Gerald Paffenbarger Gives Police Warm Reception Before Capture

PORTLAND, June 12.—The police here early today engaged in a fight with A. Gerald Paffenbarger, who yesterday had a want ad in a newspaper calling for donations for Grover Cleveland Bergdoll, slacker.

The officers tried to find Paffenbarger yesterday to investigate the reasons for the ad and located him in his room early today. Paffenbarger knocked one officer down, escaped from two others, but was finally rounded up. He is held on an open charge pending investigation.

Federal officers began an investigation of Paffenbarger when a rubber stamp from the Bonanza, California, arsenal, and clippings concerning several murders, including the Taylor murder at Los Angeles, were found in his effects.

PROBE BRAY ACCIDENT

Coroner's Jury Unable to Fix Blame; Recommends Safe Crossing

DORIS, Cal., June 12.—A report of the findings of the coroner's jury who investigated the cause of death of John Hayworth and O. A. Wilkins, two prominent Dorris citizens, killed Friday evening near Bray when Southern Pacific train number 49 smashed into a car in which they were riding at a crossing, was given to the public Saturday evening. After exhaustive examination, including members of the train crew and passengers on the train, and a trip to the scene of accident the jury was unable to fix blame for the disaster and reported the following:

"We, the undersigned, recommend that the parties responsible for maintaining a crossing at this place take steps to eliminate or make it a safe crossing."

Witnesses were examined at great length to ascertain whether or not the whistle was blown and the bell sounded by the engineer and fireman before the crossing was reached. Nearly all were unable to state positively but some were of the belief that these warnings were not given until after the automobile was hit.

Funeral services were held for both victims of the accident yesterday afternoon at the Congregational church. Local members of the Knights of Pythias lodge conducted services at the cemetery. They were assisted by Knights from Klamath Falls. Wilkins was buried here and Hayworth will be taken to the family plot at Yreka today.

Stanley V. Russ and his young wife, who were also occupants of the ill-fated automobile and were seriously injured, are recovering. Mrs. Russ, was more seriously injured than her husband, is recovering slowly but is thought to be past the danger point.

NINE ARRAIGNED IN CIRCUIT COURT TO PLEAD TO CHARGES

All Who Appear Enter Pleas of Not Guilty; Court Hopes to Con- plete Criminal Cases

Nine persons were arraigned in the circuit court this morning at 9:30 to enter pleas to the indictments brought against them by the grand jury, on various charges.

Alie Vincent entered a plea of not guilty to the charge of stealing a mare from Elliott Moore on June 16, 1921. Working Davis, charged with the killing of Oliver Jefferson on the night of December 14, 1921, entered a plea of not guilty. The co-defendants Elliott More, McKinley David, Leonard Moore and Oray Summers, charged jointly with causing a riot in Chiloquin last January, entered pleas of not guilty, with the exception of Oray Summers who did not appear, and for whom a bench warrant was issued by Judge Leavitt. Elliott Moore also entered a plea of not guilty to a separate indictment against him covering the same set of facts as set out in the joint indictment.

It is intended to try all of the criminal cases at issue during this June term, which will no doubt run over into July.

READY FOR SHRINERS

San Francisco Turning Itself Into Tented Oasis for Visitors

SAN FRANCISCO, June 12.—San Francisco is turning itself into a tented oasis for the 200,000 or more delegates and visitors to the Golden Jubilee of the Ancient Arabic Order, Nobles of the Mystic Shrine, June 13 to 16. For the convention period the San Francisco bay district might justly be termed the Caliphate of California, for it will be made to resemble a bit of the Old World Islam as closely as man's ingenuity will allow.

Regattas and excursions and visits to the great battleships and the lesser craft of the Pacific fleet will be other events. On Friday, June 16, a big steamer bearing Imperial Potentate James S. McCandless and the Grand Divan to Honolulu, McCandless' home, will be escorted down the bay and through the Golden Gate with all the pomp and ceremony of a great Islam pageant.

The outstanding events from a purely spectacular point of view will be the parades. Three have been arranged for, and it is hinted that a fourth, more gorgeous than the others, may be put on as a "surprise." The first is scheduled to start from the transformed ferry building at 9 a. m. Tuesday, June 13, and more than 10,000 marchers, all in the lively hued Shrine-garb, will be in line behind 70 bands. Two night pageants with illuminated floats will follow.

WEATHER PROBABILITIES

GOTHAM STRUCK BY HURRICANE; 60 LOSE LIVES

Death Toll May Be Greater; Many Boats Overturned; Buildings Wrecked

NEW YORK, June 12.—The death toll resulting from a terrific hurricane that swooped down on the metropolitan area yesterday passed the 60-mark today, with indications that the total dead might go higher.

Thousands of row boats and launches dotted the sound off City Island just before the storm broke yesterday, and when it had passed the water was strewn with overturned craft.

Buildings ashore resembled a battle-torn village in No Man's land.

CROSSING CAMPAIGN

S. P. Enlists Auto Owners in Drive to Avert Accidents

SAN FRANCISCO, June 12.—Interest of automobile owners here has been enlisted in the four months nationwide "Careful Crossing Campaign" through which the American Railway association is now seeking to prevent highway accidents at grade crossings, involving railroad trains, vehicles and pedestrians. The campaign began June 1.

Colored posters graphically showing motorists the dangers of carelessness in crossing railroad tracks are being distributed by the Southern Pacific company and other western railroads.

This campaign is similar to the "No Accident" campaign conducted by the railroad, last year and which showed a remarkable decrease in grade crossing accidents.

Railroad officials who have given the subject of grade crossing accidents intensive study are clear in the opinion that the prevention of such accidents is largely a matter of educating drivers of automobiles, both as to the hazards and as to the necessity for exercising caution.

TIENSING, China, June 12.—General Chang Tao Lin's proposals for an armistice with Wu Pei Fu appear to have been simply a ruse to gain time for the defeated Manchurian war lord. Heavy fighting broke out Friday between Chin Wank Tao and Shan Hai Kwan. The battle has been raging steadily for the past three days.

STRAHORN NOT BUSY

"Uncle Robert" Sojourning in San Francisco at Shrine Meet

Though he lays no claim to being an "empire builder," Robert E. Strahorn, at the Palace from Spokane for Shrine week, has played a big part in the development of the Pacific northwest says the San Francisco Examiner in a recent issue. As far back as 1883 he was interested in power and irrigated projects in Oregon, Washington and Idaho; he was builder and first president of the North Coast railroad; was vice-president and general manager of the Oregon, Washington Railroad and Navigation company; built the Portland, Eugene and eastern road in Oregon; and is president of the Oregon, California and eastern and the Surprise Valley Railway company.

"Have no special activities underway right now," says Strahorn, "though business seems to be moving along smoothly and encouragingly."

Mr. and Mrs. Strahorn will remain in San Francisco for Shrine festivities this week.

Ed. note: Possibly when he has exhausted the recreational facilities of San Francisco "Uncle Robert" may desire to visit Klamath Falls on his return trip and inform an eager populace what progress he expects to make in the near future on the Sprague River extension. There is a dubious note in the statement that there are "no special activities underway right now" which rouses apprehension.

RAIL STRIKE MAY BE FINANCED FROM CANADA, IS RUMOR

Would be Means of Evading Dis- cretion Making Unions Liable for Acts of Members

CHICAGO, June 12.—While additional wage cuts swung over the heads of 350,000 more railway employees and awaited only formal release by the Railroad Labor board to slash another \$40,000,000 from railroad payrolls, it was rumored today that any rail strike may be directed and financed from Canada as a means of evading the recent decision of the United States supreme court holding that unions are liable for damages caused by their members.

CRATER L. PICTURED

Current Issue of Volt Devoted to Oregon's Greatest Attraction

Attractive pictures of Crater Lake and the highway from this city are contained in the current issue of The Volt, official monthly publication of the California Oregon Power company. The following classic description of Crater Lake by the late Joaquin Miller is quoted:

"The lake?" "The Sea of Silence? Ah, yes, I had forgotten—so much else; besides I should like to let it alone say nothing. It took such hold on my heart, so unlike Yosemite, Yellowstone, Grand Canyon, when first seen that I love it almost like one of my own family. But fancy a sea of sapphire set around by a compact circle of the great grizzly rock of Yosemite. It does not seem so sublime at first, but the mole is in your eye. It is great, great; but it takes you days to see how great. It lies 2,000 feet under your feet, and as it reflects its walls so perfectly that you can not tell the wall from the reflection in the intensely blue water, you have a continuous unbroken circular wall of 24 miles to contemplate at a glance, all of which lies 2,000 feet, and seems to lie 4,000 feet, below. Yet so bright, so intensely blue is the lake, that it seems at times, from some points of view, to lift right in your face."

Repudiate Agreement

"The organized mine owners repudiated their agreement with the United Mine Workers of America," the report said, "compelling the mine workers to cease work. Packing house employers were likewise guilty of violation of agreements. The contest going on among employers and the printing trades union involves a contemptuous disregard and flagrant violation of an agreement by employers and their associations."

"We have recorded only these violations of agreement by employers which are of national importance. We know of no similar period of time in which there have been so many wanton violations of contract on the part of great organizations of employers. We submit that it is a vital essential that there be a return of good faith in industry, a return to standards of morality which will restore the pledges of men to their true and proper meaning. If it is impossible to have faith in pledges given, then the entire industrial structure will be undermined."

OPPOSITION TO LABOR CHARGED ANNUAL REPORT

Accomplishments Declared Great Despite Year of Strife, Unemployment

CINCINNATI, O., June 12.—The record of organized labor's accomplishment in "a year of unusual strike and unusual industrial depression" was laid before the 42nd annual convention of the American Federation of Labor today in the report of the federation's executive council.

The report declared that American labor during the war not only suffered from the widespread unemployment that existed but was beset "by opponents more active and determined than ever."

In addition to strictures on the conduct of employers in numerous cases, the report added explicit and pointed criticism of congress and of some state legislation bodies, declaring such branches of the government to be "succumbing to a wave of reaction. Fault was found with the action of some courts, including the supreme court, and with what was described as President Harding's "proposal to regulate trade unions."

Achievements Shown

"It is with no little satisfaction in view of these circumstances," the report on the other hand declared, "that we are to lay before this convention a report of achievement, a report on solidarity, a report of constructive planning, and a report that can only inadequately portray the militant spirit with which our movement has come through the years. The audacity of those who have made it their business to attack in every possible manner the military organizations of the workers has had no parallel in our country. What our movement has been compelled to meet has been a condition in which the predatory powers have sought to break down all resistance in every quarter and to enrich themselves at the expense of the whole people. No experience has testified as eloquently to the fundamental soundness of our organizations and to the manner in which they serve the workers. We shall fight with a greater confidence because of the record that has been made."

The report declared that in the direct labor field "workers in a number of industries have been compelled to resort to cessation of work," because "organized employers" were "unwilling to meet workers in conference for negotiations." The most important instance of this policy was declared to be the cause of the existing coal mine strike, although troubles in the textile, garment, printing, granite and packing house industries also were cited.

Protest Court Decisions

Turning next to courts, the executive council protested "most emphatically against such unjust and inhumane decisions" as that of the supreme court voiding the act intended to abolish child labor in the United States. Congress "by this decision, must keep its hands off when the death and life and well being of the nation's children are concerned."
