**Packard Twin Sixes used exclusively**

## Useful Style

Well, that covers an aluminum fan and when you're warm you just slip it off your hat and stir up a little breeze. Mrs. Samuel Landon, New York, invented it.

## If You Never Have Before— Do It This Week!

Think about your legs! Your garter is a little thing, but it surely can raise thunder if it isn't right! If it binds—or pulls—or is hot and heavy—or the metal rots the fabric.

We realized this six years ago. And we designed a garter that hasn't any metal at all—that doesn't get hot, heavy pads—that won't bind.

That garter immediately made friends all over America. Our sales on Ivory Garters have grown faster than any garter sales in the country.

### This week we want

every man in this city to know about Ivory Garters. Good stores all over town are displaying them in all styles, colors and prices. It's the time for you to buy Ivories and give your legs the greatest garter comfort they ever knew.

If you have used Ivories before—we don't need to tell you to use 'em again. You know you can't get a better garter.

**IVORY GARTER CO.**  
New Orleans, La.

**Ivory Garter**  
Every inch a garter!

### ALGOMA

A large bunch of Frank Adam's cattle passed through here last week.

Miss Gertrude Cox returned from Ashland where she has been on a visit.

Mr. and Mrs. Wm. Uhrman went to Chiloquin Sunday to visit their daughter, Mrs. I. Davidson.

Ketsdever Bros. are having quite a bit of trouble in drilling their well, as they have hit some hard substance at 50 feet which the casing is unable to penetrate. They have moved their drill to another location to see if they can get a payser.

S. A. Masters went to Klamath Falls Wednesday to transact business.

Mr. and Mrs. John Hagelstien went to Sprague river to look at their cattle which have been pastured there.

### SHASTA VIEWS

The rain Wednesday evening was the heaviest rainfall in this section for many years at this season and it caught a large portion of the alfalfa in the shock. Dry ranchers think it is the saving of their wheat crop but is a little late to benefit the eye.

White C. M. Kirkpatrick was starting the mower on the Hale place a few days ago his team became frightened and ran away, going through a wire gate where the machine stayed. They were caught out in the pasture where one tried to go on one side of the juniper tree and the other, chose the opposite side. But as the neckyoke was still attached to the harness they did not go any further. The only damage was to the tongue of the mower which was broken.

Dick and Ray Pickett and John Liskey were lucky enough to sell a car load of mules to a California buyer last week. They were purchased for a large ranch where tractors had proved unsatisfactory.

Sunday evening Mrs. C. W. Miller and children Lena, Letha, Thora and Jack, of Klamath Falls brought Miller's mother, Mrs. C. C. Miller, to visit at J. L. Bailey's and with other friends in this section.

Henry Krupka whose home is in the vicinity of Rouge River is back here for a few weeks and is haying. Hay is very scarce out this way and the women and girls are "back to the mowers and rakes" again.

Mr. and Mrs. G. W. Myers and daughter, Eva, and son Byron, were callers at John Bailey's Tuesday evening. Mrs. Miller returned with them to their California home for a few days visit.

Frank Ottoman and family are enjoying a new Chevrolet car.

Mr. and Mrs. E. L. Elliott of Klamath Falls were visiting their ranch home here Sunday last.

July 28 is the date set for the signing of the contract between the government and the Malin and Shasta View Irrigation districts. It carries it will put under irrigation by pumping about 10,000 acres of the best land in Klamath county and the most free from alkali and frost.

A census taker of automobile traffic on the new highway was in Malin Wednesday and the number of cars at 5 p. m. was 126. It is understood a census is taken once a month for three months by the state to ascertain the average traffic on the highway.

BUSTER, BUSTER. My dog, says if you want to trade follow him. Perkins. 17-22

M., on the 5th day of September, next, at this office, the following tract of land: SE 1/4 SW 1/4, Sec. 9, T. 40 S., R. 13 E., W. M. (containing .40 acres.)  
The sale will not be kept open,

### Form

No college athlete displays better form in putting the shot than Hilda Curtis. She took part in the recent women's athletic meet at Oakland, Cal., held by the A. A. U.

## TOM SIMS SAYS

A nickel isn't as good as a dime, but it goes to church more often. One day last week a man understood what a train caller said. After mixing business and pleasure business never looks the same. Another society crook has been caught. Some people are not known by the company they keep. You seldom see a fly going out through a hole in a screen. Every family tree has some crooked branches. No matter what happens, somebody always knew it would. The honeymoon ends when the furniture store collector begins. In Africa native girls want American clothes. Somebody is going to get sunburned. Women are vain, but every barber's mirror sees some funny things. Maybe these reformers could stop the fish from biting on Sunday. Lots of aviators fall down on the job because they don't learn the business from the ground up. So many women are shooting their husbands the men are getting afraid to take out insurance. Why is it nearly all rich men look like 39 cents. All you have to do to get a crowd to follow you is find out which way the crowd is going. People with the biggest houses don't need them the most. It takes all kinds of people to make a world, but only one kind to ruin it. Some people enjoy a vacation; others spend the time writing home. Our ambition is to be so rich we don't have to pay our bills.

### THE JERRYSCOPE

By JERRY OWEN  
(In the Oregon Voter)

Hot weather stuff is on again. And sad perspiring gents stand on the corners and complain of temperatures intense. They cuss old Sol for all his sins. Hay fever, prickly heat, And unslaked thirst, And wienewurst, And bunions on the feet.

They sneeze because the forest fires. Have checked the air with smoke. And blotted out the sun and moon. And say that life's a joke; They mourn the fields of oats and prunes All shriveled on their stems. Where once they grew In morning dew The farmer's diddams.

They jaw about the women folks, And call the whole sex flirts because they roll their socks, and go Without wool undershirts. In their heyday the girls were shy. And goods were not so thin; But now they're on That fair Yvonne Is really made of skin.

When we were young we lived for years Down where the cactus grows. Where horny toads are under foot And muddy water flows; Where heat is heat, and wind is wind, And sand storms are a curse; It makes you yell That priestcraft's hell Can't be so awful worse.

Belleve us, gentle Oregon With warm days now and then. Speed off by cool and purple nights. Is blessed of all men; We'll gladly stand the smoke and sneezes, And undressed maids, and thirst. Because we know, Oh, don't we though, We're far off from the worst.
