HALL DENIES CHARGE

Makes Reply to Telephone Allegations Made By Patterson

Control of the Coos & Curry Telephone company by the Pacific Telephone & Telegraph company is denied by Charles Hall, president of the company and republican candidate for governor, in a letter to Senator I. L. Patterson, an opponent for the nomination. Hall declines Pattersons offer to debate the matter, on the ground that there are big issues that would better serve as subject of debate, which he would willingly discuss.

Following are extracts from Hall's reply to Patterson:

"Is it not known to your Mr. Burke, as well as to you, that when I was president of the Oregon State chamber of commerce, that body employed an attorney, Hon. John McCourt, now a justice of the supreme court, to oppose the raise in rates then asked by the Pacific Telephone & Telegraph company? Look it up, senator.

"But, if the telephone rate question is an issue, then I am the logical man for governor, since the principles of service, reasonable rates and fair treatment in the management of public utilities, which are successfully demonstrated in the affairs of the company which I am directing, may well be extended to the public service generally throughout the state.

"Don't you realize, what the people of this state are beginning to realize, that a governor whose practical experience in mercantile, financial, telephone and other business has enabled him to give good service at rates lower than those complained of in Portland and elsewhere, and yet insure a satisfactory return to the investor, is specially trained and fitted to help the people of the state to obtain better service and lower rates, and at the same tirge guarantee fair treatment to all the public, subscriber and investor alike? The rates of my company are a matter of public record, and I am perfectly willing that they be compared with those of other companies rendering similar service. In the meantime, I inclose some comparative rates that may interest you. Will you see that these are published fairly and as widely as your own manager's challenge to debate this matter before your own meetings?

"If you care to discuss at some of my meetings real issues, such as public school education; business, not political, methods in the affairs of state, or the like, mentioned in my statement of principles, I shall be glad to welcome you there."

GIVEN NEW TONGUE

Modern Surgery Accomplishes Another Uncanny Feat

PARIS, May 15.—Modern surgery has accomplished another uncanny feat. Insertion of an artificial tongue, enabling Sergeant Vialla, a Verdun wounded war veteran to talk, has just been reported at the Val de Grace hospital.

Sergeant Vialla lost his lower jaw in the war and it was reconstructed with a complete set of teeth. When the surgeons had finished this job, there was only the base of the tongue left, and Dr. Eugene Quenolle set to work to fix up a rubber tongue and palate. Vialla was soon able to eat with this mechanism instead of having to use a tube. Later, he trained himself to make sounds on the palate, and now it is reported is able to converse and even sing.
