THE MAN WHO WINS

"The man who wins is an average man.
"Not built on any particular plan;
"Not blest with any particular luck—
"Just steady and earnest and full of pluck.

"The man who wins is the man who works;
"Who neither troubles nor labor shirks;
"Who uses his head, his hands, his eyes—
"The man who wins is the man who tries."

BOOSTING

THE Shawnee (Oklahoma) Chamber of Commerce is getting a lot of publicity through a series of boosting articles that are being published by newspapers all over the country.

Advice that applies to every community is handed out from time to time. Below is one of the latest articles:

Did You Ever Stop To Think—

That you should never lose an opportunity to let the outside world know more about your city.

That you should stimulate among your own people more pride in their city.

That you should encourage, by your patronage and moral support, the industries and manufacturers of your city.

That the sure way to reach the big buying public is through the advertising columns of your newspapers.

That service, together with a high quality of merchandise, can be bought from your home merchant. Why buy by mail? Buy at home.

That you live in a country rich in natural resources, where land values are low and fertility high.

That if a man does not believe in the city in which he lives he should move to some other city. He won't be missed, he will just make room for a man who does believe in it.

That the long summer days of prosperity are just ahead. Those who are still skeptical about the greatly improved conditions of our country should wake up, look around, read the newspapers, get up-to-date!

That your newspapers are your city's best friends.

That your merchants, manufacturers and wholesalers carry large stocks of reasonable merchandise. They are not surpassed by any city of your size in the world, and equalled by few.

SAFE YES—SANE?

THE Herald can work up no overwhelming enthusiasm in favor of the abolition by the last legislature of firecrackers, torpedoes, cap pistols and other means of celebrating the birth of the nation, dear to the heart of boyhood.

Looks to us like it will take a lot of zest out of Fourth of July celebrations. It's a direct blow at the personal liberty of Young America that will not cause him to look with any higher reverence upon the intelligence of the men who make the laws of the commonwealth.

We realize that the intention of the law-makers was to prevent injury and death, and property loss by fire. Personally we prefer a quiet Fourth, but putting aside the legislators' good intentions and our personal preferences, we do not believe that the firecrackerless Fourth will rouse the same enthusiasm as the old holiday of din and confusion. We do not believe it is fair to the kids. We see more harm than good in it.

Seems like another shining sample of freak legislation. Oregon's solons have certainly taken the 'riot' out of patriotism this time.

The law grants the kids the privilege of standing by while duly delegated experts loose the pyrotechnical display provided by the municipality. They can look but mustn't touch and the getting off of a single firecracker or the discharge of a single pistol cap makes the red-blooded youth whose desire is for action in which he is the chief actor, a law-breaker.

Why didn't they go the limit and abolish fireworks entirely? Incidentally they might have abolished the observance of the Fourth of July! This thing of municipal fireworks in which the growing generation has only the part of witnesses looks to us like adding insult to injury.

"Eye Strain and Headache"

There is only one way of obtaining relief from EYE Strain and many times headache and all its troublesome accompaniments, and that is to wear glasses that will give clear vision without strain.

The only way to get such glasses is to have the eyes examined by a competent Eye Specialist in order that the exact needs of the eyes may be scientifically determined.

Be careful in all matters concerning your eyes—never try to select your own glasses. We prescribe the proper lenses after a careful examination and grind them to suit the requirements of each individual eye.

Come in and see how it is done. Visitors are always welcome.

We have helped hundreds of people; maybe we can help you.

contained in Federal Judge Anderson's order at Indianapolis, enjoining continuance of the "check-off" system of collecting miners' union dues, and in Federal Judge McClintic's decision in West Virginia against strikers of the same union in that state. This latter decision the report characterized as "conclusive evidence that the injunction as used is devoid of all sense of fairness and decency and that our courts of equity can be turned conveniently into instruments of the greatest iniquity whenever it will best serve the interests of soulless corporations and a mad desire for wealth."

Possibility of "relief from the constitutional use of the writs of injunction" by legislative action lay in the political field, the report said.

The executive council described its renewal of non-partisan political campaign organizing in advance of the fall elections and expressed "satisfaction over the wonderful enthusiasm expressed" by every local organization of labor in the effort which it said proved that "not only the wage earners, but the great mass of our citizenship are crying, for relief." The campaign effort will be to focus votes behind a program of "opposition to compulsory labor law," and "opposition to injunctions and contempt proceedings as a substitute for trial by jury," the council said.
