

**P. S. Catches a Rainbow
Hopes to Get a Big One**

Letter from Phil Space of Klamath Falls to his friend Ed Jenkins, in Oakish, Wisconsin, former home of Mr. and Mrs. Space.)

Dear Ed:
Well here I am, Ed. After making a home for I and the missus in Klamath Falls we decide to give the county the once over and find ourselves at Rocky Point on Klamath Lake. The reason I go to this place is to catch a fish, which I did considerable.

When I tell you I catch a fish, Ed, I don't mean some of those perch we catch in the mill pond when we are kids. This fish is the kind you see pictures of a party holding them and having some trouble holding there tails off the ground. Mostly you troll for them with a put-put boat, which should have a good engine or when a fish takes your hook your boat goes backward and the fish is catching you.

Well, the missus wants to do all the fishing, so I let her. You know how it is with the women Ed always wanting there way. Off the mouth of Crystal creek the boat slows up and the missus says for petes sake keep her going. I say can't you see she is putting alright. But the boat don't move and she keeps yelling at me and I think we is run on a reef or something. Then the boat starts to go backward like one of those crawfish, which I think is darn funny and don't no what to make of it.

About this time they is a bird comes along in another put-put boat and he yells at the missus why don't you pull him in. The missus looks sour at me like she thought this bird means me but I tumble and make a grab for the line, which I see the missus has tied to the boat and don't hur waha has got a bite.

Well, to make it short, Ed, we hitches the other put-put boat onto

ours and this way make headway back to Rocky Point where they is a man named Allen which runs the place calls out his force and gives us a lift. Finally we lands mister fish, which is just three inches longer than the put-put boat, and no wonder he could pull the boat. Allen says that a nice little rainbow Mister Space and if you keep on you should get a mess and maybe a big one.

Now I ain't much on this kidding stuff and I asks this bird how he gets that way and he gets soar and says what am I talking about and he only wants me to have a good time and get a fish. So I says alright I has got all the fish I want and if I go fishing there any more I hires a ocean liner and a string of scows to carry my fish and a steamshovel to land them. Then I cuts this fish in 10 (ten) pound slabs and packs him up and brings him back to Klamath Falls in the Oakland which is the passenger boat and puts him on ice. Now we get fish three times a day and when I howls for a beat stake the missus says no it ain't right to waist food even if the war is over you eat fish.

Howsoever, we has a good time and when I get a lay off I aim to try it enet more and maybe I gets a mess of fish and maybe a big one.

Yrs. as before,
Phil Space

"Nothing but a real medicine would do what Tanlac has done for me," said Rudolph Redman, 847 Kellogg St., Portland Ore.

"In the past three years it seems like I have taken everything under the sun for a bad case of stomach trouble. My appetite was so poor that even the little I did eat failed to digest properly, causing me awful pains. I had severe headaches and at times would be blurred before my eyes and I would nearly fall. I was so nervous the least little noise would cause me to jump. I came down to Portland from Canada, but my condition became so bad I had to lay off from time to time.

"But Tanlac has done the work for me. My appetite is just fine, I eat anything I want and the head aches and dizziness are all gone. I've been gaining in weight and strength right along and don't hesitate to endorse Tanlac heartily."
