**Murphy Breaks All Records for 100-Mile On Cotati Seedway**

SANTA ROBA, May 9.—Jimmy Murphy won the 100-mile Cotati Speedway event in world record time Sunday, 2 minutes under the former mark, when he came home ahead of a fast field in 52 minutes and 1.23 seconds, an average of 114.93 miles per hour. Frank Elliott was second, Harry Hartz third.

Pietro Bordino won the 50-mile event in 24 minutes, 12.36 seconds, an average speed of 114.2 miles per hour, with Harry Hartz second, Jimmy Murphy third.

The old mark for 100 miles on a speedway was 54 minutes, 5.8 seconds, made by Eddie Hearne on the same speedway August 14, 1921. Murphy's first 50 miles in the 100-mile event were clocked in 26 minutes, 3.02 seconds, the fastest 50 miles ever made on a speedway, officials of the meet said, though it will not go as a 50-mile record. Murphy's average for the first half of the distance was 116 miles per hour.

In the 50-mile race, Bordino and Hartz, who finished one-two, missed a serious accident in the back stretch when Hartz grazed Bordino's car. Neither car stopped. It was the nearest to an accident of the day.

Earl Cooper, driving 25 miles against time, made what was said to be a new stock car mark, with an average of 97 miles per hour, against the old mark of 91.09. His time was 15 minutes, 29.95 seconds.

The fastest previous record for a stock car for this distance is believed to be that made by Ralph Mulford of Uniontown, Pa., May 20, last, when he covered 25 miles in a class "C" stock chassis in 16 minutes, 37.34 seconds.

Elliott and Hartz both finished within the former world record in the 100-mile event, Elliott coming in seven seconds behind the winner and Hartz less than a second behind Elliott. Others to finish in the 100-mile event were:

Roscoe Sarles, fourth; Art Klein, fifth; Beatro Paolo, sixth; Ralph de Palma, seventh; and Joe Thomas, eighth.

Sarles also took fourth in the 50-mile race, with Elliott, fifth; Klein, sixth; De Palma, seventh; Jerry Wunderlich, eighth, and Oje Thomas ninth.

Eddie Hearne appeared in his last Pacific coast race before entering vandeville. He failed to finish in the 50-mile race, retiring after his 21st lap with a broken valve. Bordino was driven out of the 100-mile event with his engine afire after his 75th lap.

**THE SYMBOL OF A WOMAN'S FAITH**

On the day that she bade her lover good-bye, she placed a lamp in her window to guide him back to her. And then, through the years she waited, patient, faithful, true—for the man who never came; waited with a heart full of trust and devotion. Day and night the lamp burned with a clear, unflinching flame. So, too, burned her love, serene and strong. Such faith as Mary Ainslie's is rare, indeed. It is the theme of a book which has charmed and delighted thirty million readers. And the fascinating photo-drama which has been made from this world-read novel will charm and delight many millions more.

**Little Queen SHOES**

**Protection for Growing Feet**

ALL the knowledge gained through thirty years' study of the human foot is represented in the lasts of "Little Queen" shoes—lasts scientifically designed to afford protection for the growing foot, allowing it to develop naturally.

And a sympathetic understanding of every little girl's love of good-looking footwear is shown in the attractive styles which have all the smartness one has learned to associate with the name Queen Quality.

Perfect-fitting, sturdily built, good-looking, long-wearing shoes—the "Little Queen" trade mark is an assurance of footwear satisfaction for both the wise mother and her daughters.
