the Strand theatre on Tuesday and Wednesday of this week. Ted White has announced. He has booked extra good attractions for both days, he says, and patrons are promised more than the usual big Strand show.

LONE PINE

Prof. J. A. Churchill, state superintendent of public instruction, will make a canvass of Klamath county during the first week in May, in the interest of the county unit campaign. He desires to meet as many of the parents as possible and for this reason Mrs. Ferguson, county superintendent, has planned to have him stop at as many schools en route to the county school centers as can be reached.

Prof. Churchill is scheduled to reach Lone Pine at 10:30 a. m. Monday, May 1. All patrons are urged to be present, as this is the first time the state superintendent has found it convenient to visit the rural schools.

L. F. Geertson and son Rolf moved to their Tule Lake ranch Monday to put in the crop.

Mr. Paulus was out to the Enman ranch Wednesday to move his cattle, which have been wintered there.

Chas. Barks is hauling sand getting ready to start the foundation for his new house.

DORRIS

Ben F. Graham, a farmer of Butte valley, was a business visitor in Dorris yesterday.

H. L. Nelson, manager of the Butte Valley Land company at Macdoel, drove to Dorris yesterday on business.

Louis Hoagland and E. H. Jefferson, business men of Klamath Falls, were in town yesterday by automobile on business.

Mrs. Margaret Kerwin has opened her confectionery establishment to the public, and is receiving compliments from her friends on the excellence of her service.

MARKET REPORT

PORTLAND, May 1.—Cows 25c higher, other cattle steady. Hogs, 25c lower; prime light, \$11 to \$11.50. Sheep, eggs and butter steady.

SALTS FINE FOR ACHING KIDNEYS

We eat too much meat which clogs kidneys, then the Back Hurts.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless, inexpensive, makes a delightful effervescent lithia water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

ALL RETAIL CLERKS ATTENTION!
All Retail Clerks are hereby notified to be at the Labor Temple (basement of Odd Fellows' building) at 8 o'clock Monday evening, to install Clerks' Local and elect permanent officer.
