ONE SPARK

The weather was hot and dry. No rain for a month. The east wind moaned through the trees.

The crash of falling trees. The ring of axes. The s-w-i-s-h of saws. Logs, logs everywhere.

A glowing spark from the stack. A wisp of smoke. The hiss of burning pine. Cracking flames sweeping onward, skyward.

One little spark—and in its wake 20,000 acres of fire-swept land; 15,000,000 feet of burned timber; four logging camps, 18 donkey engines, one locomotive, 25 flat cars, 20 houses, and three automobiles in ashes, and \$90,000 worth of property gone up in smoke.

It all happened this summer in the State of Washington. It could happen any summer in any forest.

IN THE COURT

Horsefly Decree Signed. Final decree, confirming the proceedings had in the county court, was signed by Judge Leavitt this morning in the matter of the Horsefly irrigation district, this being the final step in circuit court before issuance of bonds and other matters contemplated by the district.

Gutta Percha vs. Saddle. Mr. Lumber Co., et al. Default judgment was obtained by the Gutta Percha & Rubber Manufacturing company against the Saddle Mountain lumber company, F. Hill Hunter, and the Sawmill Engineering and construction company for \$529.92 and for costs and disbursements amounting to \$20.60.

Ross vs. Cowden, et al. Default judgment was entered by Judge Leavitt this morning in the case of N. I. Ross against H. J. Cowden and A. T. Yamaguchi, for the sum of \$375, and \$37.85, with interest until paid at 8 per cent, and providing that a ten inch by 24 gas-line ditching machine be sold under the judgment.

Hunt vs. Vincent. Pursuant to the court sustaining a motion of plaintiff for default judgment, in the case of Dr. Warren Hunt against R. O. Vincent, judgment in the sum of \$8137.00, with interest at 8 per cent from February 17, 1921, \$75 attorneys fees, and \$31 as costs, was signed by Judge Leavitt this afternoon. The suit involved a charge for services rendered.

County vs. Merrill. Condemnation proceedings were brought by Klamath county in a suit filed Saturday against Purl R. and Jane Doe Merrill, in which the county seeks to acquire a strip of land 60 feet wide in section two, township 41, being a part of The Dalles-California highway. It is alleged that the county offered the Merrill's \$1250 for the strip of land, which was refused, and the county now seeks to get the land for \$1500.

Maddox vs. Hart. Suit in equity was filed Saturday by J. A. Maddox against H. H. Hart and W. S. Hart, seeking to foreclose labor and material liens aggregating \$583.60, \$1.25 as lien filing charges and \$150 attorneys fees, the liens being filed against the Hart theatre building.

Industrial Commission vs. Adams. Suit was filed Saturday by the Industrial Accident commission against Robert S. and William M. Adams, co-partners, in which the commission seeks to recover \$97.41, charging that this amount is due from the Adams' as fees because of protection given their workmen under the Industrial act.

Accident Commission vs. Howie. Seeking to recover the sum of \$121.90 from James E. Howie, the State Industrial accident commission, filed suit in the circuit court charging that this sum is due the commission as fees from Howie for protection to his workmen under the law.

SPORTS

Cubs Regain Laurels From Beatty Wildcats

The Klamath Cubs regained their laurels from the Beatty Wildcats on Modoc field Sunday with a final score of 12 to 10. The Wildcats crossed the home plate four times in the first inning and held the lead until the seventh when a spurt by the Cubs tied the score 9 to 9. In the eighth the Cubs romped home with two runs which the Wildcats were unable to overcome.

Manager Al Baker of the Cubs announced that the Dorris Demons will meet his team on the local diamond next Sunday. He declares the Demons are all the name implies and that the game will be a whirlwind affair.

RAIL UNMERRER

Union Pacific found itself with nearly \$8,000,000 invested in the line from Ontario to Crane. The line across the state from Odell to Ontario runs for the greater part of the distance through an unproductive country, but its construction and operation was justified in the original plan, which contemplated the movement of eastbound tonnage originating in the Willamette Valley and Western Oregon across the line rather than over the much longer route by way of Roseville, California. The projected line partly constructed across the state is 456 miles shorter from Eugene to Chicago than the line through Roseville, and is 215 miles shorter than the line now projected by the Southern Pacific from the Natron cut-off to Susanville. Having lost the opportunity to secure this business from Western Oregon, the Union Pacific has constructed no part of the gap between Kirk and Oak Ridge on the so-called Natron cut-off during the ten years that have elapsed since the decision of the supreme court in the Union Pacific-Southern Pacific case.

U. S. Files Complaint. In 1914 the United States filed its complaint against the Southern Pacific and the Central Pacific, contending that ownership by the Southern Pacific of the Central Pacific stifled competition and operated to divert business from the Central Pacific to the Southern Pacific. This case was decided on the 29th of May last, and the supreme court sustained the contention of the government and found that the Southern Pacific had diverted business from the Central Pacific by way of its long route, and that the ownership and operation of the Central Pacific by the Southern Pacific was illegal, and ordered the Southern Pacific to divert itself of the ownership of the Central Pacific.

MOVIES

THE STRAND

"The Probation Wife" which will be shown this evening for the last time at The Strand is truly a wonderful picture. Norma Talmadge and Thomas Meighan carry the leading parts and do so with even more than their usual ability.

While in no sense a problem play, "The Probation Wife" does show how one wife solves a problem which is more or less common to all wives. The play also shows the possibilities open to one who is in the lower strata of society, for Josephine Mowbray wanted to be a lady, to have refinement and love, yet she was only a dance hall girl.

Did she win? See the picture at The Strand tonight and learn the answer.

THE LIBERTY

"Perjury," the William Fox special which created a tremendous sensation during its run in a Broadway, New York theatre, opened here last night at the Liberty theatre. It is a gripping drama of acute human emotion, and held the audience spellbound to the end.

The famous screen star is seen first as a vigorous man, happily married, ambitious and successful. Suspicion and jealousy, born of a secret enemy's envy, bring a change, and then comes rage, followed by despair. Prison gates close upon Robert Moore for twenty years, following an unjust conviction of murder, and his wife and children are left to struggle alone in the world.

"Perjury" will have its final showing tonight.

Farming

Get Rid of Lice on Hogs

Lice on hogs can be easily destroyed by the use of amudgo oil or the discarded oil drawn from the crank case of the automobile or tractor. It can be applied with a brush in the case of a few hogs or it can be used in connection with rubbing posts. This treatment destroys the lice but does not effect the egg. It is therefore necessary to give a second treatment at the end of 12 to 14 days when the eggs are hatched. Experiments have shown that lice reduce the effectiveness of the feed as much as one third.—O. A. C. Experiment Station.

Supplementary Feed Valuable

Now in the days of dry pasture is the time to start feeding supplementary feed such as a little grain or silage. If the farmer finds himself unprepared this year he should plan to put in vetch and oats in the fall to have a supply next year. This crop will be harvested in June and July and provide ample supply of silage for the summer months.—O. A. C. Experiment Station.

Codling Moths are Due

The new brood of codling moths is due. Worms will be appearing five to eight days after the appearance of the moths. From Lane county north, therefore, a codling moth spray should be applied July 26 to 30. From the number of worms already evident an August spray is almost inevitable. This will probably be due about August 21 or earlier. Many growers are using a spreader in all spray applications. The station is inclined to believe this advisable, but considers the addition of the spreader particularly desirable answorth while in the August cover spray.—O. A. C. Experiment Station.

Your Architect will tell you— YOU CAN BUILD NOW! Prices are DOWN all along the line—in materials and in labor. YOU SHOULD BUILD NOW, So as to provide jobs for the hundreds who are now out of work, the sooner the better. A man out of work is an obstacle to the coming of prosperity. A man regularly employed fills his needs by purchasing from the stores of Klamath Falls and thereby STIMULATES TRADE IN ALL LINES. WHY PUT OFF ANY LONGER the pleasure you'll derive from living in a new home? Why make your loved ones put up any longer with the cramped quarters and inconvenience of the old place? Why go on paying rent, when you can HAVE YOUR OWN HOME, a place you'll be proud of, and APPLY RENT MONEY TO PAYING FOR IT? CONSIDER THIS TOO— The home you move out of is needed by someone else. There are not enough homes in Klamath Falls to take care of its present population, let alone for the new comers who are attracted to this city by its many advantages. BUILD NOW, and you aid the civic GROWTH of Klamath Falls. BUILD NOW, and you provide jobs for our workers. BUILD NOW, and you put money into circulation, which will make hard times a thing of the past. (REMEMBER, that every dollar you spend in this community soon COMES BACK TO YOU). BUILD NOW — BUY NOW — WORK MORE — EARN MORE. It means prosperity for Klamath Falls. This space paid for by the business men of Klamath Falls for the benefit of the community.
