An illiterate justice of the peace used to consult what looked like a law book, but was really a mail order catalogue. One day a negro was hated before the justice on a charge of drunkenness. The justice heard the evidence and then, after opening his book and glancing at it, fined the negro \$4.49. To be worked out on the road, at \$2.25 cents per day. As the negro was being led away he said to the marshal, "I sho' is a unucky nigger!" "Unucky nothing!" said the marshal. "If the justice had happened to open that book at automobiles instead of pants you'd be working on the road the rest of your life."

You Save Big Repair Costs by painting now

YOU can't escape. Either you paint your home when it needs it or you spend from five to ten times as much rebuilding what has rotted away for lack of paint protection.

Painting costs so little compared to the service of saving it renders, that failure to paint is utter extravagance.

Painting is economy and an additional economy is found in using the best paint. It spreads easily—saves labor cost. It covers more area per gallon than "cheap" paint.

But most important, the best paint serves five or more years longer than "cheap" paint. It assures better results at a lower cost in the long run.

We have been making the best paints for 73 years—to meet the weather conditions in the West. The best materials—PIONEER
