John—"Just earned up a \$100 bill."
Dentjohn—"You must be a millionaire."

The Old Gray Mare

The old gray mare I used to drive,
Is out of use but still alive.

Who once was brimming full of speed,
There's something lacking in her eye.

That makes her seem to want to sigh,
The nothing man could do or dare.

Would make me part with my old mare—
For long we've known each other well.

And many stories we could tell
Of times when we a-flying went.

To meet the ones on pleasure bent,
To keep her for the fun we've had.

Her box still warm as my log,
Has windows facing my log.

And you should see her looking loved,
At me when cranking up my Ford.

John then says, it's much easier
To impress the neighbors than to impress the man.

The Great American Festival
Pat was helping the gardener on a gentleman's place and, observing a shallow stone basin containing water, he inquired what it was for.

"That," said the gardener, "is a bird bath."

"Don't go be foolish," said Dentjohn. "What is it?"

"A bird bath, I tell you. Why do you doubt it?"

"Because I don't believe there's a bird alive that can tell Saturday night from any other."

Without any actual work to do, the head is just a loafing place for thoughts and ideas, suggests Geo. Chapman.

She—"How did they ever come to marry?"

He—"Oh, it's the same old story. Started out being good friends you know, and later on changed their minds."

Two pints used to make a quart, we learned, but now they make a funeral.

To Better Advantage
"Ethel has a new bathing suit."
"I suppose she is anxious to show it off."

"No," I think her anxiety is to show it on."

A Hard Case
Betty—"Uncle is going to marry Mrs. Whosis to reform him."

Helen—"How interesting. What is it? Drink, cards, gambling or what?"

Betty—"He's a tightwad."

The ideal hammock says John Houston should be just large enough for one, but strong enough for two.

One Word More
"Have you given Jack his final answer yet?"
"Not yet—but I've given him my final 'no.'"

Woman's page note from the Klamath Industrialist: "If rescued early enough, a bathtub with a fringe makes a fetching dress."

The Diagnosis Was All Right
"You'll have to take less strenuous exercise and sleep more," said the doctor to the dejected looking Lewis street man who appeared before him.

"That's my idea exactly, doc," explained the other, brightening a trifle. "Would you mind coming up to the house and telling that to the baby?"

WANTED

For service as Railroad Machinists, Blacksmiths, Electricians, Sheet Metal Workers, Pipe Fitters, Copper Smiths, Car Repairers, Timers, Car Inspectors, Helpers—all classes. Under strike conditions best explained by Chairman Ben W. Hoover of the U. S. R. R. Labor Board, in his statement of July First reading as follows:
'In this case the conflict is not between the employer and the oppressed employees. The people of this country, through an act of congress signed by President Wilson established a tribunal to decide conditions which are submitted to it in a proper manner over such dispute. It is the decision of this tribunal against which the shop crafts are striking. Regardless of any question of the right of men to strike the men who take strikers places are merely accepting wages and working conditions prescribed by a government tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. For this reason public sentiment and full government power will protect the men who remain in their positions and new men who may come in.'
Adequate provisions have been made for the full protection of all non-employees the same as old employees who have remained loyally at work. Applicants should apply to the office of the Superintendent at Portland Union Station, or to the assistant Superintendent at Roseburg.
