

DISTRICT 2 IS WINNER

Award Is Made in Anti-Litter Week Clean-Up Campaign

District No. 2 won first prize in Anti-Litter Week, and all the children in the district who participated in the campaign will be banqueted at the chamber of commerce tomorrow evening at 7:30 by the Women's Auxiliary. Ice cream and cake will be the principal items on the menu.

Herbert Burlison is chairman of the Juvenile Division of this district, A. M. Collier is chairman of the Men's Division and Mrs. R. E. Wright is chairman of the Women's Division. The inspection committee covered the city this morning and found that every district in town had benefited considerably from the clean-up.

W. O. Smith, chairman of the street committee, reported that the town was cleaner at present than at any time he could recall since he had come to the community. So generous was the response to the clean-up movement that the three city trucks which began operating Thursday morning were unable to finish during the three days, and are continuing today to clean up parts of the city that were overlooked last week.

Districts 5, 6 and 7 were given honorable mention by the committee, but they were unable to select a second choice from these three. The chairmen in district No. 5 are Dr. and Mrs. C. V. Fisher of the men's and women's divisions and Merle Swanson of the children's division. In district No. 6 the chairmen are J. S. Bateman, Mrs. Geo. Grizzle, and Forrest Colson, chairman of the juvenile district. In district No. 7 the chairmen are Frank N. Ingwersen, Mrs. G. I. Wright and Archie Michaels.

In giving the report the committee mentioned that although district No. 2 was not the cleanest in the community at present, they had to take into consideration that it was one of the dirtiest at the beginning of the campaign and had shown more activity than the others. Districts 5 and 6 are well kept but during clean-up entered into the movement most heartily, regardless of the good appearance at the beginning of the campaign. District No. 7, which includes Michigan Avenue, was commended by the committee for the activity shown in view of the fact that they were not served by sewer connections and had more difficulty in keeping up appearances than other parts of the community.

ALIENS NOT EXEMPT

Supreme Court Upholds Law Providing Against Fishing Rights

WASHINGTON, D. C., May 29.—Aliens enjoying fishing rights on the Columbia river before 1919, claimed under the provisions of a compact between Oregon and Washington, are not exempt from the Oregon 1919 law providing that only citizens should be licensed to fish for salmon with fixed appliances, the supreme court held today.

The statute has been sustained by the United States district court and circuit court of appeals.

BASEBALL DECISION MADE

WASHINGTON, May 29.—Organized baseball is not interstate commerce, and clubs are not liable under the Sherman Anti-Trust law, the supreme court held today in deciding against the Baltimore club of the defunct federal league. The court set aside the verdict District of Columbia supreme court, awarding the Baltimore club \$240,000 damages.

IN MEMORY OF THE YESTERYEARS!

By HAL COCHRAN

THREE generations of women today
All with a single thought,
Are paying respect to the memory
Of those who in wars have fought.

Grandmother, mother and daughter, too,
Are shedding a memory tear;

They may smile for the peace that has come anew,
Yet they sob for the yesteryear.

The memories stay, though the years roll on,
And the feelings of reverence increase
For grandfather, father and son, who fought
That our country might live in Peace.

INDUSTRIES IN WEST CONTINUE TO SHOW GAINS

(Continued from page 1)

ported, notwithstanding the fact that deposits in these banks increased from \$1,114,082,000 to \$1,152,807,000, or 3.5 per cent and they were able to reduce their borrowings from the federal reserve bank from \$22,651,000 to \$14,672,000, or 35.2 per cent. Borrowings of all member banks from the federal reserve bank declined from \$49,025,000 to \$43,279,000, or 11.7 percent in the four-week period ending May 10.

"April was a month of little or no improvement in retail and wholesale trade. A decline of 1.3 per cent in the value of sales at retail compared with sales in April, 1921, was re-

Master buying was included in March sales last year and in April sales this year. In eight of the ten reporting lines of wholesale trade the value, and probably the physical volume, of sales was less in April, 1922, than in April, 1921. The exceptions were agricultural implements and hardware.

"Building permits issued during April give further evidence of exceptional activity in construction and building. Permits issued were 16.5 per cent greater in number and 51.6 per cent greater in value than in April, 1921, and were approximately equal to the permits issued in the record month of March 1922. The volume of business transacted in the district reflected in reports of debits to individual accounts in 20

principal cities was practically the same in April 1922, as in March 1922, and April, 1921. The number and liability of business failures, although large, was less than in the

previous month. "Employment in the district is increasing rapidly as industrial activity increases and reasonable farm and construction work is begun."

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.—Adv.

IF SKIN BREAKS OUT AND ITCHES APPLY SULPHUR

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement, it quickly shows. You can get a little jar of Mentho-Sulphur at any drug store.—Adv.
