

IN THE COURT

Exceptions Signed

Judge Stone received from the Lakeview court the bill of exceptions in the case tried before him there Monday, May 15, which he signed, thus clearing away all obstacles to his leaving the bench as planned next Friday, at which time the republican nominee, Judge A. L. Leavitt, will take the office.

Ryan vs. Robinson, et al

Suit in equity was filed this morning by Robert F. Ryan against Frank H. Robinson, the Credit Service company, Bert C. Thomas and Belle Fulton, asking the appointment of a receiver for the Merrill drug store, that the claim of \$1000 held by Ryan be declared a mortgage against the store, and that an injunction be issued holding in abeyance any further action on the attachment suit filed by the Credit Service corporation on behalf of several Portland firms. The complaint also asks damages of \$1000 against the Credit Service company and \$500 damages against Bert C. Thomas, local attorney.

JUDGE STONE TELLS 'EM

The above cartoon illustrates the reception that Judge Stone is going to give the citizens who refuse to clean up during this week, and who are brought before him for sentence.

In endorsing Anti-Litter week the judge has this to say: "I shall be glad if every person of any civic pride will do the work required of him; the health authorities should see that the others do it."

J. P. Wells, superintendent of schools, is living up to his endorsement, given several days ago:

"Anti-Litter week will have its value from an educational standpoint as well as from a standpoint of sanitation and public health, and you may count on the public schools of this city being back of the move to the last letter."

J. A. Gordon, retiring president of the chamber of commerce, and who helped inaugurate the movement, submits the following on Anti-Litter week:

"Clean-up week takes care of the errors of the past. An ounce of prevention is worth a pound of cure." Conditions should never be allowed to get so bad that clean-up week will again be necessary. It is easier, more economical and better in every way to keep things in an A-1 condition than it is to let conditions get into a delapidated state. Every respectable man or woman should not hesitate to admonish people who expectorate in public places or throw newspaper litter, etc., on the streets. It must be borne in mind that the majority of people who do these things are not vicious, but are thoughtless, and will not resent a remonstrance.

The city trucks will cover the territory west of Fifth street tomorrow and all litter piled out in front, in sacks, boxes or other receptacles will be hauled away without cost. The territory from Fifth to Twelfth streets will be covered on Friday, and all territory east of Twelfth on Saturday.

NATIONAL RATE SLASH ORDERED BY COMMISSION

(Continued from Page 1)

gible cuts, he said, probably could not be made.

The secretary's position contrasted radically with that of state commissioners, whose members centered a good deal of their attack on passenger rate schedules, which they alleged to be too high for the traffic, and in reality the cause of low railroad earnings.

Representatives of the steel and iron industry asked more stringent and immediate action, principally arguing that commission should remove the entire 40 per cent increase put on eastern rates on their products in 1920. The national industrial traffic league, representing shippers generally, took much the same position. The coal industry elaborated Mr. Hoover's proposals, asserting that basically coal costs influenced price of so many other commodities that cuts in rates on it, particularly upon bituminous coal, would have a beneficial effect. The farming interests were not so urgent, particularly in view of the fact that agriculture rates went down while the discussion was before the commission.

Members of the commission themselves found much difficulty, it was indicated during the weeks after the taking of testimony ceased, in working out a line of action. A decision expected by April 1 was many more weeks in the making than even the traffic experts and the railroad observers expected, but it was pointed out that the record of testimony and the transportation subject itself were of immense magnitude. There was also a suggestion that delay might have been desired in the matter to allow business conditions and price levels to stabilize further, and to see whether or not the railroad labor board might find it possible to allow wage cuts railroad, were seeking.

"THE MOTHER AND THE LAW" AT THE STRAND TONIGHT

Playgoers who are familiar with Mr. Griffith's earlier triumphs, "Hearts of the World," "The Fall of Babylon," etc., will be especially interested in this recent production. True, in "The Mother and the Law," he has gotten away from the smoke of battle and the scenes of combat that were so remarkably depicted in "The Birth of a Nation" and earlier works, but the new and tremendous domestic drama brought into being in this latest work will undoubtedly prove one of his most notable contributions to the screen.

The cast for "The Mother and the Law" is thoroughly representative of a Griffith company. The principal players include Mae Marsh, Robert Harron, Miriam Cooper, Ralph Lewis, Walter Long, Alberta Lee, Margaret Marsh, Tod Browning and others whose names are familiar to those who patronize the higher form of motion pictures.

FAIRM POINTERS

Three Points to Watch

Three principal causes for poor corn yields are lack of clover or manure in the land the year preceding, use of varieties too late for Willamette valley conditions, and failure to plant enough live seed to get a full stand. Acclimated seed planted 1 1/2 inches deep is best.
