

The Office Cat

BY JUNIUS

Not A Popular Idea

An old grey, according to J. C. Boyle, is any man who thinks it is useless to waste time trying to get something for nothing.

The lady who declares she would not marry the best man living usually changes her mind and marries one of the worst men living.

"Sawed His Way Out of Jail with a Freshly Laundered Collar" is a headline we've been confidently expecting.

The Pitcher and the Well

"Did you participate in many engagements while in France?" asked the interested old lady.

"Only five," replied the ex-A. E. F. with becoming modesty. "And you came through them all unhurt?"

"Not exactly," he returned sadly. "I married the fifth."

E. J. Murray says when a statesman refers to the people it is hard to tell whether he says "the masses" or "them asses."

When you speak four inches away from the telephone transmitter it lengthens the line 218 miles. Two inches away lengthens the line 128 miles. To get best results "talk up" to your telephone.

So says a bulletin dealing with public utilities. Our suggestion is that you be sure who is on the other end of the line before you "talk up."

Widespread Error

Vance Hutchins says almost any wife thinks she would be able to live on her husband's income if it were doubled.

Books And Eyes

I love your eyes of azure hue. Laughing, mischievous eyes of blue. I love your eyes.

I love your eyes shyly glancing down. Tender, wistful eyes of brown. I love your eyes.

Misty veil of a foggy day. Deep, mysterious eyes of gray. I love your eyes.

I love eyes of a devil's black. That hid me go, yet draw me back. I love your eyes.

Whether your eyes are blue. Black, brown or gray. I do not know, but anyway. I love your eyes.

And when we read about famous men who work twelve hours a day we grieve obscurely.

The emptier the head the easier it is to fill it with hot air, gargles Henry Stout.

On the Other Hand
Elinor Glyn says the boys obey the flappers like dogs. Usually, however, the flappers eat out of the boys' hands.

"What makes our girls run around so?" worries a leading Klamath Falls club woman.
Maybe hunting her mother.

Teacher—Don't you know that when you take something away from something, less will remain?
Infant Einstein—How about the two ends of a stick. Cut 'em both off and it still has two ends left.

This Pure Cream Stops Head Colds
Apply in Nostrils—It Opens Air Passages Instantly.

Childs and catarrh yield like magic to soothing, healing, antiseptic cream that penetrates through every air passage and relieves swollen, inflamed membranes of nose and throat. Your clogged nostrils open right up and you can breathe freely. Hawking and snuffing stop. Don't stay stuffed up and miserable.
Get a small bottle of Ely's Cream Balm from your druggist. Apply a little in the nostrils and get instant relief. Millions endorse this remedy known for more than fifty years.—Adv.

SAGE TEA TURNS GRAY HAIR DARK
It's Grandmother's Recipe to Bring Back Color and Lustre To Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre to your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.

Your Spine
INTERFERENCE of nerve energy is the primary cause of disease.
THIS INTERFERENCE is caused by misaligned joints of the spine.
A PERFECTLY adjusted spine releases nerve energy and brings health and happiness.
A CHIROPRACTOR seeks to find the anatomical cause of disease. He is then dealing with a condition, a fact, a cause, not a symptom. His correction is an adjustment, a mechanical restoration of the disturbed joints of the spine to their correct position.
EVERY ORGAN functions through nervous energy. When your spine is normal this energy is unimpaired.
